Summary Legal Application

LA.1 Legal Application

1 This Special Rebate Application results from the April 23, 2020 announcement of the

2 Honourable Mr. Jeff Wharton, Minister of Crown Services, that Manitoba Public

3 Insurance (MPI) provide economic relief to its customers during the COVID-19

4 pandemic. MPI makes this Application in the midst of a Province-wide state of

5 emergency, declared pursuant to The Emergency Measures Act, C.C.S.M. c. E80 on

6 March 20, 2020. MPI respectfully submits that these extraordinary circumstances be

7 considered when assessing the nature and content of this Application.

8 MPI hereby applies to the Public Utilities Board of Manitoba (PUB), pursuant to section

9 44 of The Public Utilities Board Act, C.C.S.M. c. P280 and Rule 36 of the PUB Rules of

¹⁰ *Practice and Procedure*, for:

1. an Order dispensing with the requirement under Rule 36(3) that an application 11 for review and variance be made within 30 days of the order or decision; 12 13 2. a review and variation of the directives contained in Orders No. 159/18 and No. 14 176/19, to the extent that they do not require the issuance of rebates; and 3. a directive that MPI issue to ratepayers a percentage of their annualized 15 16 premiums in respect of universal compulsory automobile insurance policies in force and earning premium on March 15, 2020, through a special rebate in an 17 amount equal to the approximate sum of \$58 million, by May 31, 2020 or as 18 19 soon thereafter as is reasonably practicable.

MPI respectfully submits that the COVID-19 pandemic presents a pressing and unique situation that it could not have been reasonably anticipated within 30 days of Orders No. 159/18 and No. 176/19. MPI further submits that, as a result of the COVID-19 pandemic, its financial position has significantly improved at a time when the financial position of many of its ratepayers may have substantially declined, creating an urgent need for support. In this circumstance, MPI submits that it is just and reasonable to direct MPI to issue the special rebate requested herein.

LA.2 Financial Status of MPI

Throughout 2019, and in the months leading up to the COVID-19 pandemic, MPI
experienced favourable financial performance, led by lower than anticipated claims
experience as well as prudent management of investments and operating expenses.
Basic posted year-to-date Q3 net income of \$121.1 million, which exceeded the prior
year period by \$78.9 million. This trend continued into Q4 and, as a result, MPI
entered the COVID-19 pandemic on strong financial footing.

7 Due to the positive results in the 2018/19 and 2019/20 fiscal years, the capital

8 position of Basic grew at a rate faster than MPI anticipated as recently as twelve to

9 eighteen months ago. As a result, MPI is in a better position to withstand the

¹⁰ uncertainty accompanying the COVID-19 pandemic than it would have otherwise.

As the main source of the proposed rebate is the savings resulting from the estimated 11 12 reduction in claims costs for the period March 15 – May 15, 2020; all else equal, the capital position of Basic (and its ability to pay future claims) should not deteriorate 13 significantly. Put another way, as premiums charged during the COVID-19 pandemic 14 are more than needed to cover the cost of claims - the excess would normally flow 15 back to rate payers in the form of future rate decreases through the Capital 16 Management Plan (CMP). The proposed rebate will, simply put, accelerate the rebate 17 to policyholders in the form of a one-time payment, instead of in the future via lower 18 rates. Due to the seriousness of the COVID-19 pandemic and the economic hardship 19 facing many Manitobans, these funds must be distributed to ratepayers in a 20

21 responsible, yet expeditious manner.

What follows is a discussion on the various relevant financial components to this Application. Unless otherwise stated, all 2019/20 figures are shown as the last 12 months to maintain comparability, as opposed to the actual 13 months that MPI will produce in its statutory reporting due to the change in year-end from February to March. Additionally, 2019/20 figures are best estimates and are subject to the finalization of the year-end process and external audit.

LA.2.1 Total Earned Revenues - Basic

1 The following figure assumes 0% rate change in 2021/22 and thereafter:

Figure 1 Total Earned Revenues – Basic

Line

| iscal Year | 2019/20 | 2020/21 | 2021/22 | 2022/23 | 2023/24 |

2 MPI projects its 2019/20 Basic Total Earned Revenues at \$1.116 billion, which is

3 essentially equal to the 2020 GRA compliance forecast. For 2020/21 and thereafter,

4 the reduced revenue forecast reflects revised volume and upgrade projections, which

- 5 MPI will include in the 2021 GRA.
- 6 Regarding the COVID-19 pandemic, MPI has not reduced the 2020/21 revenue
- 7 projections for changes in customer behaviour (i.e. canceling insurance, switching to
- 8 layup (comprehensive) coverage). Although MPI anticipates changes in need and
- 9 behaviour as a result of the COVID-19 pandemic, these changes are difficult to
- 10 predict. As shown in *Figure 2* below, customers to-date have cancelled or reduced
- 11 coverage on less policies than they did during the weeks of mid-March to mid-April,
- 12 2019. Also, as described elsewhere herein, MPI can absorb some reduction in premium
- 13 revenue, should this occur.

LA.2.2 Claims Incurred Before Provisions

| Figu | ure 3 Claims Incurred before Provisions – Basic | | | | | |
|-------------|---|----------|----------|----------|-----------|-----------|
| Line No. | | | | | | |
| 1 | Fiscal Year | 2019/20 | 2020/21 | 2021/22 | 2022/23 | 2023/24 |
| 2 | (\$000) | | | | | |
| 3 | Current Forecast | 789,795 | 830,781 | 919,797 | 955,453 | 992,327 |
| 4 | Compliance Forecas | 822,574 | 927,907 | 965,979 | 1,009,297 | 1,055,926 |
| 5 | Change | (32,779) | (97,126) | (46,182) | (53,844) | (63,599) |

1 Relative to the compliance filing from the 2020 GRA, MPI is forecasting in the fiscal

2 year 2019/20 a \$32.8 million improvement in claims incurred before provisions (i.e.

³ before interest rate impacts and DPAC adjustments), mainly due to a \$38.9 million

4 improvement in the Personal Injury Protection Plan (PIPP) forecast since the filing of

5 the compliance forecast.

In the fiscal year 2020/21, the current Basic forecast improved by \$97 million, which
 amount is comprised of:

1. a \$39 million reduction from favourable claims results in 2019/2020; and

9 2. a \$58 million reduction from the impact of the COVID-19 pandemic.

10 The \$58 million reduction from the COVID-19 pandemic is further comprised of:

- 1. an observed \$29 million reduction in claims costs from March 16 to April 15;
- 12 2. an assumed \$29 million reduction in claims costs from April 16 to May 15; and
- 13 3. no assumed impacts on claims costs from May 16, 2020 to March 31, 2021.

The figures below show the observed reduction in collision claims from March 16, 2020 to April 15, 2020. As indicated, Basic collision claims was 63.5% and claims incurred was 56.6% under budget during this period. The favourable results saved MPI \$17.7 million in Basic collision costs.

| Line No. | | Actual | Budget | Difference | % Difference |
|-------------|--------------|--------------|--------------|----------------|--------------|
| 1 | Incurred | \$13,512,047 | \$31,169,310 | (\$17,657,263) | -56.6% |
| 2 | Claim Counts | 2,890 | 7,928 | (5,038) | -63.5% |
| 3 | Severity | \$4,675 | \$3,931 | \$744 | 18.9% |

Figure 4 Basic Collision Claims Experience – March 16, 2020 to April 15, 2020

1 MPI assumes a perfect correlation between collision, property damage (PD), and

- 2 bodily injury (BI) claims in terms of frequency. In other words, PD and BI claims occur
- ³ because of an associated collision claim, and since collision claims are down 63%, MPI
- 4 assumes PD and BI claims counts will follow the same trend. MPI estimated these
- 5 amounts owing to a lag in the reporting of these claims (especially injury claims).
- ⁶ Based on these assumptions, the projected Basic claims savings from March 16, 2020
- 7 through April 15, 2020 are as follows:

| Figu | ire 5 Fore | Forecasted Basic Claims Savings – March 16, 2020 to April 15, 2020 | | | | | | |
|------|----------------------|--|---------------|--------------|--|--|--|--|
| Line | | | | | | | | |
| No. | | _ | Incurred | Claim Counts | | | | |
| 1 | PIPP | | -\$9,331,095 | - 705 | | | | |
| 2 | Basic Collisi | on | -\$17,657,263 | -5,038 | | | | |
| 3 | Basic Proper | ty Damage | -\$2,083,620 | -2,766 | | | | |
| 4 | Basic Total | | -\$29,071,978 | -8,510 | | | | |

8 The \$29 million estimate in the above figure is the basis for this Application.

9 With the recent extension of public health orders and the provincial state of

10 emergency until May 18, 2020, MPI is confident that it will continue to save amounts

11 at the same proportion.

LA.2.2.1 Risks to MPI's Financial Condition

- 12 In terms of Claims Forecast, Figures DCAT-27 and DCAT-28 from the 2020 GRA
- illustrates what the impact of a 1-in-100 year adverse Loss Ratio scenario a
- catastrophic winter experience would be. This would reduce MPI's Total Equity by \$158
- million, and its Minimum Capital Test (MCT) ratio by 39.8%, without management

16 action.

As of February 29, 2020, forecasted Total Equity at the end of 2020/21 is \$531.7 million – please see <u>PF 2 Statement of Financial Position: \$110M Rebate in 2020/21,</u> <u>No Rate changes</u>. If a 1-in-100 loss ratio event were to occur, this would result in an estimated reduction of \$158 million, Basic Total Equity would be \$373.7 million, or at an MCT ratio of 91%.

- 1 Further, it is important to recall that MPI increased its catastrophic reinsurance
- 2 coverage in the 2019/20 fiscal year, which further mitigates the financial risk of a
- 3 major catastrophic event.
- 4 The Pro Forma statements attached to this Application contain comparatives of actual,
- 5 budgeted, and forecasted statements of operations as at February 28, 2020 versus
- 6 the Compliance Filing schedules, dated December 10, 2019.

LA.2.3 Investments

Following completion of the 2017 GRA, the PUB ordered MPI to conduct an Asset
Liability Management (ALM) study, which was completed by Mercer in November
2017. Implementation of the recommendations of the ALM study would see separation
of the commingled investment portfolio into five unique portfolios: Basic Claims, Basic
Rate Stabilization Reserve (RSR), Employee Future Benefits (EFB), Extension, and

12 Special Risk Extension (SRE).

The Basic Claims portfolio was fully implemented on March 1, 2019 and is comprised 13 entirely of fixed income assets which are dollar duration matched to the associated 14 liabilities. The portfolio acts as a hedge against the impact of interest rate changes on 15 the liabilities. The ALM strategy ensures that investment losses in the Basic Claims 16 portfolio are offset by the corresponding reduction of the Basic Claims liabilities, since 17 both are interest rate sensitive and have similar duration and size. And should the 18 value of the Basic Claims portfolio fall below the Basic Claims liabilities, funds will be 19 20 transferred from the RSR portfolio in order to ensure they again match.

An added benefit in the context of this rebate Application was the removal of growth assets from the Basic Claims portfolio, with equities having sustained greater losses 1 than bonds during the course of the pandemic. For example, the RSR portfolio, with

2 total equities of approximately 35%, has shown a higher negative return than the

Basic Claims portfolio since the outset of the COVID-19 pandemic.

The performance of the MPI Investment Fund during these unprecedented times is being closely monitored by MPI and its Board of Directors. The PUB and its advisors, along with GRA Intervenors, are understandably enquiring about how the proposed rebate of \$58 million will be sourced and what impact, if any, the rebate will have on the Investment Fund.

MPI has significant cash and premium revenues which it can use to fund the rebate. At 9 the outset of the COVID-19 pandemic, MPI decided (somewhat fortuitously) to 10 maintain higher levels of cash than it would normally, as a contingency for the 11 unknown impacts of COVID-19. As a result, MPI held back \$85 million in cash that 12 would otherwise have been transferred to the Investment Fund. As such, the sale of 13 any invested assets will be minimized or not necessary at all, which means that 14 unrealized losses currently showing in the RSR portfolio will not be realized. MPI now 15 has operational cash of approximately \$165 million, of which approximately \$80 16 million can be used to fund the rebate (combined rebate of \$110 million between Basic 17 and Extension). The remaining \$30 million will be funded from revenues. 18

19 So while the performance of the various asset classes in each of the portfolios is not

²⁰ impacted by the proposed rebate (and therefore of little relevance to this Application),

²¹ MPI nonetheless provides a snapshot of portfolio values as at March 31, 2020.

| Line No. | Fiscal Year | January 31, 2020 | February 29, 2020 | March 31, 2020 | Monthly Change Feb-Mar | Capital Return |
|-------------|-------------|---------------------|----------------------|-------------------|------------------------------|-------------------|
| 1 | (\$000) | | | | | |
| 2 | Basic | 2,125.0 | 2,129.6 | 2,127.0 | (2.6) | -0.1% |
| 3 | Extension | 154.1 | 151.1 | 157.4 | 6.2 | 0.2% * |
| 4 | SRE | 207.7 | 203.7 | 196.8 | (7.0) | -3.4% |
| 5 | RSR | 391.7 | 383.9 | 370.3 | (13.6) | -3.5% |
| 6 | EFB | 498.2 | 489.4 | 476.9 | (12.4) | -2.5% |
| 7 | Total | 3,376.7 | 3,357.7 | 3,328.4 | (29.3) | -0.9% |

Figure 6 Investment Fund Preliminary Valuations

8 * \$6 million of operational cash was deposited into global equities in late March

1 Since the end of December 2019, the equity portfolio is down approximately 14%, but

2 other growth assets, namely, real estate and infrastructure, are up 1.6% and 1.3%

³ respectively. Again, the removal of these asset classes from the investments backing

4 the Basic Claims liabilities has positioned MPI well for this unforeseen pandemic. The

5 Basic Claims portfolio was enhanced by the addition of a 20% allocation to corporate

6 bonds, which are currently yielding 3.80% compared to just 2.30% for their

7 counterpart bonds in government.

8 MPI will provide a robust analysis of its investments in the normal course with the

9 filing of the 2021 GRA.

10 The PUB should have no concerns that the proposed rebate will have an adverse effect

11 on the Investment Fund or ratepayers in the 2021 GRA and going forward.

- 1 The investment portfolio of MPI experienced significant volatility in March 2020, which
- 2 contributed to the investment income (excluding interest rate impacts) to fall \$24.6
- 3 million relative to the compliance forecast. The main reason for this decline is that the
- 4 total equity portfolio declined by 9.1% in March and in total by 14.5% since December
- 5 31, which resulted in a \$33.3 million impairment of equities.
- 6 In 2020/21, the current investment income forecast (excluding interest rate impacts)
- ⁷ is expected to fall by approximately \$11 million per year.
- 8 MPI continues to use the following key assumptions for investment forecasts:
- naïve interest rates;
- equity returns based on 5th percentile 20-year Canadian equity return (i.e.
 6.8% per year);
- infrastructure and real estate based on inflation + 5% and inflation + 4%
 respectively; and
- investment allocations per the Investment Policy Statement.

| 17 | Change | 1,707 | 2,245 | 3,116 | 1,243 | 2,195 | | | |

MPI hedges its Basic claims portfolio for the impact of interest rates. As shown in the above figure, the net impact of changes in interest rates on the fixed income portfolio and claims liabilities remains stable, relative to the compliance forecast. This result supports the effectiveness of the Basic claims ALM program and suggests that the portfolio can withstand even the most significant shocks to interest rates.

The reason the net interest rate impact is not closer to zero in 2019/20 is because of
the implementation of the new investment portfolio; however, this impact was
forecasted in the compliance forecast. In 2021/22 and thereafter, the portfolio
experiences a net loss from interest rates, due to declining yield on non-marketable
bonds, which are not hedged.

LA.2.5 Net income

1 The following figure assumes 0% rate change for 2021/22 and thereafter:

| Figu | re 9 Net Income - | - Basic | | | | |
|-------------|----------------------------|---------|----------|----------|----------|----------|
| Line No. | Fiscal Year | 2019/20 | 2020/21 | 2021/22 | 2022/23 | 2023/24 |
| 1 | (\$000) | | | | | |
| 2 | Current Forecast | 110,818 | 95,167 | 27,934 | 33,962 | 21,624 |
| 3 | Compliance Forecast | 108,392 | (10,082) | (17,543) | (15,266) | (28,493) |
| 4 | Change | 2,426 | 105,249 | 45,477 | 49,228 | 50,117 |

2 MPI's 2019/20 net income forecast is estimated at \$110.8 million, relative to the

3 \$108.4 million in the compliance forecast. As discussed above, relative to the

4 compliance forecast expectations, better than expected claims results in the latter half

5 of 2019/20 were offset by lower than anticipated investment income (mainly from the

- 6 stock market crash in March 2020).
- 7 In 2020/21, net income is projected to rise to \$95.2 million, of which \$58 million is
- 8 anticipated to come from the claims costs savings in the months of March through May
- 9 2020. This anticipated \$58 million in net income forms the basis of this Application.
- 10 Although there are clearly risks to this forecast, including reductions in premium
- 11 revenue, further declines in the stock market and winter storms, there is also potential
- 12 for additional financial benefits including further claims reductions beyond May 2020.
- 13 The forecasts would have to deteriorate a further \$37 million to arrive at a break-even
- 14 net income position.
- 15 In 2021/22 and thereafter, the forecast assumes no rate changes. However, MPI will
- revise its forecasts later this year to reflect break-even rates in the 2021 GRA. The
- applied for rate indication should bring down the net income forecasts closer to zero.

LA.3 Capital Management Plan

The portion of the proposed rebate from Basic will not alter the ongoing mechanics of
the CMP in any meaningful way. Last year, as part of the 2020 GRA, MPI presented
the CMP to the PUB for approval, subsequently approved by PUB Order No. 176/19 for
a two-year trial period (including a Basic target capital level of 100% MCT).

The essence of the CMP is the transfer of capital from Extension to Basic should the 5 Extension MCT ratio of the Extension Reserve exceed 200% at fiscal year-end. If the 6 RSR is below 100% MCT, the monies transferred from Extension are then used to 7 bring the RSR closer to that target, and if these transfers are not sufficient to bring 8 the RSR to 100% MCT within 5 years, then MPI would apply for a capital build 9 provision. If the balance of the RSR level exceeds 100% MCT after the transfer from 10 Extension, the excess monies are used to reduce the Basic rate charged to customers 11 through a capital release provision. 12

When a capital release is triggered under the CMP (i.e. the balance of the RSR is greater than 100% MCT on April 1 of any given year), the excess capital is released in equal amounts over three 3 years, in the form of rate decreases. When a capital build is triggered under the CMP (i.e. the balance of the RSR is less than 100% MCT on April 1 of any given year), the capital required to build the RSR is collected in equal amounts over five 5 years in the form of rate increases.

The result is that MPI will require a capital build or release provision in each GRA, unless forecasted capital transfers can build the RSR to the 100% MCT target in less than five 5 years; or capital releases cause a decline in the RSR to the 100% MCT target in less than three 3 years.

The proposed \$58 million rebate from Basic is, according to MPI's Chief Actuary, a capital release of excess monies now being held in the RSR. As a result of the significant reduction in claims costs beginning March 2020, coupled with Basic's strong financial performance, the RSR balance has now exceeded its MCT ratio of 100%, all without the benefit of the projected transfer of capital from Extension (\$75 million on March 31, 2020). 1 The proposed rebate is tantamount to a capital release under the CMP, but rather than

2 have the capital released incrementally and in equal amounts over the 3-year time

3 horizon under the CMP, MPI proposes to release the additional capital from the

4 COVID-19 claims reductions all at once in the form of a rebate. Owing largely to

5 forecasted claims experience and expenses, both favourable, Basic will continue to be

at or near 100% MCT. And with a forecasted transfer of capital from Extension on

7 March 31, 2021 under the CMP, a capital release will be triggered under the CMP, but

8 this time in the form of a rate decrease as would occur in the normal course whenever

9 the RSR exceeds 100% MCT.

As previously indicated, MPI proposes to fund the balance of the total rebate (i.e. \$52
 million) directly from Extension. As the CMP does not contemplate rebates, but rather
 rate decreases when the RSR exceeds 100% MCT, there is no requirement under the

13 CMP to first transfer the excess Extension monies to Basic before same can be

released in the form of a rebate.

LA.3.1 Total Equity and Minimum Capital Test Ratio

As per the Reserves Regulation, Man Reg. 76/2019, MPI must target a Basic MCT ratio 15 of 100%. This MCT target is achieved through execution of the CMP. As a result of the 16 COVID-19 pandemic, MPI is currently charging rates and making profits not 17 contemplated in the prior GRA hearings. MPI believes that, in these unique and 18 unforeseen circumstances, it is neither reasonable nor prudent to apply the strict 19 20 wording of the CMP (i.e. extend future rate reductions over a 3 year period). Rather, MPI has applied for a rebate of the COVID-19 claims savings of \$58 million, which is 21 effectively the equivalent of reducing current rates by this same amount. The 22 Government of Manitoba has announced MPI is to rebate an additional \$52 million of 23 excess capital from Extension. The figure below shows how Basic Total Equity and the 24 MCT ratio are forecasted to be impacted by these rebates: 25

Figure 10 Total Equity and MCT

1 As shown above, in 2019/20 MPI forecasts a Total Equity (\$395.9 million) and MCT

2 Ratio (97.7%) that are slightly higher than the compliance forecast. Although the

3 current forecast appears close to the compliance forecast in 2019/20, it was achieved

- 4 *despite* not transferring any capital from Extension at year end 2019/20 (a \$75.1
- 5 million capital transfer from Extension was assumed in the compliance forecast).
- 6 Rather than applying the Extension capital transfer, MPI has instead received
- 7 government approval to immediately rebate \$52 million from Extension in May 2020
- 8 (this is shown in the Extension section that follows).

In 2020/21, MPI's Basic Total Equity (\$531.7 million) and MCT Ratio (130.1%) are 1 anticipated to improve significantly. However, these improvements are not attributable 2 to the COVID-19 pandemic. Although MPI anticipates earning an additional \$58 million 3 due to the COVID-19 pandemic, it assumes that it will rebate an equivalent amount in 4 May 2020 and that this amount will therefore not form part of the 2020/21 Total Basic 5 Equity. The improvement in the Total Basic Equity results almost entirely from the 6 higher projected non-pandemic Basic net income of approximately \$46 million 7 (relative to the compliance forecast), along with the anticipated capital transfer from 8 Extension of \$68 million. 9

Based on the projected levels of Basic MCT in excess of 130% in 2020/21 and

11 thereafter, MPI will use the CMP in the 2021 GRA to distribute excess funds through

the capital release process. This will move the Basic MCT gradually back toward 100%

¹³ over the next 3 years.

