

PLEASE READ FIRST...

Your Travel and Parking Expenses

We cover travel costs to and from medical appointments for injuries from the accident.

Using a private car:

- You can claim *up to* 100 km each way from where you live, unless the necessary care or treatment is unavailable within 100 km of where you live.
- If you drove directly there and back, claim the total kilometers you drove.
- If your appointment isn't your final stop, claim only the kilometers your appointment *adds* to your trip. For example, if work is your final stop, claim only the kilometers your appointment adds to your trip. If your normal trip to work is 5 kilometers and you go off your normal route to the doctor for a total of 7 kilometers, it *adds* 2 km to your trip to work. Your travel expense is 2 km.
- You can claim parking at your medical appointment too. We need legible copies of your receipts if you park in a lot or a parkade.
- If you parked at a meter, write **Meter Parking** on the form and the amount you paid. You can claim up to \$10.00 per day of meter marking with no receipt.

Taking buses, taxis, Vehicle for Hire or other transport:

- You can claim public transit fares, with no receipts.
- You can claim private bus, taxi fares, or vehicle for hire (VFH) with legible copies of your receipts, if you receive pre-approval from your Case Manager.

If you need to use other kinds of transportation, talk to your Case Manager.

All expenses will be reviewed prior to payment being processed.