14 The following figures depicts the total equity and MCT positions of Basic and Extension

at March 31, 2020 and May 31, 2020; after release of the proposed rebate:

| Line | | BASI | С | EXTENSION | |

| 19 | MCT Ratio % (Line 17) / (Line 18) | 97.7% | 110.6% | 371.0% | 261.9% |

Figure 11 Projected Total Equity & MCT - Before & After Rebate

1 *Figure 11* shows that both Basic and Extension are projected to remain above their

- 2 respective capital targets after payment of the special rebate. The months of April and
- 3 May are historically amongst the lowest claims months to begin with, while the
- additional reduction in claims due to COVID-19 is offset by the rebate. The result for
- 5 Basic is an increase in MCT from 97.7% to 110.6%. Extension is also forecasted to
- ⁶ remain above its 200% target for this two month period. In the case of Extension, any
- 7 remaining excess capital will flow back to Basic as it normally would under the CMP.

Are there risks to MPI's forecast not being achieved? Basic has a 100% MCT capital
reserve target because each of its forecasts contains an element of risk. These risks

and their expected magnitude have been provided to the PUB in prior GRAs. Based on

the above forecasts, MPI anticipates that the RSR will exceed its 100% MCT target in

 $_{12}$ $\,$ the near term. Under the CMP, MPI would have released excess capital over the 100%

¹³ MCT target. The issuance of this rebate simply expedites that process.

LA.3.2 Extension

As discussed above, the effect of this Application and the Government announcement related to excess Extension reserves is a pause in the transfer component of the CMP in 2019/20 in order to respond to the COVID-19 pandemic. As a result of forecast volatility and contemplation of the special rebate, MPI has not transferred excess Extension capital to Basic at the end of fiscal 2019/20. Instead, MPI will provide an immediate rebate of \$52 million to policyholders in May, 2020.

20 At the end of 2020/21, Extension is forecasted to have \$68.6 million in excess capital

- above the 200% MCT target, which MPI will transfer to Basic. In 2020/21 and
- 22 thereafter, MPI is forecasting to transfer all excess Extension capital to Basic such that
- the Extension MCT ratio remains at 200% MCT, consistent with the compliance
- 24 forecast.

Figure 12 Extension Capital Transfers

LA.4 Rebate Rules

On April 23, 2020, the Honourable Mr. Wharton announced that MPI proposed to issue
to its customers a total rebate of approximately \$110 million. The government and
MPI worked collaboratively to determine that the proposed rebate should consist of a
\$52 million capital release from the excess maintained by MPI in its Extension
Reserve, coupled with a \$58 million reduction in Basic premiums (subject to PUB
approval).

7 On the Extension side, the \$52 million in excess represents earnings generated in the

8 fiscal year 2019/20. MPI will provide this portion of the total rebate to all Basic

9 policyholders, prorated on a percentage of their Basic vehicle premiums earned in the

1 fiscal year 2019/20. Purchase of Extension products will not be a condition precedent

- 2 for the receipt of this portion of the rebate. In other words, customers who only
- ³ purchased a Basic policy will also be entitled to share in the \$52 million release from

4 the Extension Reserve.

Pursuant to the CMP, MPI would be required to transfer the \$52 million in excess funds 5 in the Extension Reserve to Basic in order to reduce the overall rate indication sought 6 in the 2021 General Rate Application (GRA). Therefore, MPI submits that it is just and 7 reasonable that the release of the excess amounts in the Extension Reserve benefit all 8 customers with Basic policies, not just those who purchased that additional coverage. 9 Instead of seeking to return monies to customers through a reduction in rates for the 10 2021/22 insurance year, MPI wishes to provide them with a direct and immediate 11 12 benefit, as the current need is critical.

On the Basic side, the \$58 million portion of the total rebate represents a return to 13 those with Basic policies in effect on March 15, 2020, the savings generated as a 14 result of the provincial state of emergency and public health orders (i.e. a reduction in 15 claims costs). The rationale for the proposed rebate is that, given the reduced claims 16 costs, these customers would have paid significantly less in premiums to insure their 17 motor vehicles after March 15, 2020 had MPI calculated their premiums on a monthly 18 19 (as opposed to annual) basis. MPI estimates that Basic saved approximately \$29 20 million in claims costs between March 16 and April 15, 2020 and expects similar savings over the next 30 days. 21

As a result, MPI proposes a rebate to Basic customers with a policy in effect and 22 earning premiums on March 15, 2020, a total of \$58 million from Basic. If the rebate 23 is approved, customers who meet the above criteria would receive a 5.63% rebate of 24 their Basic in-force premium on March 15, 2020. The reason MPI is proposing this 25 rebate only go to customers with policies *in force* and *earning* premium on March 15, 26 2020 is because the rebate is intended to provide relief to customers who overpaid for 27 insurance as a result of the COVID-19 pandemic. If a policy is not in-force on March 28 15, the customer pays no premium on it and no financial relief is justified. Similarly, if 29 a policy is not earning premium (i.e. motorcycles) the customer is similarly paying no 30 premium and no financial relief is justified. 31

1 MPI selected March 15, 2020 as the eligibility date because it is the first day of the

- 2 week on which the Government of Manitoba declared a Province-wide state of
- ³ emergency (officially declared Friday, March 20, 2020). Prior to March 20, customers
- 4 would not have experienced economic hardship as result of that state of emergency.
- 5 MPI submits that March 15 sets a fair baseline for the determination of entitlement to
- 6 the proposed rebate.
- 7 MPI appreciates that some of its customers (approximately 700,000) will dislike the
- 8 proposed rebate and the rules for determining rebate entitlement and amounts.
- 9 However, MPI proposes a simple approach as a means to reduce costs and given the
- 10 time required to complete the process.

LA.4.1 Illustrative examples for typical customer in each major class

- 11 The rebate of \$58 million from the Basic side is equal to a 5.63% reduction in
- 12 premiums for *Highway Traffic Act* (HTA) vehicles in the private passenger, commercial
- and public major classes. The rebate is applied to the in-force premiums as of March
- 14 15, 2020 for these vehicles. The figure below shows the average premium reduction
- 15 by major class.

Figure 13 Average Dollar Rebate by Major Class

5 [5] = [4] / (1 + Major Class average change from the 2020 GRA compliance filing)

6 [6] = 11.5/12 * [5] + 0.5/12 * [4] based on the assumption of uniform renewals throughout the year

7 [7] = [6] * 5.63%

LA.4.2 Motorcyclists

Motorcyclists will receive the same percentage of the rebate from Extension (i.e. \$52
million) as other qualifying customers. This roughly translates to 4.5% return on
premiums paid. However, motorcyclists will not receive a percentage of the rebate
from Basic (i.e. \$58 million) for the following reasons:

5 1. The Basic portion of the rebate assumes that motorcycles do not significantly contribute to the lower claims frequency between March 15, 2020 and May 15, 6 7 2020. Although a few motorcyclists take to the road during this time period, MPI defines the riding season in Manitoba (for the purposes of calculating 8 premiums) as running from May 1st to September 30th. 9 2. Motorcycle premiums are fully earned during the May 1st to September 30th 10 riding season, which means that MPI has yet to earn premiums for the period 11 in guestion (March 15, 2020 - May 15, 2020). As all premiums are earned 12 13 during the riding season, the type of payment plan has no impact on the rebate availability (pay-in-full versus installments). 14

LA.5 Implementation Strategy

15 In considering the relief requested in this Application, the PUB must also decide

- ¹⁶ whether MPI presents a prudent strategy for the actual distribution of approved
- 17 rebates to customers. Below, MPI outlines its implementation strategy and discusses
- 18 how it plans to resolve any problems as they arise.
- As indicated, MPI expects to issue rebates to customers totaling \$110 million.
- 20 Therefore, the first question relates to how MPI plans to source the \$110 million
- 21 required to issue the rebate cheques. As explained above, MPI held back \$85 million in
- cash that would otherwise have been transferred to the Investment Fund, and it now
- has \$165 million of operational cash, of which approximately \$80 million can be used
- to fund the rebate. The remaining \$30 million is expected to be funded from revenues,
- ²⁵ requiring little or no liquidation of any investment assets.

- 1 The next question is who will qualify for the rebate and the rules for establishing
- 2 entitlement. As explained above, a policyholder is qualified to receive a rebate if they
- ³ had a Basic policy in force and earning premiums on March 15, 2020. Using these
- 4 rules, MPI expects that approximately 700,000 customers will qualify for a rebate.
- 5 Once qualified, MPI will calculate the amount of the rebate to which the customer is
- 6 entitled. MPI will then distribute rebate cheques to qualified customers via regular mail
- 7 to their last known address on file.
- 8 MPI anticipates that the total cost of issuing the rebates will be approximately
- 9 \$973,000, itemized as follows (assuming 700,000 different recipients):

| Line | | |
|------|---|---------|
| No. | Description | Cost |
| 1 | Cost of Purchasing and Printing Cheques | 300,000 |
| 2 | Postage | 623,000 |
| 3 | Administrative Costs (effort) | 50,000 |
| 4 | Total Cost | 973,000 |

- 10 While is it impossible to foresee all of the problems that could potentially arise during
- 11 the implementation phase of the rebate initiative, the following list identifies the
- 12 problems MPI expects and the manner in which it proposes to respond to each:

| . <u></u> | Problem | Solution |
|-----------|---|--|
| 1. | Customer reports not receiving rebate cheque. | Upon confirming initial cheque has not been cashed, a replacement cheque will be issued subject to proper identification verification. |

| | Problem | Solution |
|----|---|--|
| 2. | Customer disputes non- entitlement or amount of entitlement. | Inserts are prepared that clearly explain each rebate in understandable terms. |
| | entitiement. | In prior years, a description of the rebate was printed on the back of the premium rebate cheque stock. |
| | | Scripts are prepared for CCO to address concerns - plan for routing escalation once script exhausted. |
| 3. | Increase in calls to Contact Centre. | Add additional employees (CCAs) to the Contact Centre. |
| 4. | Increase in volume of customer reports not receiving rebate cheque. | Add 2 Rebate Clerks in Banking to accommodate cheque inquiries and returned cheques. |
| | | Media announcement is made in advance to advise customers to update their current address if they have moved (in prior years customers were directed to brokers who receive a commission for this). |
| | | Customers asked to wait a specified period before inquiring. |
| 5. | Increase in volume of replacement cheques. | Secure additional stock of replacement cheques. |
| 6. | Increase in volume of cheques returned "Return to Sender". | Secure additional on-site storage containers in Banking and meeting rooms for 3 months. |
| 7. | Specific customer groups require special handling. | If printing is outsourced, hold back customer groups, such as Fleets, if necessary to print internally. |
| 8. | Canada Post capacity issues. | Need to coordinate testing and delivery with Canada Post. If MPI outsources the printing and mailing, it will need to coordinate with Canada Post for testing the mail content and delivery plan - especially if occurring in another city. |

| | Problem | Solution |
|-----|--|---|
| 9. | Inputs/Stock not received when required. | Monitor. Communicate. (depending on solution, there are several inputs required to adhere to schedule.) |
| 10. | Concerns about applicability of garnishment orders on premium rebate. | Banking to confirm that garnishment orders do not attach to premium rebate |

LA.5.1 Communication Strategy

- 1 Developing an effective communication strategy requires an understanding of the
- 2 information customers need and the most effective ways to distribute same. It also
- 3 involves balancing the direction to issue rebates to customers in an expeditious
- 4 manner with the desire to fully educate and be responsive to concerns.
- 5 MPI anticipates that its customers will have the following questions about the rebates:
- 6 1. when will MPI issue rebates?
- 7 2. will I be entitled to a rebate?
- 8 3. if so, how much of a rebate will I be entitled to?
- 9 4. how will I be notified of my entitlement to a rebate?
- 10 5. how will I receive my rebate?
- 11 6. when will I receive my rebate?
- 12 7. what can I do if I don't receive my rebate or have other questions?
- 13 8. can MPI afford to issue rebates?
- 14 The communication strategy MPI expects to employ will have 2 phases:
- 15 **PHASE 1**: This phase has already begun and will continue until no longer required. It
- ¹⁶ involves the distribution of general information to the public to assist in setting up
- 17 expectations for the rebate. MPI will share this information to the public on its
- 18 website, via social media and through media releases as it becomes available.

- 1 **PHASE 2**: This phase involves the distribution of specific information to customers
- 2 receiving the rebate and includes the method MPI used to calculate their entitlement
- 3 and how to contact MPI regarding inquiries related to their rebate. MPI will include this
- 4 information in a standard form letter that will accompany each rebate cheque.

Multi-year - Statement of Changes in Equity

MANITOBA PUBLIC INSURANCE 2021 SPECIAL REBATE APPLICATION Information Requests Pre-Asks April 30, 2020

Public Utilities Board Coalition of Manitoba Motorcycles Groups

PUB (MPI) Pre-Ask 1

| Part and Chapter: | Rebate Application | Page No.: | Page 7 of 27, Figure 3 Claims Incurred before Provisions – Basic |
|---------------------------|----------------------------|-----------|--|
| PUB Approved Issue No: | | | |
| Торіс: | Claims Incurred For | ecast | |
| Sub Topic: | | | |

Preamble to IR:

MPI has indicated a material improvement in Claims Incurred from the Compliance Filing for the fiscal years 2019/20, 2020/21 and the forecast period.

Question:

- a) Please provide the budgeted claims incurred and frequency by month for 2019/20 and 2020/21 and indicate which budget the total should reconcile to for Collision, PIPP and Basic Property Damage.
- b) Are the actual and budgeted collision claims amounts consistent with each other relative to lags in reporting?
- c) Please indicate to what extent the adequacy of reserves at March 31, 2020 has been reviewed by the external actuary.
- d) Is the rebate application consistent with external actuarial review of adequacy of reserves?

Rationale for Question:

RESPONSE:

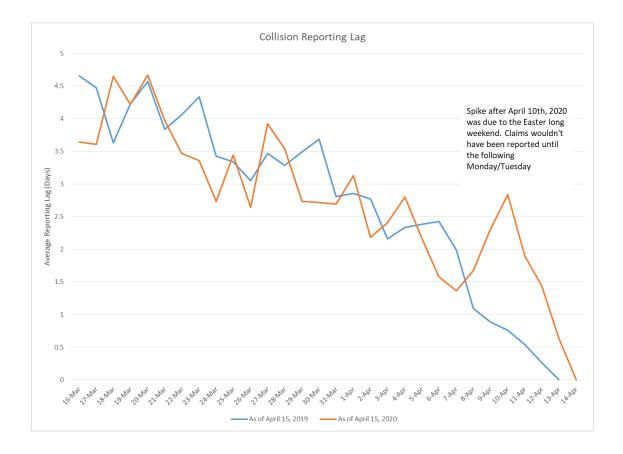

a) The table below provides the budgeted Collision figures by month:

| | | Collision (R | Repair) | Collision (To | tal Loss) | Collision | (Total) |
|------|--------|--------------|---------|---------------|-----------|--------------|---------|
| Line | | | Claim | | Claim | | Claim |
| No. | Month | Incurred | Counts | Incurred | Counts | Incurred | Counts |
| 1 | Mar-19 | \$22,482,871 | 7,489 | \$13,564,424 | 2,045 | \$36,047,295 | 9,533 |

| Figure 1 – Collision Ult | imate Budget by Month |
|--------------------------|-----------------------|
|--------------------------|-----------------------|

MPI does not maintain a monthly budget for Property Damage (PD), and bodily injury (BI) claims. In order to calculate the savings for the Summary Rebate Application, MPI assumed a perfect correlation between Collision, PD, and BI claims in terms of frequency. *Figure 5 - Forecasted Basic Claims Savings – March 16, 2020 to April 15, 2020* of the Summary Rebate Application provides further details on the forecast.

 b) Averate Reporting Lag is average lapse of time between the date of the accident and the reporting date. The chart bellow compares the period of March 16 to April 15, between 2019 and 2020:

There is no significant change in reporting lag from last year. The spike after April 10, 2020 is due to the Easter long weekend in which claims would not have been reported until the following Monday or Tuesday.

c) and d) MPI is currently performing its year-end valuation of policy liabilities. The valuation has not been reviewed by the external actuary. However, MPI can confirm that the October 31, 2019 valuation, which has been signed off by the external actuary, resulted in a decrease of \$31.9 million from the MPI carried book value (i.e. a favourable adjustment). Since October 31, 2019, reported PIPP claims incurred have continued to track below budgeted values. MPI is not anticipating

any material unfavourable changes to the claims forecast as a result of the March 31, 2019 valuation.

PUB (MPI) Pre-Ask 2

| Part and Chapter: | Compliance Filing 2020 GRA | Page No.: | Page 3 of 13, Figure 3 |
|---------------------------|-------------------------------|-----------|--|
| | Rebate Application | | Page 18 of 27, Figure 11 Projected Total Equity & MCT - Before & After Rebate |
| PUB Approved Issue No: | | | |
| Topic: | Capital Position | | |
| Sub Topic: | | | |

Preamble to IR:

In the Compliance Filing MPI projected AOCI for Basic of (\$103.2 million) at the end of February 2020. Based on the Rebate Application the AOCI for Basic is now projected to be (\$34.8 million) at March 31, 2020, a \$68.4 million improvement.

Question:

Please reconcile and provide details of this change in Basic AOCI.

Rationale for Question:

RESPONSE:

Please see reconciliation table and variance explanation below.

| Figur | el Ac | cumulated Other Comprehensive Income (AOCI) - Reconciliation |
|-------------|-----------|--|
| Line No. | | |
| 1 | (103,247) | 2020 GRA - Compliance Filing |
| 2 | 71,878 | Higher than expected Employee Future Benefit liability valuation from interest rates |
| 3 | (3,433) | Lower than expected change in available for sale investments |
| 4 | (34,802) | 2021 Special Rebate Application |

The variance between the projected AOCI amounts is mainly attributable to the impact of interest rates on the valuation of Employee Future Benefits (EFB) liability. In the compliance filing, MPI used the projected discount rate of 2.86% to value EFB liability whereas it used a discount rate of 3.88% in this Special Rebate Application.

PUB (MPI) Pre-Ask 3

| Part and Chapter: | Rebate Application | Page No.: | Page 21 of 27, Lines 13- 31; and Page 23 of 27, Lines 5-14 |
|---------------------------|--------------------|-----------|--|
| PUB Approved Issue No: | | | |
| Торіс: | Rebate Proposal | | |
| Sub Topic: | | | |

Preamble to IR:

MPI has indicated the riding season for Motorcycles is May 1, to September 30th. MPI's rebate proposal reflects expected claims incurred savings for the period March 15th to May 15th.

Question:

- a) What portion of the Motorcycle riding season falls within the March 15th to May 15th period?
- b) Please indicate how MPI could recognize this within the RSR rebate proposal.

Rationale for Question:

RESPONSE:

- a) There are 153 days in the riding season between May 1, 2020 and September 30, 2020. The 15 days between May 1, 2020 and May 15, 2020 represents approximately 10% of the riding season.
- b) MPI is unable to recognize this within this rebate application because it cannot predict how may motorcycle policies will be in force and earning premium on May 1, 2020, and to whom those policies will be issued.

PUB (MPI) Pre-Ask 4

| Part and Chapter: | Rebate Application | Page No.: | Page 22 of 27, Figure 13 Average Dollar Rebate by Major Class |
|---------------------------|--------------------|-----------|---|
| PUB Approved Issue No: | | | |
| Торіс: | Rebate Proposal | | |
| Sub Topic: | | | |

Preamble to IR:

Question:

- a) Was any analysis performed on the variability between territories and/or insurance use classes with regard to the amount of the expected claims incurred savings?
- b) In order to be consistent with the spirit of the capital release process in the CMP, how would the rebate proposal need to be changed?
- c) Has the Corporation considered the potential advantages and disadvantages of designing the rebate based on the greater of the 2019/20 earned premium and the March 15, 2020 in force premium for each customer versus the current proposal?

Rationale for Question:

RESPONSE:

a) No, MPI simply determined the overall reduction in claims during the period March 16, 2020 to April 15, 2020. Because MPI has a large number of different rating combinations, the statistical credibility of analyzing in detail the impact on every rating combination would be low. In cases where there was an obvious lack of exposure for a given classification during the subject period (i.e. motorcycles and off-road vehicles), MPI excluded the classification from the rebate. b) MPI believes that the proposed rebate aligns with the spirit of the capital release provisions of the Capital Management Plan (CMP) and that this Special Rate Application does not need to be changed to comply with the CMP. In both the normal course and rebate scenarios, excess capital flows back to ratepayers. Given the extraordinary circumstances brought about by the COVID-19 pandemic, MPI seeks to expedite this release of capital. If MPI allowed excess profits to flow into the Rate Stabilization Reserve (RSR), the excess capital in the RSR would eventually be returned to customers through the CMP, not as a 'rebate', but rather as a capital release, in the next policy year. A capital release has the same impact as applying a one-time and equal percentage rate decrease to all Basic rates. For example, a 3% capital release would require MPI to calculate the Basic rate indications for all vehicles (in accordance with accepted actuarial practice), then decrease them by the 3% capital release.

Since Basic rates are calculated on a break-even basis, the CMP assumes, on average, that all vehicles equally contribute to building capital and should therefore benefit equally from its release. Therefore, a rebate providing equal percentage reductions to all Basic rates mirrors the result under the capital release process. However, in this proposed special rebate, it is clear that some vehicle types did not contribute equally to building capital, as assumed in the CMP. MPI addresses this reality by limiting the rebate to customers with policies in-force and earning premium at the start of the subject period.

c) MPI has not considered this option. The requirements that the policies be in-force and earning premium as of March 15, 2020 and the exclusion of non-earning (seasonal) vehicles from the rebate calculation were imposed to improve the fairness of rebate (i.e. give rebates to customers actually contributed to the reduction in claims due to the COVID-19 pandemic). Because MPI calculates the Extension rebate using earned premiums from the previous fiscal year; and because the previous fiscal year is not relevant to the claims savings realized in the period March 16 to May 15, 2020, MPI believes that calculating the rebate by taking the greater of the 2019/20 earned premium and the March 15, 2020 in force premium for each customer does not result in a more fair calculation. In fact, in that scenario, MPI would be rebating dollars to customers who did not contribute to the claims savings as a result of the COVID-19 pandemic.

<u>CMMG (MPI) Pre-Ask 1</u>

| Part and Chapter: | Application | Page No.: | Page 22, Figure 13 |
|---------------------------|-------------|-----------|--------------------|
| PUB Approved Issue No: | | | |
| Topic: | | | |
| Sub Topic: | | | |

Preamble to IR:

Question:

Provide the same information for the Motorcycle class as provided for other Major classes in Figure 13 (Pg. 22 of Application)

Rationale for Question:

RESPONSE:

Figure 13 from the 2021 Special Rebate Application has been updated to include the Motorcycle major class per the figure shown below.

Figure 1 Average Rate by Major Class

| | | 2 | 021 Rate Model | | | |
|------|-------------------|----------|----------------|---------|---------|-------------------|
| | | Number | 2020 | 2020 | 2019 | Avg Rate for |
| Line | | of | Total | Average | Average | Policies-in Force |
| No. | Major Class | Vehicles | Premiums | Rate | Rate | on Mar 15, 2020 |
| 1 | [1] | [2] | [3] | [4] | [5] | [6] |
| 2 | Private Passenger | 812,577 | 962,170,215 | 1,184 | 1,195 | 1,194 |
| 3 | Commercial | 46,597 | 38,585,701 | 828 | 823 | 823 |
| 4 | Public | 12,562 | 26,896,699 | 2,141 | 1,940 | 1,949 |
| 5 | Motorcycle | 17,694 | 14,986,833 | 847 | 806 | 808 |

6 [5] = [4] / (1 + Major Class average change from the 2020 GRA compliance filing)

7 [6] = 11.5/12 * [5] + 0.5/12 * [4] based on the assumption of uniform renewals throughout the year

However, the Motorcycle major class is not receiving a rebate due to the following:

- The Motorcycle major class has no in-force policies earning premium as of March 15, 2020, which is the basis for determining the rebate. While some policies may have be in-force on this date, the premiums on those policies are only earned during the riding season.
- MPI assumes the Motorcycle major class does not contribute significantly to the lower claims frequency between March 15, 2020 and May 15, 2020 (the reason for issuing the rebate). In making this assumption, MPI further assumes that the annual riding season for the Motorcycle major class begins on May 1st and ends on September 30th.
- MPI cannot confirm that the same volume of policies in the Motorcycle major class will be in-force between May 1 to May 15 given the current environment. Any savings resulting from this will already be accounted for since no premiums are collected if the policy is not in-force.
- The first \$29 million of the rebate is based upon observed claims savings between March 16, 2020 and April 15, 2020, a timeframe when no motorcycles contributed to the savings. The second \$29 million of the rebate is a replication of the savings from the first period to the second period (April 16, 2020 to May 15, 2020) and again no motorcycle contributions are considered in this amount.

| PUB Approved Issue No: | | |
| Topic: | | |
| Sub Topic: | | |

Preamble to IR:

Question:

Provide the number of motorcycle basic policies in force as of March 15, 2020.

Rationale for Question:

RESPONSE:

There is a distinction between motorcycle basic policies in force and motorcycle basic policies earning premium. In the past, MPI used to require motorcyclists to put their insurance policy in force and pay (earn) the premium whenever they wanted to ride their motorcycle. Obviously, no one would have an in force motorcycle policy during the winter months. To make things easier for motorcyclists MPI created seasonal rating. Seasonal rating allows motorcycles to keep the policy in force during the winter months but not have them be required to pay (earn) a premium during those months. During the winter months motorcycles are assuming no exposure and therefore are not paying (earning) a premium.

The motorcycle basic policy riding season is May 1 to September 30. The number of motorcycle policies in force on March 15, 2020, and earning no premium was 13,465. As stated above, MPI does not earn any premiums on these policies as all premiums for motorcycles are earned during the riding season, which does not begin until May 1, 2020.

Preamble to IR:

Question:

Confirm that there would be no additional cost to the implementation strategy to provide the rebate to the motorcycle class.

Rationale for Question:

RESPONSE:

There would be no expected material incremental costs to the implementation strategy were this to include the motorcycle class. However, MPI would expect to incur additional costs to print and mail cheques to its customers in the motorcycle class. Its systems and analysts personnel would also need calculate any such rebate, resulting in a further draw on resources. Should the rebate calculation methodology be materially changed, the additional time required to pull data and revise the rebate calculation for 700,000+ customers would likely mean delay in the issuance and receipt of rebate cheques by an unknown amount of time.

| Part and Chapter: | Page No.: | |
|---------------------------|-----------|--|
| PUB Approved Issue No: | | |
| Topic: | | |
| Sub Topic: | | |

Preamble to IR:

Question:

Provide the dollar amount of the rebate that would be due to the motorcycle class if the rebate were allocated to those insureds with Basic motorcycle coverage as of March 15, 2020.

Rationale for Question:

RESPONSE:

Per page 21 of the 2021 Special Rebate Application,

"MPI proposes a rebate to Basic customers with a policy in effect and earning premiums on March 15, 2020, a total of \$58 million from Basic. If the rebate is approved, customers who meet the above criteria would receive a 5.63% rebate of their Basic <u>in-force premium</u> on March 15, 2020."

Given that motorcycle premiums are fully earned in the riding season, there are no inforce premiums for motorcycles on March 15, 2020, and therefore no rebate.

<u>CMMG (MPI) Pre-Ask 6</u>

| Part and Chapter: | Application | Page No.: | Page 23, #2 |
|---------------------------|-------------|-----------|-------------|
| PUB Approved Issue No: | | | |
| Topic: | | | |
| Sub Topic: | | | |

Preamble to IR:

Question:

Please provide further explanation of how #2 on Page 23 of the Application is relevant to your Application.

Rationale for Question:

RESPONSE:

Page 21, Lines 22-25 of the Special Rebate Application state:

"...*MPI proposes a rebate to Basic customers with a policy in effect and <u>earning premiums</u> on March 15, 2020, a total of \$58 million from Basic. ...a 5.63% rebate of their Basic <u>in-force premium</u> on March 15, 2020." (emphasis added)*

MPI included Point 2 on page 23 in its Special Rate Application to indicate that motorcycle policies were not earning premiums on March 15, 2020, and that there are no in-force premiums for motorcycles on that date. Further, the second part of point 2 is to address customers who may be paying for their motorcycle premiums on an installment plan. The earning period for these customers is no different than customers who pay-in-full (i.e. fully earned in the riding season).

20-050 Customer Rebates

Mr. Graham advised the Board that tomorrow morning the Provincial Government will be announcing a \$52 million rebate of Extension premiums and that Manitoba Public Insurance will be applying to the Public Utilities Board to rebate \$58 million of Basic premiums.

Members support this approach as it expedites customers receiving excess capital in a time of need as opposed to the lengthy timeframe associated with the GRA process.

20-051

20-052 **Termination**

There being no further business to bring before this meeting, the Chairperson declared the meeting terminated at 4:52.

CHAIRPERSON

SECRETARY

2021 Special Rebate Application

MPI Oral Submissions

May 1, 2020 Steve M. Scarfone Anthony L. Guerra

Special Request at an Urgent Time

- 1. Extraordinary circumstances require extraordinary action
- 2. COVID-19 is a Global Pandemic, akin to a 1-in-100 year event
- 3. MPI (and gov't) recognizing the needs of ratepayers and its ability to provide immediate assistance
- \$58M just a small part of much larger collective effort to overcome COVID-19
- 5. MPI believes that issuing this rebate will assist in that endeavor
- 6. MPI believes that issuing this rebate is a reasonable course of action

Before the Rebate

- 1. MPI entered the COVID-19 pandemic on strong financial footing
- 2. MPI experienced favourable financial performance, because of:
 - lower than anticipated claims experience
 - prudent management of investments and operating expenses

Transcript page 99, beginning line 17 (Mark Giesbrecht)

"And I'll just add to that -- that response. One (1) way of looking at our ability to pay the rebate is again looking at the tracking of our capital position and our MCT.

And if I just look back at the last number of quarters and go back a couple years, at February 2018, our Basic MCT was 44 percent. That tracked -- at -- at February 2019, to 52 percent for a slight improvement, then into this current fiscal year, it grew to 87 percent after the first quarter, and then it's hovered between eighty (80) and ninety (90), kind of there -- thereon, and now in around to the hundred percent range.

So -- and we're not forecasting that to -- that to drop going forward, because the substance of the rebate is based on claims savings assumed to happen between that -- that period. And so we will remain in a strong financial position post rebate."

Transcript page 114, beginning line 8 (Luke Johnston)

"But one (1) thing when we had kind of the initial call, MPI noted that the Board for the first time would see just how good of a year MPI had in 19/20, just as an example. I believe reported claims were about \$114 million under budget in the year, which is a remarkable result.

So we were going to be coming to this [G]RA with a very -- very good results anyways. And the pandemic situation, unfortunately for customers, but not so much for us, has actually resulted in even better results, so we really felt the need to – to act, given the amount of monies we had -- or we're making from this situation."

After the Rebate

- **1**. 2019/20
 - Basic Total Earned Revenues projected at \$1.116 billion (Figure 1 Total Earned Revenues - Basic)
 - Essentially equal to the 2020 GRA compliance forecast

2. 2020/21 and beyond

- Reduced revenue forecast reflects revised volume and upgrade projections, which will be detailed in the 2021 GRA
- Revised capital amounts are best estimates and subject to change with Audit Extension monies going directly to basic ratepayers
- Accelerating it via a direct cheque instead of a future rate decrease

Investments

- 1. The ALM strategy ensures that investment losses in the Basic Claims portfolio are offset by the corresponding reduction of the Basic Claims liabilities, since both are interest rate sensitive and have similar duration and size
- 2. The performance of the various asset classes in each of the investment portfolios is not impacted by the proposed rebate
- 3. An added benefit in the context of this rebate Application was the removal of growth assets from the Basic Claims portfolio, with equities having sustained greater losses than bonds during the course of the pandemic
- 4. MPI has significant cash and premium revenues which it can use to fund the rebate. At the outset of the COVID-19 pandemic,, MPI held back \$85 million in cash that would otherwise have been transferred to the Investment Fund

The Rebate Aligns with the CMP

- 1. Proposed rebate is tantamount to a capital release under the CMP
- 2. Benefits to customers now, not 3 years from now
- Proposed rebate aligns with spirit of the capital release provisions of the CMP
- 4. This Application does not need to be changed to comply with the CMP

Proposed Rebate is Fair and Equitable

- Proposed rebate is for customers who overpaid because of COVID-19
- 2. There is no perfect method of determining who gets the rebate
- 3. Methodology must be simple but fair to greatest number of customers
- 4. Fair and equitable to issue rebates to those who contributed to the improved situation MPI faces as a result of the pandemic
- 5. MPI has proposed that rebates go to those with policies in force <u>and</u> earning premium (private passenger vehicles)

Proposed Rebate is Fair and Equitable Motorcycles

- 1. Motorcycle owners no longer need to put their policies in force before riding
- 2. Policies in force all year, but only earn premium during riding season
- 3. Riding season = May 1 to September 30
- 4. MPI assumes no exposure to risk outside of riding season
- 5. No exposure to risk = no premium earned = no payment requirement
- 6. Any payments received by MPI outside riding period cover risk during riding period
- 7. Number of in force policies earning premium on March 15, 2020 = 0
- 8. No evidence motorcycle collision frequency will be 60% under budget in May
- 9. Collision frequency down because less vehicles on road people work at home

10. 90% of motorcycles registered as pleasure use – unaffected by phenomenon

Direct the Proposed Rebate Today

- 1. Grant leave to accept this application outside prescribed timeframes
- 2. Vary the directives contained in Orders No. 159/18 and No. 13 176/19, to the extent that they do not require the issuance of rebates
- 3. Direct MPI to issue special rebate to ratepayers
 - percentage of annualized premiums for universal compulsory automobile insurance policies in force and earning premium on March 15, 2020
 - proposed rebate equal to \$58 million (amount is fixed)
 - by May 31, 2020 (or as soon as can be done)
- 4. Just and reasonable to issue the proposed rebate and methodology
- 5. Consider approval of rebate today, with reasons to follow

Applicant: Manitoba Public Insurance Corporation

HEARING:

The Public Utilities Board (Board) may be holding a virtual public hearing(s) of an application from Manitoba Public Insurance Corporation (MPI) for approval of special rebate on annualized premiums respecting universal compulsory automobile insurance policies currently in place. The virtual hearing is to be convened by the Board at 9:00 a.m. on April 30, 2020 and at 9:00 a.m. on May 1, 2020. Confirmation of hearing dates and times will be communicated on the PUB website at 5:30 p.m. on Wednesday April 29, 2020.

RATE IMPACT:

MPI is requesting approval for a review and variation of the directives contained in PUB Orders No. 159/18 and No. 76/19, to the extent that they do not require the issuance of rebates; and

MPI is requesting from PUB, a directive that MPI issue to ratepayers a percentage of their annualized premiums in respect of universal compulsory automobile insurance policies in force and earning premium on March 15, 2020, through a special rebate in an amount equal to the approximate sum of \$58 million, by May 31, 2020 or as soon thereafter as is reasonably practicable.

GENERAL INFORMATION:

Interested parties should take note that the Board welcomes ratepayer input via the PUB website up to 4:00 p.m., Wednesday April 29, 2020.

http://www.pubmanitoba.ca/v1/contact-us/pub-complaint-form.html

Due to Covid 19 meeting size restrictions, the PUB will not be able to accommodate in-person attendance at this time. Ratepayers and interested parties are invited to watch the proceedings via the on-line streaming tool at http://www.pubmanitoba.ca/v1

DATED this 27 day of April, 2020

Dr. Darren Christle Secretary and Executive Director The Public Utilities Board

THE PUBLIC UTILITIES BOARD

RULES OF PRACTICE AND PROCEDURE

<u>Title</u>

1. These Rules may be cited as the Rules of Practice.

Definition

- 2. In these Rules:
 - a) "ACT" means *The Public Utilities Board Act*, R.S.M. 1987 Chapter P 280 as amended from time to time;
 - b) "AFFIDAVIT" means either a sworn or affirmed statement of facts, based on personal knowledge or on information and belief, and in writing, made voluntarily before an officer having authority to administer such oath or affirmation;
 - c) "APPLICANT" means a party who has filed an application with the Board under the Act or its Regulations;
 - d) "APPLICATION" means a written request to the Board to exercise its statutory power in respect of matters referred to in the application;
 - e) "BOARD" means The Public Utilities Board and where the context requires, includes a panel of the Board;
 - f) "COMPLAINT" means a written request to the Board to exercise its statutory power in respect of matters referred to in the complaint;
 - g) "DOCUMENTS" include written documentation, films, photographs, charts, maps, graphs, plans, surveys, books of account, transcripts, videotapes, audio tapes, and information stored by means of an electronic storage and retrieval system;
 - h) "ELECTRONIC HEARING" means a hearing held by conference telephone or some other form of electronic technology allowing persons to communicate with one another;
 - i) "HEARING" means a proceeding before the Board wherein a party or parties provide submissions to the Board which submissions may, in the Board's

discretion, be preceded by the provision of information and/or evidence to the Board, and includes an Electronic Hearing, an Oral Hearing and a Written Hearing;

- j) "INFORMATION REQUEST" means any request made in writing by a party for information or particulars directed to a party in a proceeding;
- "INTERVENER" means a party other than the applicant who has formally filed for registration in respect of a proceeding and who intends to participate in the production and testing of evidence and whose registration has been approved by the Board pursuant to Rule 27;
- "MOTION" means a request for a ruling or order in a proceeding or a pending proceeding;
- m) "ORAL HEARING" means a hearing at which the parties or their representatives attend before the Board in person;
- "PARTY" means either an applicant, an Intervener and for the purpose of these Rules, any other person whom the Board determines to be a party to a proceeding;
- o) "PRESENTER" means any person who makes an unsworn or unaffirmed statement concerning an application to the Board in respect of a proceeding;
- p) "PRE-HEARING CONFERENCE" means a meeting, which may be held before a Hearing, to set a timetable for the Proceeding, to finalize what matters may be discussed and to identify Interveners;"
- q) "PROCEEDING" means a process to decide a matter brought before the Board, including a matter commenced by application ;
- r) "SECRETARY" means the Secretary or Acting Secretary of the Board;
- s) "WRITTEN HEARING" mean a Hearing in which the proceeding before the Board is conducted entirely in writing.

PART 1 GENERAL

Application of Rules

- 3. (1) These Rules apply to all proceedings of the Board.
 - (2) In any proceeding, the Board may dispense with, vary or supplement any of the provisions of these Rules.
 - (3) The Board has all the powers of a Court of Queen's Bench or a Judge thereof in respect of the attendance and examination of witnesses, the amendment of proceedings, the production and inspection of documents, the enforcements of its Orders and all other matters necessary or proper for the due exercise of its powers, except as otherwise provided in *The Public Utilities Board Act* [Section 24(4), *The Public Utilities Board Act*].

Direction on Procedure

- 4. (1) In any proceeding, the Board <u>may</u> issue directions on procedure which will govern the conduct of that proceeding and will prevail over any provision of these Rules that is inconsistent with those directions.
 - (2) The Board <u>may</u> recommend or order that Interveners with similar interests present a joint intervention.
 - (3) Any person intending to make an application to the Board <u>may</u>, prior to filing the application, apply by ex parte motion to the Board for the issuing of directions on procedure relating to the proposed application.

Service On Interested Parties

- 5. (1) Subject to subsection (2), a document required to be served under these Rules or by the Board may be served on a person:
 - (a) by personal delivery;
 - (b) by courier service, ordinary mail, fax or electronic means to the last known address or such other address given by the person; or
 - (c) by such other method as the Board directs.

- (2) A document may only be served by electronic means if the person being served has the information technology, equipment, software and processes for receiving or retrieving the document. Where a person expresses a preference to be served electronically in accordance with Rule 27(1)(d) or otherwise, that person may register that preference with the Board and service in accordance with such preference shall be deemed effective unless notice to the contrary is given to the Board.
- (3) The date of service of a document is the day on which the person being served receives the document unless it is received after 5 o'clock in the afternoon Central Standard Time, in which case the date of service is deemed to be the next business day. Where a document is served by ordinary mail, the date of service shall be five days after placing it in the mail.
- (4) The Board may require a person to file an affidavit of service setting out on whom a document was served and the means taken to effect service.
- (5) When an oral hearing or electronic hearing is in progress, a party entering a document as an exhibit shall provide copies of the document to the Board, the Board staff attending the hearing and the other parties.
- (6) The Board may serve, or direct the applicant to serve, a notice issued by the Board either in accordance with this section or by public advertisement in a daily or weekly newspaper in circulation in the community affected by the proceeding as determined by the Board.
- (7) Any document required to be served on a party under these Rules may be served on the party's representative.

Filing With the Board

- (1) Filing of any document with the Board may be effected by personal delivery, registered mail, telefacsimile, electronic means or otherwise as the Board may direct.
 - (2) Where any document is required to be filed with the Board, the date of filing shall be the date of actual receipt by the Secretary or anyone authorized by the Secretary to receive such documents; but when a hearing is in progress, any document which is required to be filed shall be filed with the Secretary at the hearing and with the Interveners of record.

<u>Affidavits</u>

- 7. (1) The Board may, in its discretion, accept and act upon evidence by Affidavit which evidence shall be filed with the Secretary.
 - (2) Where an Affidavit is made on the basis of information and belief, the source of the information and the grounds of belief shall be set out therein.

Verification

- 8. (1) The Board may, at any time and on notice, require the whole or any part of any document filed with the Board to be verified by Affidavit or oral testimony.
 - (2) Unless the Board otherwise directs, if the notice given under Subsection (1) is not complied with, the document in question, or any part thereof not verified in accordance with the notice, shall be struck from the record.

Failure to Comply

9. Where a party to a proceeding has not complied with any requirement of these Rules or any direction of procedure or order issued by the Board, the Board may stay the proceedings until satisfied that such requirement has been complied with or take such other steps as it considers just and reasonable, including the withdrawal of status of any Intervener in the proceeding.

Formulation of Issues

- 10. In any proceeding,
 - a) where the documents filed with the Board do not sufficiently address the matters at issue in the proceeding; or
 - b) where it would assist the Board in the conduct of the proceeding; or
 - c) where it would assist parties to participate more effectively in the proceeding;

the Board may formulate issues which shall be considered by it in the proceeding and, for this purpose, may direct parties to propose issues which, if not agreed to by all parties, shall be settled by the Board.

Conferences on the Receipt of an Application

- 11. (1) To facilitate the hearing process a pre-hearing conference may be held to consider:
 - a) a statement of the issues;
 - b) the necessity or desirability of amending an application for the purpose of clarification, amplification or limitation;
 - c) the setting of dates for the orderly exchange of documents and information requests;
 - d) the procedures to be adopted in the proceeding;
 - e) any other matters that may aid in the simplification and disposition of the proceeding; and
 - f) registration of Interveners, where possible.
 - (2) Where, in the opinion of the Board, the amount, level of detail and complexity of material so warrants, the Board may direct the parties to participate in a non-evidentiary technical conference for the purpose of considering:
 - a) a tutorial presentation for interested parties;
 - b) a discussion or workshop style conference to gain an understanding or clarification on a matter; or
 - c) any other presentation or conference style arrangement that will assist the understanding of the Board and interested parties.

Production of Documents

- 12. (1) Where, in an application, intervention, motion or response to an information request, a party refers to a document which the party intends to rely on in the proceeding, that party shall attach a copy of that document to its evidence.
 - (2) The Board, on its own initiative or upon motion by any party may order any person or party in a proceeding to produce any document relating to the proceeding.
 - (3) Any party who fails to comply with an order pursuant to subsection (2) shall be deemed to be in breach of the said order.

Confidentiality

- 13. (1) Where, a document is filed with the Board by a party in relation to any proceeding, the Board shall, subject to subsection (2), place the document on the public record.
 - (2) The Board may receive information in confidence on any terms it considers appropriate in the public interest,
 - a) if the Board is of the opinion that disclosure of the information could reasonably be expected
 - (i) to result in undue financial loss or gain to a person directly or indirectly affected by the proceeding; or
 - (ii) to harm significantly that person's competitive position.
 - or
 - b) if
 - (i) the information is personal, financial, commercial, scientific or technical in nature; or
 - (ii) the information has been consistently treated as confidential by a person directly affected by the proceeding; and
 - (iii) the Board considers that the person's interest in confidentiality outweighs the public interest in the disclosure of the information.
 - (3) Where disclosure of any document is refused due to a claim for confidentiality and a claim for public disclosure of such documents has been made, the Board shall hear such claim on a motion made under Rule 22, and may
 - a) order the document be placed on the public record, subject to Subsection13(5);
 - b) order the document not be placed on the public record, with such conditions on access imposed as the Board considers appropriate;
 - c) order an abridged version of the document to be placed on the public record; or

- d) make any other order the Board finds to be in the public interest.
- (4) For purposes of hearing a motion in respect of a disputed claim under Subsection (3), the Board may examine the document or other evidence in question to ascertain whether or not the claim for confidentiality or the claim for public disclosure will be sustained.
- (5) Where the Board has decided to place on the public record any part of a document that was filed in confidence in accordance with Subsection 13(2) and 13(3), the party who filed the document shall be given an opportunity to request that it be withdrawn prior to its placement on the public record.

Information Requests

- 14. (1) Where, in any proceeding, the Board permits information requests to be directed to a party for the purpose of a satisfactory understanding of the matters to be considered, such information requests shall be identified by the inquiring party's designated prefix and be:
 - a) addressed to the party from whom the response is sought;
 - b) numbered consecutively in respect of each item of information requested;
 - c) relevant to the proceeding; and
 - d) served, where the Board has directed a time limit, within the time limit directed by the Board.
 - A copy of any information request directed to a party pursuant to Subsection (1) shall be filed with the Secretary and served on all interested parties to the proceeding.

Response to Information Requests

- 15. (1) Subject to Subsection (2), where an information request has been directed to a party and served on that party in accordance with the Board's directions, the party shall:
 - a) provide a full and adequate response to each information request on a separate page or pages, or, by agreement between the parties by electronic means; and

- b) file a written copy of the responses with the Secretary and serve a written or electronic copy of the responses on all parties to the proceedings as directed by the Board.
- (2) Where there is a dispute with respect to the adequacy of a response to an information request, the Board may orally or in writing direct all parties:
 - a) to appear before the Board or a member of the Board at a specified time and place for a conference; or
 - b) to submit in writing their position and views on the matter for the purpose of assisting the Board.
- 16. A party who is unable or unwilling to provide a full and adequate response to an interrogatory shall file and serve a response:
 - a) where the party contends that the interrogatory is not relevant, setting out specific reasons in support of that contention;
 - b) where the party contends that the information necessary to provide an answer is not available or cannot be provided with reasonable effort, setting out the reasons for the unavailability of such information, as well as any alternative available information in support of the response that the party considers would be of assistance to the party making the information requests;
 - c) where the party contends that the information sought is of a confidential nature, setting out the reasons why it is considered confidential and any harm that would be caused by making it public; or
 - d) otherwise explaining why such a response cannot be given.

Evidence

- 17. (1) The Board may receive evidence by:
 - a) sworn testimony or testimony solemnly affirmed; or
 - b) the report of any person directed by the Board to so report; or
 - c) such other manner as may be deemed appropriate by the Board.
 - (2) Witnesses at a hearing shall be examined orally under oath or affirmation unless otherwise directed by the Board.

- (3) Counsel may communicate with his or her witness who is being cross examined, unless otherwise directed by the Board.
- (4) Any party who wishes to present evidence at a public hearing shall, prior to the appearance of the witnesses and within the time limit prescribed by the Board, file a copy of the proposed evidence with the Secretary and serve a copy of it on all parties.
- (5) Pre-filed written evidence may be received in evidence at the hearing with the same force and effect as if it were stated orally by the witness, provided that the witness shall be present at the hearing and that the witness:
 - a) testifies as to his/her qualifications;
 - b) confirms that the written material was prepared under his/her direction and control and is accurate to the best of his/her knowledge and belief; and
 - c) submits to cross-examination on the same.
- (6) Where the Board has prescribed a time limit for the filing of written evidence, supplementary written evidence may be filed after the time prescribed only with leave of the Board.
- (7) Should any party seek to challenge the admissibility of the pre-filed evidence of any other party, such a challenge shall be brought by way of a motion under Rule 22 prior to the commencement of the public hearing.
- (8) The Board may issue commissions to take evidence outside of Manitoba and may make all proper orders for that purpose and for the return and use of the evidence so obtained.

Evidence in Other Proceedings

18. Evidence received in another proceeding before the Board or before any other provincial or federal regulatory body or any report, decision, finding or order made in respect thereof, may, by leave of the Board, be received as evidence in a proceeding.

Examination

19. The procedure for presenting evidence shall be the same for applicants, interveners

and independent witnesses and shall be as follows:

- (1) Pre-filed written evidence:
 - a) Applicants shall provide pre-filed written evidence in support of the application;
 - b) Interveners' witnesses/independent witnesses shall provide pre-filed written evidence in response to the applicant's pre-filed written evidence; or
 - c) Applicants may provide written pre-filed rebuttal evidence to address issues raised in the interveners'/independent witnesses' pre-filed written evidence.
- (2) Applicant's oral evidence:
 - Applicant's direct oral evidence shall include oral testimony on its prefiled evidence and its pre-filed rebuttal evidence in accordance with Rule 19(4);
 - b) cross-examination of applicant's witnesses on pre-filed evidence, prefiled rebuttal evidence and/or direct oral evidence; and
 - c) Applicant's re-examination to clarify issues that were first raised during the cross-examination of the applicant.
- (3) Intervener/Independent witnesses' evidence:
 - a) Intervener/independent witnesses shall provide direct oral evidence, including oral testimony on their pre-filed written evidence, and response(s) to the applicant's written and oral testimony;
 - b) cross-examination of the interveners/independent witnesses on their pre-filed evidence and direct oral evidence;
 - c) Intervener/independent witnesses re-examination to clarify issues that were first raised during the cross-examination of the intervener/independent witnesses; and
 - d) Subsections (3) a), b) and c) shall be repeated for each intervener/independent witness.
- (4) Applicant's oral rebuttal evidence:

- a) Applicant's oral rebuttal evidence to address issues raised for the first time during Interveners'/Independent witnesses' oral testimony;
- b) cross-examination of the applicant's oral rebuttal evidence; and
- c) Applicant's re-examination of rebuttal witnesses to clarify points that were first raised during the cross-examination of the rebuttal witnesses.

Attendance of Witnesses (Subpoenas)

- 20. (1) The Board or party who requires the attendance of a person as a witness before the Board may serve the person with a subpoena requiring him or her to attend the hearing at the time and place stated in the subpoena and the subpoena may also require the person to produce at the hearing the documents or other things in his/her possession, control or power relating to the matters in question in the hearing that are specified in the subpoena.
 - (2) Any party served with a subpoena and who has an objection to filing a document or to attending the hearing stated in the subpoena may proceed for an order by way a motion pursuant to Rule 22.
 - (3) The subpoena for a witness to produce a document or to attend a hearing shall be signed by the Secretary of the Board.

<u>Amendments</u>

- 21. In any proceeding the Board may, on condition or otherwise:
 - a) allow any amendment to any document;
 - b) order to be amended or struck out, any document or any part thereof which may tend to prejudice, embarrass or delay the fair hearing of an application on its merits; and
 - c) order such other amendment as may be necessary for the purpose of hearing and determining the real questions and issues in the proceeding.

<u>Motion</u>

22. (1) Any matter which arises in the course of a proceeding that requires a decision or order of the Board, shall be brought before the Board by a motion.

- (2) A motion shall be in writing, in any form, provided it contains a clear and concise statement of the facts, the order or the decision sought and the reasons for such an order or decision.
- (3) A motion shall be filed and served on all interested parties at least 6 days before the motion is heard.
- (4) Any party who wishes to respond to a motion shall file and serve on all parties a written answer no later than 2:00 p.m. two days before the day the motion is heard.
- (5) Any document which a party may wish to submit in support of a motion or response shall accompany the notice or response and shall be filed and served on all parties.
- (6) Notwithstanding subsections (2) to (5), a motion may be made orally or in writing at any time during the course of a hearing and shall be disposed of in accordance with such procedures as the Board may direct.
- (7) When hearing a motion, the Board may permit oral evidence in addition to any affidavit or other supporting material.

PART II HEARING PROCEDURE

Application to the Board

- 23. An application shall:
 - a) contain a clear and concise statement of the facts;
 - b) set forth the reasons for the application;
 - c) set forth the nature of the order sought;
 - d) shall submit with the application any schedule of rates or any other material relevant to the application;
 - e) contain all Minimum Filing Requirement information prescribed by the Board and contain full disclosure of the application together with all supporting documents to be attached at the time of filing;
 - f) contain a detailed index of the entire application, which may be updated regularly throughout the public hearing process by the Board, to include the information in the application, the subject matter of all information requests, intervener evidence and rebuttal evidence;
 - g) be signed by the applicant or his/her authorized agent or representative; and
 - h) state the name, mailing address, e-mail address and telephone number of the applicant or of the authorized agent or representative of the applicant to whom communications shall be sent and/or upon whom documents shall be served.

Hearing of the Application

- 24. (1) On receipt of an application, the Board may set a hearing date after the date of the pre-hearing conference or at any other date fixed by the Board.
 - (2) An application for an interim ex-parte order shall only be made:
 - (a) if emergency circumstances exist; or
 - (b) if there is urgency where, in the Board's opinion, when balancing the interest of providing notice of an application with the financial health of

the Applicant, it is deemed just and reasonable to proceed ex parte; or

- (c) for purposes of efficiency; or
- (d) for such other special circumstances as may be determined by the Board; and
- (e) If the applicant provides full disclosure as to why the application should proceed ex parte.

Publication of Notice of Hearing

- 25. (1) Where an application or any other matter is to be dealt with by means of a public hearing for which the Board issues a public notice, the applicant shall:
 - a) forthwith publish the public notice in the form approved by the Secretary, in the newspapers specified by the Board;
 - b) forthwith serve a copy of the public notice upon such persons as the Board may direct;
 - c) provide a notice of the forthcoming public hearing to each subscriber or customer in such monthly bill or bills as the Board may direct;
 - provide for radio and TV public announcement of a forthcoming public hearing in communities outside of Winnipeg as the Board may direct; and
 - e) publish a further reminder notice, if so directed by the Board.
 - (2) The applicant shall file with the Secretary proof, by affidavit, of publication pursuant to subsection (1) a) and of service pursuant to subsection (1) b).
 - (3) Notices shall state the time and place of the hearing and any pre-hearing conference and shall contain a clear and concise statement of the substance of the application, including any proposed rate changes in sufficient detail and in plain language for the public's clear understanding of the substance of the application.

Applicant's Evidence

- 26. (1) The information contained in an application and the information submitted by an applicant to the Board, pursuant to Rules 17, 19, 21 and 23, shall be deemed to constitute the written evidence of the applicant and the applicant shall not, except with leave of the Board, be at liberty to submit additional written evidence.
 - (2) Any document purporting to have been issued by a corporation or any officer, agent or employee of a corporation for or on its behalf, may be received in evidence without calling the author as a witness.
 - (3) In the case of a corporation, the applicant shall present such witnesses as are competent in the issues before the Board, including a senior officer to be available for questioning on policy issues and related matters.

Intervention

- 27. (1) Where a notice of a public hearing has been published, any interested person or organization may request to intervene in respect of the proceeding by filing with the Secretary and serving on the applicant, on or before the date prescribed, a written request to intervene [Intervener Request Form, Appendix I] that:
 - a) clearly identifies the specific issue(s) on which that prospective intervener seeks Board approval to intervene;
 - b) where seeking an award of costs, clearly quantifies the cost of the proposed intervention, by issue;
 - c) states clearly the intervener's intention to appear at the public hearing and to participate in the leading and the testing of evidence; and
 - d) sets out the name, mailing address, e-mail address and address for personal service and telephone number of the Intervener or agent authorized to receive documents on that person's behalf, and the preference for the method of receiving information.
 - (2) Before determining whether to award intervener status to any person, the Board will review the written request for intervention to determine:
 - a) a clear understanding of the issues to be addressed and purpose for the requested intervention;
 - b) any relevant information that may be useful in explaining or supporting the views of the person requesting intervention; and

- c) the extent of the requested intervention in the information request, evidentiary and argument procedures.
- (3) Should any party object to the intervention by any other party, such objection and challenge to the Intervener status shall be made by way of a motion under Rule 22, prior to the commencement of the public hearing.
- (4) Unless the Board directs otherwise, the applicant shall serve each intervener with:
 - a) a copy of the application or other document initiating the proceeding; and
 - b) any pre-filed written evidence or material submitted to the Board.
- (5) Interveners are to avoid duplication of evidence, and subject to Rule 4 (2) are to consider joint interventions with other interveners.

Presentation

28. Where a notice of a public hearing has been published, any interested persons or organizations who do not wish to intervene in respect of the proceeding but who wish to make their views regarding the application known to the Board, may provide their views in writing to the Board in advance of the public hearing or may appear during that portion of the public hearing that has been set aside by the Board to hear the views of presenters.

Information Request

- 29. (1) Any party to the proceeding may address an information request to any other party in the proceeding, in accordance with Rule 14.
 - (2) Where the Board has directed a time limit, additional information requests may be addressed after the date prescribed only with leave of the Board or with the consent of the party to whom the information request is addressed.

Hearing of Evidence

30. (1) At hearings, parties will be afforded an opportunity to present their evidence

and to examine and cross-examine witnesses. Because all proposed evidence is to be pre-filed in accordance with Rule 17 (4), the direct oral evidence given at the hearing should be in summary form.

- (2) The written evidence of an applicant and an intervener shall be deemed to include its pre-filed evidence and any responses to information requests by that applicant or intervener.
- (3) A party may update or revise their evidence, only with leave of the Board.

Argument

31. At the conclusion of the examination of evidence at the hearing, the Board may direct that oral argument be presented and establish the time for it, or it may order written argument to be filed with the Board and served on parties by a certain date, or both.

Summary Application

- 32. (1) The Board may grant an order permitting and directing an applicant to proceed by way of summary application.
 - (2) An order granted by the Board to proceed by way of summary application shall only be made after public notice of the proposed procedure and after holding a public hearing to consider the terms of the order of the summary procedure.
 - (3) An order permitting an applicant to proceed under summary application shall, in all events, provide for:
 - a) notice to all effected parties as directed by the Board;
 - b) notice of the Board's intention to grant the application without a public hearing on the written evidence, unless a complaint or request is filed and accepted by the Board requesting a public hearing; and
 - c) such other terms as the Board may provide.
 - 4) Notwithstanding a summary application order issued by the Board, the Board shall have in its absolute discretion the right at any time to order the cancellation or variance of any summary application order in respect to any matter coming or to come before it.

Sittings, Facilities and Translation

- 33. (1) The Board shall hold hearings at such times and places as it chooses and shall conduct its proceedings in a manner convenient for the timely and effective dispatch of the application.
 - (2) All sittings of the Board to hear applications are open to the public.
 - (3) The Board may direct advisors to assist interveners in matters of procedure and conduct if requested.
 - (4) The Board shall, whenever practicable, conduct hearings in buildings open to the public with wheelchair accessibility.
 - (5) The Board will arrange signing translation for hearing impaired persons upon five days notice.
 - (6) The Board will arrange for simultaneous French translation to hear any person using the French language upon reasonable prior notice.

Transcripts

- 34. (1) The Board may retain reporters to supply transcripts of its proceedings.
 - (2) A copy of the transcript of a proceeding will be available for review at the Board's office following the hearing.
 - (3) During the hearing, the Board shall provide one copy of the daily transcript to interveners on a shared basis, if so requested.

Issuance of an Order

- 35. (1) On any application, the Board may make an order granting the whole or part only of the application or may grant such further or other relief in addition to or in substitution for that applied for, as fully and in all respects as if the application had been for such partial, further or other relief. [Section 44(1) of the Act]
 - (2) The Board shall provide written reasons for the orders it issues at the time of the issuing of such orders or as soon thereafter as is practical.

Review

- 36. (1) The Board may, on its own initiative or on application by a person, review, rescind, change, alter or vary any decision or order by it.
 - (2) An application for a review under subsection (1) must be in writing and contain the following:
 - a) a clear and concise statement of facts relevant to the application;
 - b) the grounds on which the application is made;
 - c) a brief explanation as to the nature of the prejudice or damage that has resulted or will result from the order, decision or direction;
 - d) a brief description of the remedy sought; and
 - e) the applicant's name, address in Manitoba, telephone number, fax number and, if available, e-mail address.
 - (3) An application for a review must be filed and served on the parties to the proceeding for which the order or decision of the Board was made within 30 days of the date of the order or decision.
 - (4) The Board shall determine, with or without a hearing, in respect of an application for review, the preliminary question of whether the matter should be reviewed and whether there is reason to believe the order or decision should be rescinded, changed, altered or varied.
 - (5) After determining the preliminary question under subsection (4), the Board may:
 - a) dismiss the application for review if,
 - in the case where the applicant has alleged an error of law or jurisdiction or an error in fact, the Board is of the opinion that the applicant has not raised a substantial doubt as to the correctness of the Board's order or decision; or
 - ii) in the case where the applicant has alleged new facts not available at the time of the Board's Hearing that resulted in the order or decision sought to be reviewed or a change of circumstances, the Board is of the opinion that the applicant has not raised a reasonable possibility that the new facts or the change in circumstances as the case may be, could lead the

Board to materially vary or rescind the Board's order or decision;

or

- b) grant the application; or
- c) order a hearing or proceeding be held.
- (6) If the Board orders a hearing be held under subsection (5), it shall issue a Notice of Review, and a new hearing or proceeding will be held in accordance with these rules as determined by the Board.
- (7) A notice of review under subsection (6) must contain the same information as is contained in a notice of hearing.
- (8) No application for review may be made in respect of:
 - a) a decision or order made by the Board as a result of a review under this section; or
 - b) a decision or order of the Board which has been appealed to the Court of Appeal.
- (9) The Board may at any time, without a hearing or notice of review correct typographical errors, errors of calculation and similar errors made in any of its orders or decisions.

PART III OTHER PROCEDURES

The following are excerpts from the Act:

Initiation of Inquiries

37. The Board may of its own motion and shall upon the request of the Legislature or the Lieutenant Governor in Council, inquire into, hear and determine any matter or thing within its jurisdiction [Section 27(1)].

Reports by One Member

38. The Board or the Chairman may authorize a member to report to the Board upon any question or matter arising in connection with the business of the Board; and that member, where so authorized, has all the powers of the Board for the purpose of taking evidence or acquiring the necessary information for the purpose of the report; and, upon the report being made to the Board, the Board may adopt it as the order of the Board or otherwise deal with in the absolute discretion of the Board [Section 16].

Hearing by Single Member

39. A single member may hear an application, petition, matter or complaint over which the Board has jurisdiction under this or any other Act of the Legislature; and after the hearing, the member shall report thereon fully to the Board; and the Board may thereupon deal with the application, petition, matter or complaint as if the hearing had been before the full Board [Section 31(1)].

Review of Orders

- 40. (1) The Board may require a re-hearing of an application before making any decision thereon [Section 44(2)].
 - (2) The Board may review, rescind, change, alter or vary any decision or order made by it [Section 44(3)].

Interim Ex Parte Orders

41. The Board may, if the special circumstances of any case so require, make an interim ex parte order authorizing, requiring or forbidding anything to be done that the Board would be empowered on application, petition, notice and hearing to authorize, require or forbid; but no such order shall be made for any longer time than the Board deems necessary to enable the matter to be heard and determined on such application, petition, notice or hearing [Section 45].

Interim Order

42. The Board may, instead of making an order final in the first instance, make an interim order and reserve further directions, either for an adjourned hearing of the matter or for further application [Section 47(2)].

PART IV AWARDING OF COSTS

<u>Criteria</u>

- 43. In any proceeding the Board may award costs to be paid to any Intervener who has:
 - a) made a significant contribution that is relevant to the proceeding and contributed to a better understanding, by all parties, of the issues before the Board;
 - b) participated in the hearing in a responsible manner and cooperated with other Interveners who have common objectives in the outcome of the proceedings in order to avoid a duplication of intervention;
 - c) insufficient financial resources to present the case adequately without an award of costs; and
 - d) a substantial interest in the outcome of the proceeding and represents the interests of a substantial number of the ratepayers.
- 44. In determining the amount of costs to be awarded to a intervener, the Board may consider whether the intervener did one or more of the following:
 - a) asked questions on cross-examination that were unduly repetitive of questions previously asked by another intervener;
 - b) made reasonable efforts to ensure that the intervener's evidence was not unduly repetitive of evidence presented by another intervener;
 - c) made reasonable efforts to cooperate with other interveners to reduce the duplication of evidence and questions or to combine the intervener's submission with that of similarly interested interveners;
 - d) presented in oral evidence significant new evidence that was available to the intervener at the time that intervener pre-filed its written evidence but was not filed at that time;
 - e) failed to comply with a direction of the Board, including a direction on the filing of the evidence;
 - submitted evidence and argument on issues that were not relevant to the proceeding;

- g) needed legal or technical assistance to take part in the proceeding;
- h) engaged in conduct that unnecessarily lengthened the duration of the proceeding or resulted in unnecessary costs;
- i) the intervener took part in the proceeding for the sole purpose of protecting the intervener's business interests; or
- j) such other factor(s) as the Board considers relevant.

<u>Costs</u>

- 45. (1) Costs awarded under this section:
 - may include the fees of consultants, expert witnesses and counsel associated with the intervention but shall not include indirect expenses relating to an Intervener's own time, such as wages lost by attendance at the hearing;
 - b) may include disbursements, the amounts allowed under the Manitoba Government employee rates, approved from time to time, for travel, meals and accommodation. Consideration will be given to providing for different amounts if they can be justified; and
 - c) shall be at the sole discretion of the Board.
 - (2) The Board may award only a portion of the costs being sought by an Intervener.

Procedures

- 46. (1) For purposes of awarding costs to any party, the Board may establish a tariff of fees and disbursements.
 - (2) A party applying for costs shall so inform the Board when filing the form requesting to intervene, as in Appendix I.
 - (3) An intervener seeking an award of costs should attend any pre-hearing conference to confer with other interveners and avoid duplication of intervention as referred to under Rule 4(2).
 - (4) The Board may hear submissions regarding the awarding of costs to interveners during final argument, or may direct such submissions to be

made in writing following final argument.

- (5) Any intervener applying for an award of costs under subsection 45(1) shall provide the Board with a breakdown of costs, reasonably and necessarily incurred, within 30 days of the last day of the hearing and in the form of the attached Appendix II, "Budget and Cost Summary Sheet", and serve a copy on the applicant.
- (6) The applicant may forward any comments or objections for costs, as set out on the "Budget and Cost Summary Sheet" form, to the respective Intervener and to the Board within 10 working days after receipt thereof.
- (7) The intervener seeking costs shall have a further period of 10 working days, after receipt of any comments by the applicant under Subsection (6), to submit a response to the Board with a copy to the applicant.
- (8) The Board shall issue an order in response to each application for costs, and if costs are awarded, the party ordered to pay the costs shall pay such costs within 15 days of the Board's cost order.

PUB Exhibit #3

April 27, 2020

Mr. Mike Triggs General Counsel and Corporate Secretary Manitoba Public Insurance Corporation 702 - 234 Donald Street P.O. Box 6300, Stn. Main Winnipeg, MB R3C 4A4

-and-

Past Interveners of Record (2019 and 2020 GRAs - per attached list)

Re: MPI 2021 Special Rebate Application

The Board acknowledges receipt of the 2021 Special Rebate Application filed by Manitoba Public Insurance (the Application) on Monday, April 27, 2020. An electronic copy of the Application has been posted to the Board's website.

Procedure for Application

The Board recognizes the unique and urgent circumstances that have given rise to the Application and finds that the Application should proceed expeditiously.

In anticipation of the filing, by email on Friday, April 24, 2020, Board counsel provided MPI and Interveners of Record for the 2019 and 2020 GRAs with the Board's preliminary direction on procedure. Board counsel invited MPI and Interveners of Record to provide comments on the procedure, by noon on Monday, April 27, 2020.

The Board received written comments from MPI and Interveners of Record Consumers' Association of Canada (Manitoba) Inc., Coalition of Manitoba Motorcycle Groups, Bike Winnipeg, Canadian Automobile Association Manitoba, and Insurance Brokers Association of Manitoba. No Interveners of Record objected to the Board's proposed process. MPI advised that it was agreeable to the process and offered some supplemental recommendations.

The Board has considered the comments of MPI and the Interveners of Record. In accordance with its Rules of Practice and Procedure 3(2) and 4(1), the Board hereby

VIA EMAIL

issues the following direction for the procedure of the Application, and the Application timetable:

- 1. The Board will receive written comments only from members of the public on the Application, which comments may be posted on the Board's website. The Board will accept comments from members of the public until 4:00 p.m., Wednesday, April 29, 2020.
- 2. Wednesday, April 29, 2020, 1:00 p.m.: Interveners of Record and Board counsel to advise as to whether they require a question and answer session on the Application, and if so, provide the Board and MPI with an outline of the general topics of questioning, and/or pre-asks for any questions that would otherwise be asked by way of undertaking.
- 3. Wednesday, April 29, 2020 1:00 p.m.: MPI and Interveners of Record to advise whether they require oral submissions on the Application.
- 4. (If required) Thursday, April 30, 9:00 a.m. to 12:00 p.m. question and answer session with MPI, Interveners of Record, Board and Board counsel only.
- 5. (If required) Friday, May 1, a.m. 9:00 a.m. to 12:00 p.m.: oral submissions of MPI and Interveners of Record.

All materials are to be filed electronically with the Board and will be posted on the Board's website.

The Question and answer session and oral submissions will be transcribed. Those wishing to participate in the question and answer session and oral submissions will have the opportunity to do so via the PUB live streaming technology. There will also be limited in-person participation in the Board's hearing room, which will be organized in compliance with applicable heath orders and social distancing guidelines. Board staff, Board counsel, and Panel members who wish to attend in person will be present in the hearing room. Up to two MPI representatives may appear in person. Counsel for Interveners of Record seeking the opportunity to appear in person should contact the Board, as such requests will only be accommodated if doing so complies with applicable public health orders and social distancing guidelines.

Due to the current public health emergency, participation in the question and answer session and oral submissions will be limited to MPI, the Board and Board counsel, and Interveners of Record. Members of the public are encouraged to watch the proceedings via the PUB live stream.

Question and Answer Session (if required) - April 30, 2020 at 9:00 a.m.

The question and answer session will provide the Board panel, Board counsel and Interveners of Record an opportunity for clarification and explanation of the Application, as needed. The Board will not require that MPI provide direct evidence at the outset of the session. As set out above, Interveners of Record are to advise the Board and Board counsel **no later than 1:00 p.m. on Wednesday, April 29, 2020** as to whether they require a question and answer session on the Application. Should the question and answer session be required, Board counsel will provide direction on the order of questioning by counsel.

Other Matters

Should any party have additional matters to be addressed at this time, please contact the Board. Thank you for your anticipated cooperation.

Yours truly,

Darren Christle, PhD, CCLP, P.Log., MCIT Secretary/ Executive Director

DC/kls

PUB (MPI) Pre-Ask Question #1

Topic:

Claims Incurred Forecast

Reference:

Rebate Application, Page 7 of 27, Figure 3 Claims Incurred before Provisions - Basic

Preamble:

MPI has indicated a material improvement in Claims Incurred from the Compliance Filing for the fiscal years 2019/20, 2020/21 and the forecast period.

Questions:

- a) Please provide the budgeted claims incurred and frequency by month for 2019/20 and 2020/21 and indicate which budget the total should reconcile to for Collision, PIPP and Basic Property Damage.
- b) Are the actual and budgeted collision claims amounts consistent with each other relative to lags in reporting?
- c) Please indicate to what extent the adequacy of reserves at March 31, 2020 has been reviewed by the external actuary.
- d) Is the rebate application consistent with external actuarial review of adequacy of reserves?

PUB (MPI) Pre-Ask Question #2

Topic:

Capital Position

Reference:

Compliance Filing 2020 GRA, Page 3 of 13, Figure 3; Rebate Application, Page 18 of 27, Figure 11 Projected Total Equity & MCT - Before & After Rebate

Preamble:

In the Compliance Filing MPI projected AOCI for Basic of (\$103.2 million) at the end of February 2020. Based on the Rebate Application the AOCI for Basic is now projected to be (\$34.8 million) at March 31, 2020, a \$68.4 million improvement.

Question:

Please reconcile and provide details of this change in Basic AOCI.

PUB (MPI) Pre-Ask Question #3

Topic:

Rebate Proposal

Reference:

Rebate Application, Page 21 of 27, Lines 13-31; and Page 23 of 27, Lines 5-14

Preamble:

MPI has indicated the riding season for Motorcycles is May 1, to September 30^{th} . MPI's rebate proposal reflects expected claims incurred savings for the period March 15^{th} to May 15^{th} .

Questions:

- a) What portion of the Motorcycle riding season falls within the March 15^{th} to May 15^{th} period?
- b) Please indicate how MPI could recognize this within the RSR rebate proposal.

PUB (MPI) Pre-Ask Question #4

Topic:

Rebate Proposal

Rebate Application, Page 22 of 27, Figure 13 Average Dollar Rebate by Major Class

Questions:

- a) Was any analysis performed on the variability between territories and/or insurance use classes with regard to the amount of the expected claims incurred savings?
- b) In order to be consistent with the spirit of the capital release process in the CMP, how would the rebate proposal need to be changed?
- c) Has the Corporation considered the potential advantages and disadvantages of designing the rebate based on the greater of the 2019/20 earned premium and the March 15, 2020 in force premium for each customer versus the current proposal?

detailsOfComplaint: PUB, please allow MPI to return a portion of our insurance. Due to covid 19, most Manitobans have barely moved their vehicles. Personally, my car has moved 4 times since March 17th to attend my local grocery store. We are not our provinces cash cow and we need our money back now more than ever.

Manitoba Public Insurance Special Rebate Application

CAC Manitoba Recommendations and Key Statutory Provisions

Recommendations

- 1. The PUB should find that circumstances have changed substantially, pursuant to subsection of 26(3) of the *Crown Corporations Governance and Accountability Act,* including:
 - The COVID-19 pandemic, resulting in social and economic hardship for many Manitobans; and
 - Lower collisions and claims costs experience for MPI, as a result of the COVID-19 pandemic.
- 2. In light of the substantially changed circumstances, the PUB should find that it is just and reasonable to review and vary PUB Orders 159/18 and 176/19 and suspend the application of the Capital Management Plan for fiscal 2020/21 for purposes of issuing to ratepayers a percentage of their annualized premiums in respect of universal compulsory automobile insurance policies in force and earning premium on March 15, 2020, through a special rebate in an amount equal to the approximate sum of \$58 million, by May 31, 2020 or as soon thereafter as is reasonably practicable.
- 3. Relying on authority under s 26(3) of the *Crown Corporations Governance and Accountability Act* to respond to substantially changed circumstances and section 44 of the *Public Utilities Board Act* to grant such further or other relief in addition to or in substitution for that applied for, the PUB should:
 - Direct MPI to provide monthly filings for the next four months following the rebate period regarding the impacts from the COVID-19 pandemic on MPI (i.e. May 16-June 15, 2020, June 16-July 15, 2020, July 16-August 15, 2020 and August 16-September 15, 2020); and
 - Reserve the authority to provide further emergency rate relief as is just and reasonable for the 2020/21 year, including options such as a further rebate, a credit to customer account or other relief.

Key Statutory Provisions

The Crown Corporations Governance and Accountability Act, C.C.S.M. c. C336

Changed circumstances

26(3)

Where The Public Utilities Board is satisfied that the circumstances of a corporation have changed substantially, The Public Utilities Board may, of its own motion or on the application of the corporation or an interested person, review an order made pursuant to this section and modify the order in any manner that The Public Utilities Board considers reasonable and justified in the circumstances.

The Public Utilities Board Act, C.C.S.M. c. P280

Power to order partial or other relief

44(1)

Upon any application to it, the board may make an order granting the whole or part only of the application or may grant such further or other relief in addition to or in substitution for that applied for, as fully and in all respects as if the application had been for such partial, further or other relief.

Review of orders

44(2)

The board may require a re-hearing of an application before making any decision thereon.

Varying order

44(3)

The board may review, rescind, change, alter, or vary any decision or order made by it.

Past Interveners of Record (2019 and 2020 GRAs - per attached list)

Re: MPI 2021 Special Rate Application

The Board acknowledges receipt of the 2021 Special Rebate Application filed by Manitoba Public Insurance (the Application) on Monday, April 27, 2020. An electronic copy of the Application has been posted to the Board's website.

Procedure for Application

The Board recognizes the unique and urgent circumstances that have given rise to the Application and finds that the Application should proceed expeditiously.

In anticipation of the filing, by email on Friday, April 24, 2020, Board counsel provided MPI and Interveners of Record for the 2019 and 2020 GRAs with the Board's preliminary direction on procedure. Board counsel invited MPI and Interveners of Record to provide comments on the procedure, by noon on Monday, April 27, 2020.

The Board received written comments from MPI and Interveners of Record Consumers' Association of Canada (Manitoba) Inc., Coalition of Manitoba Motorcycle Groups, Bike Winnipeg, Canadian Automobile Association Manitoba, and Insurance Brokers Association of Manitoba. No Interveners of Record objected to the Board's proposed process. MPI advised that it was agreeable to the process and offered some supplemental recommendations.

The Board has considered the comments of MPI and the Interveners of Record. In accordance with its Rules of Practice and Procedure 3(2) and 4(1), the Board hereby

330, avenue Portage, pièce 400 Winnipeg (Manitoba) Canada R3C 0C4 **Tél.** 945-2638 / 1-866-854-3698 **Téléc.** 945-2643 **Courriel :** <u>publicutilities@gov.mb.ca</u> **Site Web:** www.pubmanitoba.ca

VIA EMAIL

issues the following direction for the procedure of the Application, and the Application timetable:

- 1. The Board will receive written comments only from members of the public on the Application, which comments may be posted on the Board's website. The Board will accept comments from members of the public until 4:00 p.m., Wednesday, April 29, 2020.
- 2. Wednesday, April 29, 2020, 1:00 p.m.: Interveners of Record and Board counsel to advise as to whether they require a question and answer session on the Application, and if so, provide the Board and MPI with an outline of the general topics of questioning, and/or pre-asks for any questions that would otherwise be asked by way of undertaking.
- 3. Wednesday, April 29, 2020 1:00 p.m.: MPI and Interveners of Record to advise whether they require oral submissions on the Application.
- 4. (If required) Thursday, April 30, 9:00 a.m. to 12:00 p.m. question and answer session with MPI, Interveners of Record, Board and Board counsel only.
- 5. (If required) Friday, May 1, a.m. 9:00 a.m. to 12:00 p.m.: oral submissions of MPI and Interveners of Record.

All materials are to be filed electronically with the Board and will be posted on the Board's website.

The Question and answer session and oral submissions will be transcribed. Those wishing to participate in the question and answer session and oral submissions will have the opportunity to do so via the PUB live streaming technology. There will also be limited in-person participation in the Board's hearing room, which will be organized in compliance with applicable heath orders and social distancing guidelines. Board staff, Board counsel, and Panel members who wish to attend in person will be present in the hearing room. Up to two MPI representatives may appear in person. Counsel for Interveners of Record seeking the opportunity to appear in person should contact the Board, as such requests will only be accommodated if doing so complies with applicable public health orders and social distancing guidelines.

Due to the current public health emergency, participation in the question and answer session and oral submissions will be limited to MPI, the Board and Board counsel, and Interveners of Record. Members of the public are encouraged to watch the proceedings via the PUB live stream.

Question and Answer Session (if required) - April 30, 2020 at 9:00 a.m.

The question and answer session will provide the Board panel, Board counsel and Interveners of Record an opportunity for clarification and explanation of the Application, as needed. The Board will not require that MPI provide direct evidence at the outset of the session. As set out above, Interveners of Record are to advise the Board and Board counsel **no later than 1:00 p.m. on Wednesday, April 29, 2020** as to whether they require a question and answer session on the Application. Should the question and answer session be required, Board counsel will provide direction on the order of questioning by counsel.

Other Matters

Should any party have additional matters to be addressed at this time, please contact the Board. Thank you for your anticipated cooperation.

Yours truly,

Darren Christle, PhD, CCLP, P.Log., MCIT Secretary/ Executive Director

Table of Contents

| 1. | BACKGROUND | . 3 |
|----|-------------------------------|-----|
| 2. | BOARD FINDINGS | . 4 |
| 3. | IT IS THEREFORE ORDERED THAT: | . 5 |

1. BACKGROUND

On March 20, 2020, the Government of Manitoba declared a province-wide state of emergency pursuant to *The Emergency Measures Act*, C.C.S.M. c. E80 as a result of the COVID-19 pandemic.

On April 27, 2020, Manitoba Public Insurance (MPI or the Corporation) filed the 2021 Special Rebate Application (the Application), pursuant to section 44 of *The Public Utilities Board Act*, C.C.S.M. c. P280 and Rule 36 of the Board's Rules of Practice and Procedure, for:

- An Order dispensing with the requirement under Rule 36(3) that an application for review and variance be made within 30 days of the order or decision;
- b. A review and variation of the directives contained in Orders No. 159/18 and No. 176/19, to the extent that they do not require the issuance of rebates; and
- c. A directive that MPI issue to ratepayers a percentage of their annualized premiums in respect of universal compulsory automobile insurance policies in force and earning premium on March 15, 2020, through a special rebate in an amount equal to the approximate sum of \$58 million, by May 31, 2020 or as soon thereafter as is reasonably practicable.

MPI argued that the COVID-19 pandemic presents a pressing and unique situation that it could not have reasonably anticipated within 30 days of Orders No. 159/18 and No. 176/19, and that as a result, its financial position significantly improved at a time when the financial position of many of its ratepayers may have substantially deteriorated.

The Board issued a directive to MPI and Interveners of Record on April 27, 2020, for the hearing procedure for the Application.

The Board held a public hearing of the Application on April 30 and May 1, 2020. Due to the COVID-19 public health emergency, in-person appearance in the Board's hearing room was limited to ten people, with the remainder of participants attending remotely via teleconference and videoconference technology.

2. BOARD FINDINGS

The Board finds that, given the provincial state of emergency resulting from the COVID-19 pandemic, it is just and reasonable to dispense with the requirement that an application for review and variance be made within 30 days of an order. The Board also finds that MPI has demonstrated a substantial change in its circumstances contemplated by s. 26(3) of *The Crown Corporations Governance and Accountability Act*, C.C.S.M. c. C336 justifying a review and variation of Order 159/18 and 176/19 to allow rebates to be issued.

The Board finds that MPI's Capital Management Plan provides for rate decreases over a three-year period applicable to all classes in circumstances where the Minimum Capital Test ratio exceeds 100% for Basic insurance. The Application and the evidence at the hearing was that the proposed rebate would accelerate the return of excess capital to policyholders in the form of a one-time payment instead of assessing lower rates in the future. Therefore, the Board finds that the exclusion of the Motorcycle class from the applied-for rebate is not just and reasonable.

The Board issues this Order on an expedited basis given the current state of emergency, as requested by MPI and supported by Interveners of Record. The Board will provide detailed reasons in due course.

3. IT IS THEREFORE ORDERED THAT:

- 1. Board Orders No. 159/18 and No. 176/19 are hereby varied to the extent that they do not require the issuance of rebates.
- MPI shall issue to ratepayers a uniform percentage of their annualized premiums in respect of universal compulsory automobile insurance policies in force on March 15, 2020, for the Private Passenger, Public, Commercial and Motorcycle classes, through a special rebate in an amount equal to the approximate sum of \$58 million, by May 31, 2020, or as soon thereafter as is reasonably practicable.
- 3. MPI shall file with the Board, as soon as reasonably practicable following such information being available to MPI, a comparison of monthly claims costs versus budget for universal compulsory automobile insurance for the period commencing March 1, 2020, and continuing thereafter until September 30, 2020.

Board decisions may be appealed in accordance with the provisions of Section 58 of *The Public Utilities Board Act*, or reviewed in accordance with Section 36 of the Board's Rules of Practice and Procedure. The Board's Rules may be viewed on the Board's website at <u>www.pubmanitoba.ca</u>.

1.0 EXECUTIVE SUMMARY

The Board hereby provides its reasons for Order 67/20. In that Order, the Board directed MPI to issue to ratepayers a uniform percentage of their annualized premiums in respect of universal compulsory automobile insurance policies in force on March 15, 2020, for the Private Passenger, Public, Commercial and Motorcycle classes, through a special rebate in an amount equal to the approximate sum of \$58 million by May 31, 2020, or as soon thereafter as reasonably practicable.

The actual amount of the rebate paid to an individual policyholder will vary based on the amount of premium paid by the policyholder.

The Board received the Application from MPI for the rebate on April 27, 2020, and issued Order 67/20 on May 1, 2020, following an expedited hearing process given the provincial state of emergency resulting from the COVID-19 pandemic. In Order 67/20, the Board stated that it would provide its reasons to follow.

The Board found that MPI had demonstrated a substantial change in its circumstances, justifying a review and variation of its prior Orders 159/18 and 176/19, to allow rebates to be issued.

Given the urgency of the Application, while the Board reviewed and considered all of the financial information filed by MPI, its review was not as in-depth as typically conducted in a General Rate Application (GRA). There are areas in which the Board intends to do further testing to evaluate MPI's financial position in the 2021 GRA. The Board also issued a directive to MPI in Order 67/20 to file with the Board, as soon as reasonably practicable following such information being available to MPI, a comparison of monthly claims costs versus budget for universal compulsory automobile insurance for the period commencing March 1, 2020, and continuing thereafter until September 30, 2020. The Board will

thereby continue to monitor the Corporation's financial performance during this period of uncertainty.

In its Application, MPI sought to exclude the Motorcycle class from the rebate. The Board found this was not just and reasonable. The Corporation's rationale for the rebate was, in part, that it was an acceleration of the capital release provisions of its Capital Management Plan (CMP). In the absence of the rebate, however, if MPI had followed the CMP, the reduction in rates would apply across all Major Use classes.

The Board also found that the assumptions made by MPI for the purposes of the Application were reasonable – in particular, it is reasonable to assume that MPI will experience the same or a similar magnitude of claims costs savings for April 16, 2020 to May 15, 2020 as it did for the previous 30 day period. The Corporation's assumption that claims costs will revert to pre-COVID-19 levels following May 15, 2020 is not likely to be borne out; however, given the uncertainty at the present time, the Board found that the degree of conservatism built into MPI's forecast beyond May 15, 2020 is reasonable.

In its April 27, 2020 Application, MPI proposed to apply excess Basic reserves in a manner not permitted by the CMP. The Board accepted that proposal for the purposes of this Application only, based on the exceptional circumstances. While the Board does not have the jurisdiction to direct MPI as to how to apply its excess Extension reserves, a central element of the CMP approved by the Board in Order 176/19 was a commitment from MPI to transfer any Extension reserves in excess of an amount equivalent to 200% MCT to Basic. MPI did not do so in this case, and instead opted to rebate the Extension excess directly to ratepayers. The Board expects that the balance held by the Corporation in its Extension reserves over 200% MCT after the rebate of \$52 million will be transferred to Basic in the first quarter of 2020/21, and that thereafter MPI will continue to comply with the CMP in terms of transfers from Extension. The Board made an exception for this Application only and expects MPI to comply with the CMP going forward.

2.0 BACKGROUND

On March 20, 2020, the Government of Manitoba declared a province-wide state of emergency pursuant to *The Emergency Measures Act*, C.C.S.M. c. E80 as a result of the COVID-19 pandemic.

On April 27, 2020, Manitoba Public Insurance (MPI or the Corporation) filed the 2021 Special Rebate Application (the Application), pursuant to section 44 of *The Public Utilities Board Act*, C.C.S.M. c. P280 (the CCGAA) and Rule 36 of the Board's Rules of Practice and Procedure, for:

- a. An Order dispensing with the requirement under Rule 36(3) that an application for review and variance be made within 30 days of the order or decision;
- b. A review and variance of the directives contained in Orders No. 159/18 and No. 176/19, to the extent that they do not require the issuance of rebates; and
- c. A directive that MPI issue to ratepayers a percentage of their annualized premiums in respect of universal compulsory automobile insurance policies in force and earning premium on March 15, 2020, through a special rebate in an amount equal to the approximate sum of \$58 million, by May 31, 2020 or as soon thereafter as is reasonably practicable.

MPI argued that the COVID-19 pandemic presented a pressing and unique situation that it could not have reasonably anticipated within 30 days of Orders No. 159/18 and No. 176/19, and that as a result, its financial position significantly improved at a time when the financial position of many of its ratepayers might have substantially deteriorated.

The Board issued directions on procedure to MPI Interveners of Record from the 2019 and 2020 GRAs, by letter dated April 27, 2020. The procedure directed by the Board included one round of Pre-Ask questions, to be submitted in writing to MPI by Wednesday,

April 29, 2020, one half-day of a question and answer session on April 30, 2020, and one half-day of closing submissions from MPI and Interveners on May 1, 2020. Members of the public were invited to provide their views on the Application by posting comments on the Board's website.

Following the hearing, the Board issued Order 67/20 on an expedited basis, as requested by MPI and supported by Interveners of Record.

In Order 67/20 the Board found that, given the provincial state of emergency resulting from the COVID-19 pandemic, it was just and reasonable to dispense with the requirement that an application for review and variance be made within 30 days of an order. The Board found that MPI had demonstrated a substantial change in its circumstances contemplated by s. 26(3) of the CCGAA justifying a review and variation of Order 159/18 and 176/19 to allow rebates to be issued.

The Board also found that MPI's Capital Management Plan provided for rate decreases over a three-year period applicable to all classes in circumstances where the Minimum Capital Test (MCT) ratio exceeds 100% for Basic insurance. It was clear from both the Application and the evidence at the hearing that the proposed rebate would accelerate the return of excess capital to policyholders in the form of a one-time payment, instead of assessing lower rates in the future. Therefore, the Board found that the exclusion of the Motorcycle class from the applied-for rebate was not just and reasonable. The Board ordered that:

- 1. Board Orders No. 159/18 and No. 176/19 be varied to the extent that they did not require the issuance of rebates.
- MPI issue to ratepayers a uniform percentage of their annualized premiums in respect of universal compulsory automobile insurance policies in force on March 15, 2020, for the Private Passenger, Public, Commercial and Motorcycle classes,

through a special rebate in an amount equal to the approximate sum of \$58 million, by May 31, 2020, or as soon thereafter as reasonably practicable.

3. MPI file with the Board, as soon as reasonably practicable following such information being available to MPI, a comparison of monthly claims costs versus budget for universal compulsory automobile insurance for the period commencing March 1, 2020, and continuing thereafter until September 30, 2020.

In Order 67/20 the Board stated that it would provide detailed reasons for its decision in due course. The Board's reasons for decision are set out below.

3.0 APPLICATION

The Board's jurisdiction applies to rate-setting for MPI's universal compulsory automobile (Basic) insurance line of business, and not to MPI's optional lines of business, namely, Extension and Special Risk Extension (SRE).

MPI stated that the Application resulted from the announcement on April 23, 2020 by the Minister of Crown Services that MPI provide economic relief to its customers during the COVID-19 pandemic. The total amount proposed to be rebated was \$110 million, comprised of \$52 million from Extension (over which the Board does not have jurisdiction) and \$58 million from Basic, the latter being the subject of the Application.

MPI sought a directive from the Board that it issue to ratepayers a percentage of their annualized premiums for Basic insurance policies in force and earning premium on March 15, 2020, through a special rebate in an amount equal to the approximate sum of \$58 million. The proposed \$58 million would be a capital release of excess funds being held in the Basic Rate Stabilization Reserve (RSR).

3.1 MPI Financial Position

MPI reported that its financial performance in 2019 and in the months leading up to the COVID-19 pandemic was favourable. This was due to lower than anticipated claims experience, as well as what MPI described as prudent management of its investments and operating expenses. As a result, Basic's year-to-date net income to the end of the third quarter of fiscal year 2019/20 was \$121.1 million. This exceeded the results for the prior year period by \$78.9 million.

MPI also reported that due to positive financial results in the 2018/19 and 2019/20 fiscal years, the capital position of Basic grew at a rate faster than MPI had anticipated. Accordingly, MPI was in a better position to withstand the uncertainty accompanying the COVID-19 pandemic than it would have been otherwise.

3.1.1 Basic Revenues

For 2021/22 and thereafter, assuming a 0% rate change, MPI projected its 2019/20 Basic Total Earned Revenues at \$1.116 billion:

| Fiscal Year | 2019/20 | 2020/21 | 2021/22 | 2022/23 | 2023/24 |
|---------------------|-----------|-----------|-----------|-----------|-----------|
| (\$000) | | | | | |
| Current Forecast | 1,116,063 | 1,164,380 | 1,201,342 | 1,243,667 | 1,288,164 |
| Compliance Forecast | 1,115,126 | 1,169,091 | 1,213,206 | 1,261,832 | 1,312,606 |
| Change | 937 | (4,711) | (11,864) | (18,165) | (24,442) |

Forecast Total Earned Revenues – Basic

For 2020/21 and thereafter, the reduced revenue forecast reflects revised volume and upgrade factors, which MPI will include in the 20201 GRA. MPI did not forecast any reduction in revenues due to changes in driver behavior such as cancellations, lay-ups, or changes in insurance use resulting from the COVID-19 pandemic. MPI's evidence was that to date, there had been no meaningful change in cancellations from the prior year level. Further, if there was an increase in lay-up policies, MPI would likely make more profit on its Extension line of business, with a decrease in Basic premium revenue. The result would therefore be that MPI would transfer more funds from Extension to Basic at the end of the year.

3.1.2 Claims Forecasting

MPI reported that, relative to the forecasts in its Compliance Filing following the 2020 GRA (the Compliance Filing), the 2019/20 Claims Incurred forecast before provisions decreased by \$32.8 million. This was primarily due to a \$38.8 million improvement in the Personal Injury Protection Plan (PIPP) forecast.

Claims Incurred for 2020/21 were forecasted to be lower based on continuation of the favorable claims experience in 2019/20, along with a \$58 million reduction from the impact of the COVID-19 pandemic comprised of: (1) a \$29 million reduction in actual claims costs

from March 16, 2020 to April 15, 2020; (2) an assumed \$29 million reduction in claims costs from April 16, 2020 to May 15, 2020; and (3) an assumption of a reversion to normal frequency of forecasted claims after May 15, 2020.

The \$29 million in forecasted Basic claims savings for the period from March 16, 2020 to April 15, 2020, was broken down as follows:

| | Incurred Claim Coun | | |
|-----------------------|---------------------|--------|--|
| PIPP | -\$9,331,095 | -705 | |
| Basic Collision | -\$17,657,263 | -5,038 | |
| Basic Property Damage | -\$2,083,620 | -2,766 | |
| Basic Total | -\$29,071,978 | -8,510 | |

Forecasted Basic Claims Savings – March 16, 2020 to April 15, 2020

MPI assumed that savings of the same magnitude would continue until May 15, 2020, given that the Government of Manitoba had extended the period for the state of emergency to May 18, 2020.

MPI monitors Collision claim counts monthly against budget. It does not maintain a monthly budget for Property Damage and Bodily Injury claims costs. The Property Damage and Bodily Injury claims occur because of an associated Collision claim. MPI advised that because Collision claims frequency was 63.5% under budget in the period from March 16, 2020 to April 15, 2020, it assumed both Property Damage and Bodily Injury claims counts would follow the same trend. To calculate the savings for the Application, MPI assumed a perfect correlation between Collision, Property Damage, and Bodily Injury claims in terms of frequency. MPI estimated the Property Damage and Bodily Injury claim amounts using this approach, owing to an expected lag in the reporting of these claims.

MPI advised that it would continue to monitor the ongoing effects of COVID-19 beyond May 15, 2020.

3.1.3 Investments

In Order 162/16, the Board directed MPI to conduct an Asset Liability Management (ALM) study. The ALM study was completed in November 2017. As a result of the recommendations in the ALM study, MPI separated its commingled portfolio into five unique portfolios: Basic Claims, Basic RSR, Employee Future Benefits (EFB), Extension, and Special Risk Extension (SRE).

The Basic Claims portfolio, which was fully implemented on March 1, 2019, is comprised exclusively of fixed income assets, which are dollar duration matched to the associated liabilities. The ALM strategy ensures that investment losses in the Basic Claims portfolio are offset by the corresponding reduction of the Basic Claims liabilities, since both are interest rate sensitive and have a similar duration and size.

MPI reported that during the course of the COVID-19 pandemic, equities have experienced greater losses than bonds, and because the Basic Claims portfolio contains no growth assets, it experienced a better return than other MPI portfolios.

A snapshot of the investment portfolio values at March 31, 2020 is as follows:

| Fiscal Year | January 31, 2020 | February 29, 2020 | March 31, 2020 | Monthly Change Feb-Mar | Capital Return |
|-------------|---------------------|----------------------|-------------------|------------------------------|-------------------|
| (\$000) | | | | | |
| Basic | 2,125.0 | 2,129.6 | 2,127.0 | (2.6) | -0.1% |
| Extension | 154.1 | 151.1 | 157.4 | 6.2 | 0.2% * |
| SRE | 207.7 | 203.7 | 196.8 | (7.0) | -3.4% |
| RSR | 391.7 | 383.9 | 370.3 | (13.6) | -3.5% |
| EFB | 498.2 | 489.4 | 476.9 | (12.4) | -2.5% |
| Total | 3,376.7 | 3,357.7 | 3,328.4 | (29.3) | -0.9% |

Investment Fund Preliminary Valuations

* \$6 million of operational cash was deposited into global equities in late March

MPI reported that since the end of December 2019, the equity portfolio is down approximately 14% but other growth assets, namely, real estate and infrastructure, are up 1.6% and 1.3% respectively. The removal of the growth asset classes from the investments backing the Basic claims liabilities had positioned MPI well for the unforeseen pandemic. MPI noted that the Basic claims portfolio was enhanced by the addition of a 20% allocation to corporate bonds, which were yielding 3.80% compared to just 2.30% for government bonds.

MPI also reported that it had significant cash and premium revenues, which could be used to fund the requested rebate. MPI did not expect that it would have to liquidate any existing investment holdings to meet the \$110 million total rebate payment. MPI had decided to maintain higher levels of cash than it would normally, as a contingency for the unknown impacts of COVID-19, and held back \$85 million in cash that would otherwise have been transferred to its Investment Fund. At the time of the Application, MPI had operational cash on hand of approximately \$165 million, of which it identified

approximately \$80 million that could be used to fund the total rebate of \$110 million. The remaining \$30 million would be funded from revenues.

MPI's investments experienced significant volatility in March 2020, with investment income (excluding interest rate impacts) falling \$24.6 million relative to the forecast in the Compliance Filing. The primary cause was a decline in the equity portfolio of 9.1% in March 2020, and 14.5% overall since December 4, 2019, as a result of which MPI recognized a \$33.3 million impairment of equities at March 31, 2020.

MPI's 2019/20 net income forecast was estimated at \$110.8 million, compared to the \$108.4 million in the Compliance Filing. For 2020/21, MPI projected net income of \$95.2 million, of which \$58 million was anticipated from the claims costs savings as outlined above.

MPI's forecast assumes no rate changes for 2021/22 and thereafter. MPI advised that it will revise its forecast to reflect break-even rates with the applied-for rate indication in the 2021 GRA, bringing net income forecasts closer to zero.

3.1.4 Total Equity

MPI forecasted Basic Total Equity of \$395.9 million and an MCT ratio of 97.7% in 2019/20, compared to the forecast of \$390.1 million and a 96.4% MCT indicated in the Compliance Filing. The Compliance Filing forecast assumed a transfer of \$75.1 million in excess capital from Extension at March 31, 2020, as contemplated by MPI's Capital Management Plan.

The current Basic Total Equity forecast for 2019/20 was achieved without transferring the excess Extension capital at the end of 2019/10. Basic has a forecasted 97.7% MCT ratio due to a material improvement in Accumulated Other Comprehensive Income (AOCI), discussed below. MPI reported that, instead of applying the transfer of excess Extension

capital to Basic, it received government approval to rebate \$52 million from Extension directly to ratepayers.

MPI's Basic Total Equity for 2020/21 is forecasted to be \$531.7 million (an MCT ratio of 130.1%). This resulted almost entirely from higher projected Basic net income of approximately \$46 million compared to the Compliance Filing (which is unrelated to the claims cost savings from the COVID-19 pandemic), and an expected transfer from Extension to Basic in the amount of \$68 million. MPI anticipates that it will use the capital release process in the CMP to distribute excess funds to ratepayers, reducing the Basic MCT to 100% over a period of three years.

The Total Equity positions for Basic and Extension as at March 31, 2020 and May 31, 2020 (before and after the proposed rebates), were projected by MPI as follows:

Projected Total Equity & MCT - Before & After Rebate

| | BASIC | | EXTENSION | |
|--|-------------|-----------|---------------|-----------|
| (C\$ 000s, rounding may affect totals) | March, 2020 | May, 2020 | March, 2020 N | lay, 2020 |
| Total Equity | | | | |
| Retained Earnings | | | | |
| Beginning Balance | 319,914 | 430,732 | 104,984 | 145,741 |
| Net Income (Loss) from annual operations | 110,818 | 108,321 | 40,757 | 4,726 |
| Surplus Distribution/Rebate | - | (58,000) | - | (52,000) |
| Transfer (to) / from Non-Basic Retained Earnings | - | - | - | - |
| Total Retained Earnings | 430,732 | 481,053 | 145,741 | 98,467 |
| Accumulated Other Comprehensive Income (AOCI |) | | | |
| Beginning Balance | (48,956) | (34,802) | (3,966) | (2,996) |
| Other Comprehensive Income for the Year | 14,154 | - | 970 | - |
| Total Accumulated Other Comprehensive Income | (34,802) | (34,802) | (2,996) | (2,996) |
| Total Equity Balance | 395,930 | 446,251 | 142,746 | 95,471 |
| MINIMUM CAPITAL TEST (C\$ 000s) | | | | |
| Total Equity Balance | 395,930 | 446,251 | 142,746 | 95,471 |
| Less: Assets Requiring 100% Capital | 35,489 | 35,489 | 3,024 | 3,024 |
| Capital Available | 360,441 | 410,762 | 139,722 | 92,447 |
| Minimum Capital Required (100% MCT) | 368,892 | 371,408 | 37,665 | 35,301 |
| MCT Ratio % (Line 17) / (Line 18) | 97.7% | 110.6% | 371.0% | 261.9% |

In the Compliance Filing, MPI projected AOCI for Basic of (\$103.2 million) at the end of February 2020. As seen above, in the Application MPI was projecting AOCI to be (\$34.8 million) at March 31, 2020. MPI explained that this \$68.4 million improvement was primarily attributable to the impact of interest rates on the valuation of the Employee Future Benefits (EFB) liability. In the Compliance Filing, MPI used a projected discount rate of 2.86%. The Application used a discount rate of 3.88%. If interest rates used to

value the EFB liability were to revert to prior levels, the impact would be a \$100 million reduction in equity, of which 40% is hedged, for a net impact of approximately \$60 million.

3.2 Capital Management Plan

In Order 176/19, the Board approved MPI's Capital Management Plan (CMP), which is comprised of:

- A single Basic target capital level based on a 100% MCT ratio;
- A commitment to transfer excess Retained Earnings from the Extension line to Basic, where excess is determined relative to the single Extension target capital level of a 200% MCT ratio;
- A phase-in approach to move towards the Basic target capital level over a number of years through capital build or capital release provisions;
- Determination of the need for any capital build or capital release provisions in each GRA after consideration of the Basic rate level change indication and the expected capital transfers from Extension;
- Use of judgmentally selected five-year and three-year phase-in periods for capital build and capital release provisions, respectively;
- Imposition of a judgmentally selected 5% cap on the combination of the overall Basic rate indication and any capital build provision; and
- Imposition of a judgmentally selected 5% cap on any capital release provision.

MPI did not transfer any excess capital from Extension to Basic in 2019/20. Given the volatility in March 2020 caused by the COVID-19 pandemic, MPI decided to wait until after year end to execute the transfer, and ultimately, decided instead to provide an

immediate rebate of \$52 million in May 2020 to policyholders from the excess capital. MPI characterized the requested rebate of \$58 million from Basic as an acceleration of, and tantamount to, a capital release through the CMP through an immediate cash payment rather than a future rate reduction.

After the rebate, MPI forecasts Extension to have a 261.9% MCT ratio at May, 2020. At the end of 2020/21, Extension is forecasted to have \$68.6 million in excess capital above the 200% MCT target, which MPI will transfer to Basic. In 2020/21 and thereafter, MPI forecasts assume a transfer of all excess Extension capital to Basic such that the Extension MCT ratio remains at 200% MCT.

As the CMP does not contemplate rebates, but rather rate decreases when the Basic RSR exceeds 100% MCT, MPI stated that there was no requirement under the CMP to first transfer the excess Extension monies to Basic before they could be released in the form of a rebate.

3.3 Rationale for Rebate

MPI argued that there is evidence that Private Passenger customers overpaid for their insurance in the mid-March to mid-April 2020 timeframe, and would likely be overpaying in the mid-April to mid-May time period. Returning \$58 million to ratepayers would not materially impair the overall health of the Corporation, given its dominance in the Basic and Extension marketplaces and its high to excessive reserves.

Apart from this Application, MPI stated that the CMP will continue to work as presented in the 2020 GRA and approved by the Board in 176/19, and that all major vehicle classes would enjoy the benefit of a rate decrease. MPI argued that the \$52 million from Extension and the \$58 million from Basic would still flow to Basic ratepayers in accordance with the intent of the CMP, the only difference being that MPI would be doing so in a more direct and immediate manner than envisioned under the CMP. What was requested, according

to MPI, was simply a "pause" in the transfer component from Extension to Basic, in order to respond to the COVID-19 pandemic.

3.4 Motorcycle Class

MPI requested that the rebate be applied only to policies "in force and earning premium" as at March 15, 2020. This would result in the exclusion of the Motorcycle class from the rebate. MPI assumed that motorcycles did not significantly contribute to the lower claims frequency between March 15, 2020 and May 15, 2020

For the purposes of calculating premiums, MPI defines the motorcycle riding season in Manitoba as running from May 1 to September 30 of each year. Accordingly, MPI's evidence was that motorcycle premiums are "fully earned" during the May 1 to September 30 riding season, meaning that premiums for the Motorcycle class would not be earned during the period to which the rebate applies.

According to MPI, because the proposed rebate was based only on actual or assumed claims reductions from the COVID-19 pandemic, if the pandemic had not occurred, MPI's forecast would not be affected by the \$58 million and no policyholder would be entitled to a rebate.

In addition, according to MPI, the vast majority of motorcycles are insured as pleasure use, so MPI would not anticipate significant or at least equivalent reductions in claims frequency from motorcycles compared to other vehicles. Further, motorcyclists may cancel their insurance before the riding season. Returning funds to a class of vehicle owners that had not paid premiums, according to MPI, would not be just and would represent a windfall for the Motorcycle class.

4.0 INTERVENER POSITIONS

4.1 Consumers' Association of Canada (Manitoba) Inc. (CAC)

CAC was supportive of returning excess reserves to ratepayers on an urgent basis and stated that what was proposed was not imprudent or unreasonable.

With respect to the forecasting underlying the Application, CAC identified what it characterized as significant uncertainty. There was uncertainty in terms of the impact of COVID-19 on collisions and Claims Incurred costs, particularly after May 15, 2020, as well as on revenues and investment income. CAC noted that MPI made some simplifying assumptions in forecasting Claims Incurred: the assumption of a perfect correlation in the relationship between Physical Damage and Bodily Injury was oversimplified, but given the state of emergency, was understandable and reasonable.

With respect to the mechanism for the rebate, CAC argued that what MPI proposed was a fundamental change from the CMP. This was a clear implicit rejection of the CMP, for the specific purposes of the COVID-19 emergency. CAC recommended that the Board suspend the application of the CMP for the purposes of issuing the rebate. CAC also recommended that the Board direct MPI to provide it with monthly filings for the four months following the rebate period, and reserve the authority to provide further emergency rate relief as is just and reasonable in the future.

CAC did not take a position as to whether the Motorcycle class should be included in the proposed rebate, but noted that 90% of the Motorcycle class is registered as pleasure class, which means their risk and use pattern may differ materially from the Private Passenger class.

4.2 Coalition of Manitoba Motorcycle Groups (CMMG)

CMMG was supportive of the proposed rebate, but argued that it should include a rebate to the Motorcycle class. The Motorcycle class contributed to the claims cost savings, and the Corporations's internal accounting methodology, which determines when premiums are deemed as to be earned, would not be a sufficient reason to prohibit a Major Use class from eligibility for the proposed rebate.

Further, according to CMMG, MPI's assumption that the Motorcycle class would not contribute significantly to the lower claims frequency between March 15 and May 15 was not based in fact. Given the weather conditions and road conditions at the relevant time, the opportunity for motorcyclists to begin riding arose well before May 1, 2020.

MPI acknowledged that it provides insurance coverage to the Motorcycle class with active basic policies year-round. It provides a service and covers claims outside of its defined riding season. There was no evidence in this Application that motorcyclists are cancelling policies and in fact, reported policy cancellations had decreased from the previous year.

Had the process in the CMP been followed, there would be a reduction of premiums across all Major Use classes. Therefore, the Motorcycle class would have benefitted from a reduction in premiums.

CMMG's position was that the rebate should be equally and fairly distributed across all Major Use classes, thereby including the Motorcycle class.

4.3 Insurance Brokers Association of Manitoba (IBAM)

Although the issues raised in the Application did not relate specifically to IBAM's constituency, IBAM nonetheless advised the Board that it was supportive of the rebate.

5.0 BOARD FINDINGS

As noted earlier in these reasons, the Board held a public hearing of the Application on April 30 and May 1, 2020. Due to the COVID-19 public health emergency, in-person appearance in the Board's hearing room was limited to ten people, with the remainder of participants attending remotely via teleconference and videoconference technology. The Board issued Order 67/20 on an expedited basis. The procedure employed by the Board for this Application was based on a need to proceed expeditiously and efficiently given the provincial state of emergency resulting from the COVID-19 pandemic, and in accordance with Rules 3(2) and 4(1) of the Board's Rules of Practice and Procedure (Rules), which provide that:

3.(2) In any proceeding, the Board may dispense with, vary or supplement any of the provisions of these Rules.

•••

4.(1) In any proceeding, the Board may issue directions on procedure which will govern the conduct of that proceeding and will prevail over any provision of these Rules that is inconsistent with those directions.

With respect to the relief sought in the Application, pursuant to Rules 36(1) and 40(2) thereof, the Board may on application or on its own initiative review, rescind, change, alter or vary any decision or Order it has made. The Board's jurisdiction in that regard flows from section 44(3) of *The Public Utilities Board Act*, C.C.S.M. c. P280 (the Act).

In accordance with Rule 36(4), upon receipt of an application for review and variance, the Board is to determine, with or without a hearing, in respect of an application for review, the preliminary question of whether the matter should be reviewed and whether there is reason to believe the order or decision should be rescinded, changed, altered or varied.

After determining the preliminary question under Rule 36(4), pursuant to Rule 36(5), the Board may:

- a) Dismiss the application for review if,
 - In the case where the applicant has alleged an error of law or jurisdiction or an error in fact, the Board is of the opinion that the applicant has not raised a substantial doubt as to the correctness of the Board's order or decision; or
 - ii. In the case where the applicant has alleged new facts not available at the time of the Board's hearing that resulted in the order or decision sought to be reviewed or a change of circumstances, the Board is of the opinion that the applicant has not raised a reasonable possibility that the new facts or change in circumstances as the case may be, could lead the Board to materially vary or rescind the Board's order or decision; or
- b) Grant the application; or
- c) Order that a hearing or proceeding be held.

Rule 36(3) requires that an application for review and variance be made within 30 days of the date of the order or decision. However, Rule 3(2) provides that in any proceeding, the Board may dispense with, vary or supplement any of the provisions of the Rules.

Given the provincial state of emergency resulting from the COVID-19 pandemic, it was just and reasonable for the Board to dispense with the requirement that an application for review and variance be made within 30 days of an order.

5.1 Substantial Change in Circumstances

The Board found that MPI demonstrated a substantial change in its circumstances contemplated by section 26(3) of the CCGAA justifying a review and variation of Orders 159/18 and 176/19 to allow rebates to be issued.

In particular, section 26(3) of the CCGAA provides as follows:

26(3) Where The Public Utilities Board is satisfied that the circumstances of a corporation have changed substantially, The Public Utilities Board may, of its own motion or on the application of the corporation or an interested person, review an order made pursuant to this section and modify the order in any manner that The Public Utilities Board considers reasonable and justified in the circumstances.

The Board's finding of a substantial change in circumstances was based on the significant changes in forecasted financial results from the Compliance Filing to the date of the Application, in particular:

- The reduction in actual claims costs from March 16, 2020 to April 15, 2020 in the amount of \$29 million; and
- The assumed additional savings in claims costs for the period from April 16, 2020 to May 15, 2020, in the amount of \$29 million.

5.2 Reasonableness of Rebate

The Board found that it was just and reasonable for MPI to issue a rebate in the amount of \$58 million in excess Basic capital given the unique circumstances; however, the Board varied the relief requested in the Application such that the rebate would apply to

ratepayers in respect of universal compulsory automobile insurance policies in force on March 15, 2020, for the Private Passenger, Public, Commercial and Motorcycle classes.

The actual amount of the rebate paid to an individual policyholder will vary based on the amount of premium paid by the policyholder.

Given the urgency of the Application, while the Board reviewed and considered all of the financial information filed by MPI, its review was not as in-depth as typically conducted in a GRA. There are areas in which the Board intends to do further testing to evaluate MPI's financial position in the 2021 GRA, including the \$68.4 million improvement in AOCI attributed to a change in valuation of the EFB liability.

The Board also found that the assumptions made by MPI for the purposes of the Application are reasonable – in particular, it is reasonable to assume that MPI will experience the same or a similar magnitude of claims costs savings for April 16, 2020 to as May 15, 2020 as it did for the previous 30 day period.

The Corporation's assumption that claims costs will revert to pre-COVID-19 levels following May 15, 2020 is not likely to be borne out; however, given the uncertainty at the present time, the Board finds that the degree of conservatism built in to MPI's forecast beyond May 15, 2020 is reasonable. Due to this uncertainty, in Order 67/20 the Board directed that MPI file with the Board, as soon as reasonably practicable following such information being available to MPI, a comparison of monthly claims costs versus budget for Basic insurance for the period commencing March 1, 2020, and continuing thereafter until September 30, 2020. With that information, the Board will continue to monitor the Corporation's financial performance during the COVID-19 pandemic.

5.3 Motorcycle Class

The Board found that it was not just and reasonable to exclude the Motorcycle class from the rebate. The Corporation's rationale for the rebate was, in part, that it was an acceleration of the capital release provisions of the CMP. In the absence of the rebate, however, if MPI had followed the CMP, the reduction in rates would apply across all Major Use classes.

Further, MPI's intent is to issue rebates from the Extension reserves to the Motorcycle class, which contradicts its rationale for excluding it from the Basic rebate. The Board accepted the position put forth by CMMG, that because motorcyclists have coverage outside the riding season as defined by MPI (and have paid premiums for that coverage), it was not just and reasonable to exclude them from the rebate. The fact that MPI, for accounting purposes, does not consider that premium to be "earned" until the riding season was not persuasive to the Board.

MPI estimated the administrative cost of issuing rebate cheques at \$0.97 million. Given that the costs of issuing cheques to Motorcycle class policyholders from Extension excess reserves was included within that \$0.97 million, there should not be a significant increase in administrative costs to MPI to extend the rebate for motorcyclists from the Basic excess RSR as well.

5.4 Capital Management Plan

By Order 67/20, the Board varied its previous Orders 159/18 and 176/19 to the extent that they did not allow for rebates. In this Application, the Board received a proposal from MPI for how to apply excess Basic reserves in a manner not permitted by the CMP. The Board accepted that proposal for the purposes of this Application only, based on the exceptional circumstances. While the Board does not have the jurisdiction to direct MPI as to how to apply its excess Extension reserves, a central element of the CMP approved

by the Board in Order 176/19 was a commitment from MPI to transfer any Extension reserves in excess of an amount equivalent to 200% MCT to Basic. MPI did not do so in this case, and instead opted to rebate the Extension excess directly to ratepayers. The Board expects that the balance held by the Corporation in its Extension reserves over 200% MCT after the rebate of \$52 million will be transferred to Basic in the first quarter of 2020/21, and that thereafter MPI will continue to comply with the CMP in terms of transfers from Extension. In that regard, the Board declines to suspend the operation of the CMP, as was recommended by CAC. Rather, the Board made an exception for this Application only and expects MPI to comply with the CMP going forward.

Board decisions may be appealed in accordance with the provisions of Section 58 of *The Public Utilities Board Act*, or reviewed in accordance with Section 36 of the Board's Rules of Practice and Procedure. The Board's Rules may be viewed on the Board's website at <u>www.pubmanitoba.ca</u>.

1.0 Introduction

By this Order, the Public Utilities Board (Board) approves Coalition of Manitoba Motorcycle Group's (CMMG) Application for a cost award of \$4,059.59.

The award relates to CMMG's intervention in the Manitoba Public Insurance (MPI) 2020 Special Rebate Application.

2.0 Application

On May 8, 2020, Coalition of Manitoba Motorcycle Group, filed with the Board an Application for an Award of Costs for its intervention at the Manitoba Public Insurance 2020 Special Rate Application.

Pursuant to Section 56 of *The Public Utilities Board Act*, the Board has jurisdiction to award costs of, and incidental to, any proceeding before the Board. For the purpose of this hearing, the Board adopted an "Intervener Costs Policy". The purpose of this Policy was to set out the Board's procedures for considering requests for Intervener costs and to provide guidance to Interveners on how to apply for funding of costs for participation in Board Proceedings.

Sections 3.1 and 3.2 of the Intervener Costs Policy describes Intervener eligibility for a cost award and the Board's principles in determining the amount of the cost award:

3.1 In any proceeding the Board may award costs to be paid to any Intervener who has:

 (a) made a significant contribution that is relevant to the proceeding and contributed to a better understanding, by all parties, of the issues before the Board;

- (b) participated in the hearing in a responsible manner and cooperated with other Interveners who have common objectives in the outcome of the proceedings in order to avoid a duplication of intervention;
- (c) represented interests beyond their sole business interest; and
- (d) a substantial interest in the outcome of the proceeding and represents the interests of a substantial number of ratepayers.

3.2 In determining whether the Intervener should receive the amount of costs sought in a costs application, the Board may consider whether the Intervener did one or more of the following:

- (a) made reasonable efforts to ensure that the intervener's evidence was not unduly repetitive of evidence presented by another intervener;
- (b) made reasonable efforts to cooperate with other interveners to reduce the duplication of evidence and questions or to combine the intervener's submission with that of similarly interested interveners; and
- (c) needed legal or technical assistance to take part in the proceeding;

On May 8, 2020, CMMG filed its Cost Application for its participation in Manitoba Public Insurance's 2020 Special Rebate Application. The fees and disbursements claimed in the Cost Application were set out as follows:

| | | Cost Application Total |
|-------------|---------------|------------------------|
| Legal Costs | (C. Meeks) | \$2860.00 |
| | (J. Jardine) | \$712.50 |
| | Disbursements | \$55.00 |
| | GST | \$181,41 |
| | PST | \$250.08 |
| | TOTAL COSTS | \$4,059.59 |
| | | |
| | | |

3.0 Manitoba Public Insurance's Comments

On May 12, 2020, Manitoba Public Insurance provided its comments regarding CMMG's Cost Application. MPI noted that the costs related to CMMG's counsel were acceptable.

4.0 Board Findings

The Board has reviewed the Cost Application by CMMG, as well as the comments provided by MPI. The Board finds that CMMG meets all of the requirements for a cost award. The Board further finds that the costs incurred by CMMG are reasonable and the Board is prepared to award an amount of \$4,059.59 for CMMG's intervention in the Board's review of Manitoba Public Insurance's 2020 Special Rate Application.

5.0 IT IS THEREFORE ORDERED THAT:

- 1. The Application of Coalition of Manitoba Motorcycle Groups for an award of costs BE AND IS HEREBY APPROVED in the total amount of \$4,059.59.
- 2. Manitoba Public Insurance to pay Oakes Jardine Kaneski Unruh LLP within 15 days of the date of this Order.

Board decisions may be appealed in accordance with the provisions of Section 58 of The

Public Utilities Board Act, or reviewed in accordance with Section 36 of the Board's Rules

of Practice and Procedure. The Board's Rules may be viewed on the Board's website at

www.pubmanitoba.ca.

| 5.0 | IT IS THEREFORE ORDERED THAT:6 |

1.0 Introduction

By this Order, the Public Utilities Board (Board) approves The Consumers Association of Canada's (CAC) Application for a cost award of \$11,599.50.

The award relates to CAC's intervention in the Special Rate Application of Manitoba Public Insurance (MPI).

2.0 Application

On June 18, 2020, The Consumers Association of Canada, filed with the Board an Application for an Award of Costs for its intervention at the Manitoba Public Insurance Special Rate Application.

Pursuant to Section 56 of *The Public Utilities Board Act*, the Board has jurisdiction to award costs of, and incidental to, any proceeding before the Board. For the purpose of this hearing, the Board adopted an interim Intervener Costs Policy. The purpose of this Policy was to set out the Board's procedures for considering requests for Intervener costs and to provide guidance to Interveners on how to apply for funding of costs for participation in Board Proceedings.

Sections 3.1 and 3.2 of the Intervener Costs Policy describes Intervener eligibility for a cost award and the Board's principles in determining the amount of the cost award:

3.1 In any proceeding the Board may award costs to be paid to any Intervener who has:

 (a) made a significant contribution that is relevant to the proceeding and contributed to a better understanding, by all parties, of the issues before the Board;

- (b) participated in the hearing in a responsible manner and cooperated with other Interveners who have common objectives in the outcome of the proceedings in order to avoid a duplication of intervention;
- (c) represented interests beyond their sole business interest; and
- (d) a substantial interest in the outcome of the proceeding and represents the interests of a substantial number of ratepayers.

3.2 In determining whether the Intervener should receive the amount of costs sought in a costs application, the Board may consider whether the Intervener did one or more of the following:

- (a) made reasonable efforts to ensure that the intervener's evidence was not unduly repetitive of evidence presented by another intervener;
- (b) made reasonable efforts to cooperate with other interveners to reduce the duplication of evidence and questions or to combine the intervener's submission with that of similarly interested interveners; and
- (c) needed legal or technical assistance to take part in the proceeding;

The expedited public hearing occurred between April 31, 2020 and May 1, 2020. Projected budgets were not requested of interveners, for this hearing.

On June 18, 2020, CAC filed its Cost Application for its participation in Manitoba Public Insurance's Special Rate Application. The Cost Application was supported by statements of accounts as summarized below:

| | | Cost Application Total |
|------------------|---------------|-------------------------------|
| Legal Costs | (B. Williams) | \$8,760.00 |
| | (K. Dilay) | \$0 |
| | | |
| Consultant Costs | (Intergroup) | \$2,340.00 |
| | (A. Sherry) | \$382.50 |
| | | |
| | GST | \$117.00 |
| | | |
| TOTAL COSTS | | \$11,599.50 |

CAC's Cost Application was supported by detailed invoices and a written submission describing CAC's participation in the Board's review of Manitoba Public Insurance's Special Rate Application

3.0 Manitoba Public Insurance's Comments

On November 30, 2020, Manitoba Public Insurance did provide its comments regarding CAC's legal costs. MPI noted that the costs related to CAC's consultant "were appropriate".

4.0 Board Findings

The Board has reviewed the Cost Application by CAC, as well as the comments provided by MPI. The Board finds that CAC meets all of the requirements for a cost award. The Board further finds that the costs incurred by CAC are reasonable and the Board is prepared to award an amount of \$11,599.50 for CAC's intervention in the Board's review of Manitoba Public Insurance's Special Rate Application.

5.0 IT IS THEREFORE ORDERED THAT:

- 1. The Application of Consumers Association of Canada (Manitoba) Inc. for an award of costs BE AND IS HEREBY APPROVED in the total amount of \$11,599.50
- 2. Manitoba Public Insurance to pay the Consumers Association of Canada (Manitoba) Inc. within 15 days of the date of this Order.

Board decisions may be appealed in accordance with the provisions of Section 58 of *The Public Utilities Board Act*, or reviewed in accordance with Section 36 of the Board's Rules of Practice and Procedure. The Board's Rules may be viewed on the Board's website at <u>www.pubmanitoba.ca</u>

This hearing will be conducted in accordance with the provisions of the Crown Corporation's Governance and Accountability Act, the Public Utilities Board Act, and the Board's Rules of Practice and Procedure. These Rules are available for review on the Board's website. Pursuant to the Board's Rules of Practice and Procedure, Section 3(2) and 4(1), on April 27th, 2020, the Board issued direction to MPI and to Interveners of record for the 2019 and 2020 General Rate Applications for the procedure of this rebate application. As part of this procedure, this morning, the Board is holding a question and answer session with MPI and Interveners of record. Tomorrow, Friday, May 1st, beginning at 9:00 a.m., MPI and Interveners of record will have the opportunity to make oral submissions on the application. The Board also invited members of the public to comment on the |

I'm Irene Hamilton, the Chair for the panel tublic Utilities Board. I now call this ba Public Insurance 2021 Special Rebate tion hearing to order. I am joined by Board obert Gabor in the hearing room, Board members ainsworth and Bob Vanderwater are participating treaming. Also with us today in the hearing room ten Schubert, our judicial hearing assistant, manage our electronic document system; Donna buse will act as our reporter. Transcripts of tring will be recorded by Digi-Tran and made e on our website. Darren Christle, secretary oard is in the office, so if needed, can be to join the hearing room. The Board recognizes the challenging que circumstances under which this hearing is eld, and thanks everyone for their efforts in g these proceedings to run smoothly. MPI has applied to the Public Utilities for a directive that MPI issued to ratepayers a | 1 1 1 1 1 1 1 1 1 1 1 1 1 2 2 2 2 2 2 2 | 2 \ 3 4 t 5 F 6 F 7 i 7 i 9 F 1 2 t 6 F 1 2 t 2 1 s 2 2 t 2 5 t 2 | application on the Board's website until 4:00 p.m. Wednesday, April 29th. The Public Utilities Board mandate is to set just and reasonable rates that are in the public interest. The public interest has been defined by the Manitoba Court of Appeal as balancing the impacts of rate increases on consumers with the fiscal health of the Utility. In order to set just and reasonable rates that are in the public interest, the Board will consider all of the evidence that is adduced on the record of this proceeding. Following tomorrow's oral submissions, the panel will will sequester itself and deliberate to make our final determination on the matter before us. In the end, we may accept, deny, or vary MPI's rebate application. In reaching our decision, we will be guided by the evidence, written and oral, and our determination of what is in the public interest. The Board takes its obligation and mandate of protecting the public interest very seriously. We are concerned not only with the short- term economic impact on MPI's operations of MPI's operations on both ratepayers and MPI itself, but also the fairness of that impact on MPI's long-term fiscal and operational well-being. |

We are conducting the hearing under challenging circumstances, and I would like to thank everyone for their patience and cooperation. Those are my opening remarks, Madam Chair. THE PANEL CHAIRPERSON: Thank you, Ms. McCandless. Mr. Scarfone? OPENING COMMENTS CONTINUED BY MPI: MR. STEVEN SCARFONE: Thank you, Madam Chair. I was going to say I just want to clarify or | it clear, I believe, that MPIC finds itself in a very strong financial position, and therefore finds itself in a position to offer some immediate financial relief to its ratepayers by returning premiums collected for accidents that did not occur during the last couple months. And that, of course, is due to the pandemic. This application, it's important to remember, Madam Chair, was put together in very short order for approval by the Board to expedite the return of excess capital to MPIC customers in a timely manner and in a time of financial need. But this is the important point to recall. Not all customers will be receiving the benefit of this rebate, if approved. The excess capital now being held in the RSR is largely the result of claims costs being well below forecast because people are working from home and they're driving less. Those people are those that register |
| application. In terms of the order of questioning this morning, counsel for CAC, Mr. Williams, will proceed first, followed by Ms. Meek, counsel for CMMG. I will proceed after counsel for CMMG has completed her questioning. Tomorrow morning's oral submissions are scheduled to begin at 9:00 a.m. and will be completed no later than noon. We are conducting the hearing under challenging circumstances, and I would like to thank everyone for their patience and cooperation. Those are my opening remarks, Madam Chair. THE PANEL CHAIRPERSON: Thank you, Ms. McCandless. Mr. Scarfone? OPENING COMMENTS CONTINUED BY MPI: MR. STEVEN SCARFONE: Thank you, Madam Chair. I was going to say I just want to clarify or correct, perhaps I think I may have indicated for | it clear, I believe, that MPIC finds itself in a very strong financial position, and therefore finds itself in a position to offer some immediate financial relief to its ratepayers by returning premiums collected for accidents that did not occur during the last couple months. And that, of course, is due to the pandemic. 26 1 claims incurred. Would that be fair, sir? 1 23. 2 MR. LUKE JOHNSTON: That's correct. 2 And Mr. Johnston, you see there on line DR. BYRON WILLIAMS: And sir, so to 3 23 and 24 a -- the statement that the -- the proposed 3 4 the extent that claims incurred moved down, you would 4 57 million rebate from Basic is according to MPI's 5 generally expect that claims expenses also tend to 5 chief actuary, a capital release of excess monies now 6 move down. Would that be fair? 6 being held in the RSR. 7 MR. LUKE JOHNSTON: In a general 7 Do you see that statement, sir? 8 sense, yes. As you can appreciate now, and I'm sure 8 MR. LUKE JOHNSTON: I do. 9 you've seen maybe some comments in the media, our 9 DR. BYRON WILLIAMS: And that's an 10 ability to instantly react to such a dramatic change 10 accurate statement, sir? 11 on -- on operational expenses isn't going to be quite 11 MR. LUKE JOHNSTON: That's right. 12 as fast. But that -- that is of course the reality if 12 Specific to this application. So just -- just to be 13 there's 60 percent less claims, anyone that handles 13 clear, there is other money in the RSR, but for this 14 claims would be in less need, I guess, to put it particular application there is a -- an estimated 58 14 15 simply. 15 million excess, yes, that will be there. 16 DR. BYRON WILLIAMS: Mr. Johnston, as 16 DR. BYRON WILLIAMS: Okay. Mr. vice-president and chief actuary, it's your role to 17 Johnston, I'm going to turn my attention without --17 stay alive to trends and claims, including deviations 18 hoping not to offend you in any way, to Mr. 18 19 from normal patterns, correct? 19 Giesbrecht. Feel free if there's a question that I 20 MR. LUKE JOHNSTON: That's right. 20 pose to him that's more relevant to you, to intervene. 21 21 DR. BYRON WILLIAMS: And given your Mr. Giesbrecht, I wonder if we can go 22 high level of professional excellence, you will 22 to pro forma 5, which appears towards the back of the application. 23 continue to actively monitor the ongoing effects, if 23 24 any, of COVID-19 beyond May 15th, 2020, correct? 24 And Mr. Giesbrecht, this looks at the 25 MR. LUKE JOHNSTON: That's correct. I 25 MPI statement of operations as was forecast back in 27 1 don't -- I can't recall if we were doing this last 1 the fall, early winter, versus the -- what underlies 2 this rebate application. Is that correct, sir? 2 year, but we are at the stage now where we update our 3 entire forecasting model on a monthly basis. 3 MR. MARK GIESBRECHT: Correct. 4 It's about a -- it's about a month lag 4 DR. BYRON WILLIAMS: And the third 5 to -- to reporting those numbers. But even going into 5 column, 2020 GRA, 2020-2021F, that's from the late 6 next hearing with the assumption of a -- a September 6 fall, winter of 2019. Is that correct, sir? 7 update and things like that, we're definitely staying 7 MR. MARK GIESBRECHT: Sorry, which on top of those forecasts every month. 8 column did you reference? 8 9 DR. BYRON WILLIAMS: And that part of 9 DR. BYRON WILLIAMS: The third column 10 in, the 2020/21F. 10 your job becomes even more critical, just given the dramatic impact you've seen on claims reductions in --11 MR. MARK GIESBRECHT: Yes. 11 12 in -- from mid-May to -- mid-March to mid-April, 12 DR. BYRON WILLIAMS: And to its right 13 is the forecast that underlies this application. 13 agreed? 14 MR. LUKE JOHNSTON: Agreed. 14 Would that be fair? 15 DR. BYRON WILLIAMS: So we can be 15 MR. MARK GIESBRECHT: Correct. 16 confident that MPI will be monitoring the impacts of 16 DR. BYRON WILLIAMS: And if we go down 17 COVID-19 on claims incurred in the May to June period, 17 to line 17, sir, in terms of total claims incurred, it 18 and in the June to July period, agreed? 18 would be fair to say that that shows a reduction of

MR. LUKE JOHNSTON: Agree claims and
 really all other aspects of operations expenses,
 investments premium.
 DR. BYRON WILLIAMS: Mr. Johnston, I'm
 not sure if we need to turn it, but just to -- because

24 you're being cited here, perhaps if we could go to the 25 MPI application, page 15 of 27, and I believe it's line

25 MPI application, page 15 of 27, and 1 believe it's line

22

23

21 year. Correct, sir?

over \$100 million in terms of the expectations of
 Manitoba Public Insurance for the -- for the 2020/21

24 down one more line, sir, in terms of claims expenses,

25 being line 18, claims expenses are forecast to

MR. MARK GIESBRECHT: That's correct.

DR. BYRON WILLIAMS: Okay. If we go

29

28

| 3 | 3 | 32 |
|--|---|-----|
| 1 actually, as compared to the fall forecast, rise by | 1 will last beyond the term of the public health | |
| 2 \$7.5 million, sir? | 2 measure. Would that be fair, sir? | |
| 3 MR. MARK GIESBRECHT: Correct. | 3 MR. MARK GIESBRECHT: That's fair, I | |
| 4 DR. BYRON WILLIAMS: So, in essence, | 4 believe, yes. | |
| 5 at least in this application, moving in opposite | 5 DR. BYRON WILLIAMS: And there is a | |
| 6 directions of claims incurred? | 6 risk, of course, that adverse economic circumstances | |
| 7 MR. MARK GIESBRECHT: Yes, and there's | 7 could effect new vehicle purchases negatively? | |
| 8 one primary explanation for that. It's it's simply | 8 MR. MARK GIESBRECHT: It's a | |
| 9 a reclass of certain expenses that previously had been | 9 possibility. | |
| 10 included in claims incurred. | 10 DR. BYRON WILLIAMS: And there's also | |
| 11 So that aside, it would be basically be | 11 a risk that adverse economics could effect insurance | |
| 12 more flat, in essence. But there were certain claims13 expenses relating to some of our software that is | 12 decisions with some consumers potentially to choosing13 to change insurance coverage or to quit driving and | |
| 14 directly tied to our shops that we felt was more | 14 quit insuring their vehicles, that's a possibility? | |
| 15 appropriately classified as a claims expenses, rather | 15 MR. MARK GIESBRECHT: That's a | |
| 16 than a a claims incurred. | 16 possibility. | |
| 17 So it's it forms part of the claims | 17 DR. BYRON WILLIAMS: In terms of the | |
| 18 costs, but just we changed the bucket in which it | 18 Corporation's forecast relating to underlying this | |
| 19 lies. | 19 rebate application, MPI has not reduced the 2020 | |
| 20 DR. BYRON WILLIAMS: And so just so I | 20 revenue projections for changes in customer behaviour | |
| 21 understand, sir, if we removed those numbers, you | 21 such as cancelling insurance or switching to layoff | |
| 22 your suggestion is that in terms of claims expense it | 22 coverage. Would that be fair? | |
| 23 would be flat, not declining? | 23 MR. MARK GIESBRECHT: Sure. | |
| 24 MR. MARK GIESBRECHT: Roughly | 24 DR. BYRON WILLIAMS: And Mr. Johnston, | |
| 25 speaking, yes. | 25 this may be for you, but just one (1) question. | |
| | | |
| 3 | | 33 |
| 1 DR. BYRON WILLIAMS: And sir, if we go | 1 Perhaps surprisingly, but customers to date have | 33 |
| 1 DR. BYRON WILLIAMS: And sir, if we go 2 up to line 13, being total earned revenues, that | Perhaps surprisingly, but customers to date have cancelled or reduced coverage on less policies than | 33 |
| 1 DR. Going down a little bit, around 4.76million?7MR. MARK GIESBRECHT: Yes, they8there's a slight decline based on continued decreases9in the volume and upgrade factors, but generally10speaking it it's fairly flat.11DR. BYRON WILLIAMS: And Mr.12Giesbrecht, you would agree that there has it would13be reasonable to expect that there's been a14significant adverse effect in March and April of15Covid-19 on the Manitoba economy and on Manitobans,16would that be a fair statement, sir?17MR. MARK GIESBRECHT: I think that's a18fair statement, yes.19DR. BYRON WILLIAMS: Jobs have been20lost, businesses have been closed, and savings have21been depleted. Is that a fair statement, sir? | Perhaps surprisingly, but customers to date have cancelled or reduced coverage on less policies than they did during the weeks of mid-March to mid-April in 2019, agreed? MR. LUKE JOHNSTON: We were told this morning that we were going to get a update to that table, so that'll be provided. But what I can tell you from just looking at it, the conclusion will be very similar. There no nothing dramatic in terms of behaviour that, I guess, gives us the ability to make a a strong prediction in that matter. You know, like, if it if it was you know, if everyone if across the board, 5 percent and trending in that direction, sure, that maybe we put in the reduction for the two (2) months. But to date, I've nothing really to to to grab on to and assume in the forecast. DR. BYRON WILLIAMS: Okay. And Mr. Giesbrecht, this is probably more a matter for the jurat, but just one (1) question. | 33 |
| 1DR. BYRON WILLIAMS: And sir, if we go2up to line 13, being total earned revenues, that3number stays relatively flat between the forecasts in4the fall and the the numbers underlying this5application? Going down a little bit, around 4.76million?7MR. MARK GIESBRECHT: Yes, they8there's a slight decline based on continued decreases9in the volume and upgrade factors, but generally10speaking it it's fairly flat.11DR. BYRON WILLIAMS: And Mr.12Giesbrecht, you would agree that there has it would13be reasonable to expect that there's been a14significant adverse effect in March and April of15Covid-19 on the Manitoba economy and on Manitobans,16would that be a fair statement, sir?17MR. MARK GIESBRECHT: I think that's a18fair statement, yes.19DR. BYRON WILLIAMS: Jobs have been20lost, businesses have been closed, and savings have21been depleted. Is that a fair statement, sir?22MR. MARK GIESBRECHT: Yes, agreed. | Perhaps surprisingly, but customers to date have cancelled or reduced coverage on less policies than they did during the weeks of mid-March to mid-April in 2019, agreed? MR. LUKE JOHNSTON: We were told this morning that we were going to get a update to that table, so that'll be provided. | | | 35 | 3 | 37 |
| 1 | | 35 | | 37 |
| 1 | MR. MARK GIESBRECHT: Correct. | | 1 total equity and MCT, with the first part of this | 37 |
| 1 2 3 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo | | total equity and MCT, with the first part of this figure looking at Basic total equity. | 37 |
| 2 3 | MR. MARK GIESBRECHT: Correct. | | total equity and MCT, with the first part of this figure looking at Basic total equity. | 37 |
| 2 3 4 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) | | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? | 37 |
| 2 3 4 5 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is | | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. | 37 |
| 2 3 4 5 6 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time | | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at | 37 |
| 2 3 4 5 6 7 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital | | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for | 37 |
| 2 3 4 5 6 7 8 9 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference | | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. | 37 |
| 2 3 4 5 6 7 8 9 10 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? | | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total | 37 |
| 2 3 4 5 6 7 8 9 10 11 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply | 1 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total equity as of 2021/'22 fiscal year end is projected to | 37 |
| 2 3 4 5 6 7 8 9 10 11 12 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply put, I would characterize it as an acceleration of | 1111 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total equity as of 2021/'22 fiscal year end is projected to be at about 613 million, agreed? | 37 |
| 2 3 4 5 6 7 8 9 10 11 12 13 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply put, I would characterize it as an acceleration of that that capital release rather than reducing | 1 1 1 1 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total equity as of 2021/'22 fiscal year end is projected to be at about 613 million, agreed? MR. MARK GIESBRECHT: Agreed. | 37 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply put, I would characterize it as an acceleration of that that capital release rather than reducing future rates. Given the need and the the nature of | 1 1 1 1 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total equity as of 2021/'22 fiscal year end is projected to be at about 613 million, agreed? MR. MARK GIESBRECHT: Agreed. DR. BYRON WILLIAMS: And that would be | 37 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply put, I would characterize it as an acceleration of that that capital release rather than reducing future rates. Given the need and the the nature of the current pandemic, it's an acceleration of that | 1 1 1 1 1 1 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total equity as of 2021/'22 fiscal year end is projected to be at about 613 million, agreed? MR. MARK GIESBRECHT: Agreed. DR. BYRON WILLIAMS: And that would be after, as we see on on line 15, after a a RSR | 37 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply put, I would characterize it as an acceleration of that that capital release rather than reducing future rates. Given the need and the the nature of the current pandemic, it's an acceleration of that rebate in the form of a of a cash rebate. | 1 1 1 1 1 1 1 1 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total equity as of 2021/'22 fiscal year end is projected to be at about 613 million, agreed? MR. MARK GIESBRECHT: Agreed. DR. BYRON WILLIAMS: And that would be after, as we see on on line 15, after a a RSR rebate of 58 million in in 2020/'21, correct? | 37 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply put, I would characterize it as an acceleration of that that capital release rather than reducing future rates. Given the need and the the nature of the current pandemic, it's an acceleration of that rebate in the form of a of a cash rebate. DR. BYRON WILLIAMS: So it's a one (1) | 1 1 1 1 1 1 1 1 1 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total equity as of 2021/'22 fiscal year end is projected to be at about 613 million, agreed? MR. MARK GIESBRECHT: Agreed. DR. BYRON WILLIAMS: And that would be after, as we see on on line 15, after a a RSR rebate of 58 million in in 2020/'21, correct? MR. MARK GIESBRECHT: Correct. | 37 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply put, I would characterize it as an acceleration of that that capital release rather than reducing future rates. Given the need and the the nature of the current pandemic, it's an acceleration of that rebate in the form of a of a cash rebate. DR. BYRON WILLIAMS: So it's a one (1) time payment via a cheque instead of a capital release | 1 1 1 1 1 1 1 1 1 1 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total equity as of 2021/'22 fiscal year end is projected to be at about 613 million, agreed? MR. MARK GIESBRECHT: Agreed. DR. BYRON WILLIAMS: And that would be after, as we see on on line 15, after a a RSR rebate of 58 million in in 2020/'21, correct? MR. MARK GIESBRECHT: Correct. MR. LUKE JOHNSTON: Just just to be | 37 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply put, I would characterize it as an acceleration of that that capital release rather than reducing future rates. Given the need and the the nature of the current pandemic, it's an acceleration of that rebate in the form of a of a cash rebate. DR. BYRON WILLIAMS: So it's a one (1) time payment via a cheque instead of a capital release over the next three (3) years through lower insurance | 1 1 1 1 1 1 1 1 1 1 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And Basic total equity as of 2021/'22 fiscal year end is projected to be at about 613 million, agreed? MR. MARK GIESBRECHT: Agreed. DR. BYRON WILLIAMS: And that would be after, as we see on on line 15, after a a RSR rebate of 58 million in in 2020/'21, correct? MR. MARK GIESBRECHT: Correct. MR. LUKE JOHNSTON: Just just to be clear for everyone, we haven't put any rate changes or | 37 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And as compo compared to that Capital Management Plan, sir, one (1) difference between the RSR rebate being proposed is that MPI anticipates and is seeking a one (1) time rebate of excess reserves today rather than a capital release through lower rates over the next three (3) years. That would be one (1) difference compared to the Capital Management Plan, sir? MR. MARK GIESBRECHT: Yes. Simply put, I would characterize it as an acceleration of that that capital release rather than reducing future rates. Given the need and the the nature of the current pandemic, it's an acceleration of that rebate in the form of a of a cash rebate. DR. BYRON WILLIAMS: So it's a one (1) time payment via a cheque instead of a capital release over the next three (3) years through lower insurance rates, correct? | 1 1 1 1 1 1 1 1 1 1 1 2 | total equity and MCT, with the first part of this figure looking at Basic total equity. Would that be fair, sir? MR. MARK GIESBRECHT: True. DR. BYRON WILLIAMS: And if we look at where MPI is projected to be at fiscal year end for the '20/'21 year, it's projecting to be at 530 million, approximately, sir? MR. MARK GIESBRECHT: True. DR. |--|--|---|---|----|
| 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | percent rate increases and no capital releases, sir? MR. LUKE JOHNSTON: Correct. DR. BYRON WILLIAMS: Mr. Giesbrecht and Ms. Schubert, if you can just scroll a little back up the page. That's super. Mr. Giesbrecht, going back to the concept of the capital management plan, a central element of that plan was a transfer of capital from Extension to Basic should the Extension MCT ratio of the Extension reserve exceed 200 percent at fiscal year end, correct? MR. MARK GIESBRECHT: Yes. The plan entails a transfer of any excess capital for Extension that we will be moved to Basic, yes. DR. BYRON WILLIAMS: And excess is in excess of 200 percent, sir? MR. MARK GIESBRECHT: Correct. DR. BYRON WILLIAMS: And if we go to - - under the column 2019/20, line 10, we we can see that at the time that MPI made its compliance forecast, it was projecting a \$75 million transfer from Extension to Basic at at or about fiscal year end 2019/2020, agreed? MR. MARK GIESBRECHT: Agreed. | 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 | | |
| 25 | DR. BYRON WILLIAMS: Kristen, if we | | in excess of 75 million? | |
| | 39 | | | 41 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | can go down on this page to line 6 and 7. Proceed down the page. Yes, thank you. In the in the current context, it's fair to say that there was no transfer of that of - - of an excess reserves from Extension to Basic at at the fiscal year end of 2019/'20. Is that right, sir? MR. MARK GIESBRECHT: Right. So we are currently in the midst of closing our 2019/2020 books, and in the past, we had used an estimation to move the required capital over. So in the last two (2) years, we had transferred and included those results in the fiscal year. This year, given the volatility within the the month of March with the pandemic, we had decided to wait until after year end. We had closed the actual books and had the final numbers, and then that that transfer would happen shortly after year end is closed. So it had not happened in 2019/2020 as DR. BYRON WILLIAMS: So is as our clients understand this, rather than applying the Extension capital transfer, MPI suggests it's received government approval to immediately rebate 52 million from Extension in May of 2020, correct? | 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | DR. BYRON WILLIAMS: So in terms of the MPI estimate of excess reserves and Extension at fiscal year end, the best estimate currently is 75 million? MR. LUKE JOHNSTON: Just to be clear here, so the 75 million is coming from last year's compliance forecast. On in figure 12, our best estimate of of capital transfers would would be what's flowing into 2021. So you can see in this figure that there's a we revert back to the the transfer methodology, whatever wasn't transferred ultimately or sorry, wasn't transferred in 2019/20 is assumed to | |

| | 42 | | | 44 |
|--|--|---|---|----|
| | remaining capital and then whatever profitability we | | ratepayers given MPI's ratepayers given the | |
| | got from Extension in 2021. | | financial circumstances of MPI, correct? | |
| 3 | DR. BYRON WILLIAMS: And thank you, but our client is focussed on the 2019/20 year end. | 3 | MR. MARK GIESBRECHT: True. These are extraordinary times and we know we are looking to work | |
| 5 | I don't know if pro forma Extension | | with government to do what we can to provide relief to | |
| - | number 3 would our client is seeking clarity. | 6 | ratepayers. | |
| 7 | First of all, let's confirm that at | | DR. BYRON WILLIAMS: And as opposed to | |
| | fiscal year end, March 31st, 2020 for Extension there | 1 · | the Capital Management Plan, what this rebate does is | |
| | was more than 52 million over and above the 200 | | | |
| | percent MCT target for Extension. Agreed? | 10 | | |
| 11 | MR. MARK GIESBRECHT: There could very | 11 | Would that be fair, sir? | |
| 12 | well be. However, the final numbers are not yet | 12 | MR. MARK GIESBRECHT: Fair. | |
| 13 | complete. These remain forecasted, so there there | 13 | DR. BYRON WILLIAMS: And as opposed to | |
| 14 | very well could be. However, the final numbers are | 14 | the Capital Management Plan, all consumers get the | |
| 15 | yet to be determined. | 15 | money near the time they need it most instead of | |
| 16 | DR. BYRON WILLIAMS: When will those | | 5 | |
| | numbers be determined, sir? | | their annual renewal time. Agreed? | |
| 18 | MR. MARK GIESBRECHT: In the coming | 18 | MR. MARK GIESBRECHT: Agreed. | |
| | weeks. | 19 | DR. BYRON WILLIAMS: And at a time of | |
| 20 | DR. BYRON WILLIAMS: Is it your | 20 | 5357 | |
| 21 | expectation that they will be higher than 52 million? | 21 | perceived as an important good news signal from MPI | |
| 22 | MR. MARK GIESBRECHT: That's a a | 22 | that is responding to to the needs of its | |
| | strong possibility. | 23 | ratepayers. Agreed? | |
| 24 | DR. BYRON WILLIAMS: And significantly higher, sir? In the range of tens of millions? | 24 | MR. MARK GIESBRECHT: Agreed. And we feel it's important that we respond to the times and | |

| | 46 | | | 48 |
|--|---|--|---|----|
| $\begin{array}{c} 2\\ 3\\ 4\\ 5\\ 6\\ 7\\ 8\\ 9\\ 10\\ 11\\ 12\\ 13\\ 14\\ 15\\ 16\\ 17\\ 18\\ 19\\ 20\\ 21\\ 22\\ 23\\ 24\end{array}$ | continue to monitor claims trending going forward. So that's a possibility, but I wouldn't say they were actively looking to do that in the near future. DR. BYRON WILLIAMS: In terms of the tech I'm sorry, Mr. Johnston, go ahead, please. MR. LUKE JOHNSTON: Outside of this emergency situation, as as I think everyone is aware, the intent was to essentially put a line on the customer's renewal saying capital release amount x, rather than any form of rebate. (BRIEF PAUSE) DR. BYRON WILLIAMS: We may come back to that. From an insurance perspective, is it fair to say that MPI is rebating funds on the basis of eligible policies as a straight percentage of premium? Would that be fair? MR. LUKE JOHNSTON: I can answer this. We the we are refunding as a percentage of of premium, yes. DR. BYRON WILLIAMS: Would it again, with the provisional all other things being | 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | DR. BYRON WILLIAMS: Okay. Would fleets like the Manitoba Hydro fleet receive be eligible for rebates or fleets like that corporate fleet? MR. LUKE JOHNSTON: Fleets are eligible. Using the the same rules, as long as they're they're enforced. Again, a good point relating to percentage of premium. Someone is not using their car, they're not paying any premium, so to give them a rebate based on paying nothing would wouldn't really make a lot of sense. So they have to be in operation, in earning premiums, to get the rebate. DR. BYRON WILLIAMS: And by in operation, you mean in operation as of March 5 15th, 2020, sir? MR. LUKE JOHNSTON: That's correct, yeah. DR. BYRON WILLIAMS: Mr. Giesbrecht, in terms of the funding of the rebate, would it be fair to suggest that about 80 million of the rebate is funded by cash at hand, with the rest funded from anticipated excess revenues over costs in the two (2) months in question, being March to April and then | |
| $\begin{array}{c} 2\\ 3\\ 4\\ 5\\ 6\\ 7\\ 8\\ 9\\ 10\\ 11\\ 12\\ 13\\ 14\\ 15\\ 16\\ 17\\ 18\\ 19\\ 20\\ 21\\ 22\\ 23\\ 24\end{array}$ | 47 equal, would it be fair to say that ratepayers or households with more cars will receive more rebate money? MR. LUKE JOHNSTON: That's correct. DR. BYRON WILLIAMS: And would it be fair to say that ratepayers or households with more expensive cars will receive more rebate money, all other things being equal? MR. LUKE JOHNSTON: Yes, all other things being equal. There's a outside of percentage of premium, it's it's difficult to think of other fair options. For example, if we were to just cut a cheque for the same amount to every policy holder, you - you could have situations where the cheque is more than their entire premium, if they're a moped or something like that. So it's hard to find another solution outside of premiums that's considered equitable. DR. BYRON WILLIAMS: This has been premised on insurance risk, in essence, sir? MR. LUKE JOHNSTON: Correct, especially in a in a Basic rate setting environment where one of the main assumptions is everyone has the same profitability and that's zero. | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | than in the investment fund in the short-term future? MR. MARK GIESBRECHT: So that's exactly what we did entering the pandemic, is we we looked at what would we potentially need over a two (2) month period. So at at this point in time, we were you know, we were doing our best estimates and | 49 |

| | | 50 | | | 52 |
|--|---|----|---|--|----|
| 1 | held back about \$85 million in cash so it was | | 1 | DR. BYRON WILLIAMS: And in terms of | |
| | available to pay out our obligations as they came due. | | | approving your direction, it would be your experience | |
| 3 | DR. BYRON WILLIAMS: So as we stand | | | that they would indeed approve a a minute of the | |
| - | today, we wouldn't be expecting MPI to be selling | | | board approving specific elements of the rate | |
| | equities at this highly volatile time to finance the | | | application. | |
| | rebate, for example, sir? | | 6 | MR. MARK GIESBRECHT: Typically, yes, | |
| 7 | MR. MARK GIESBRECHT: I wouldn't | | | yeah. | |
| | expect to be selling much, if any. Again, we'll look | | 8 | DR. BYRON WILLIAMS: If we turn, sir, | |
| | at, in the next two (2) weeks, how things progress and | | - | to CAC or, sorry, Exhibit 4, excuse me, Wednesday, | |
| | what happens in the markets. But as of now, we do not | | | April 15th, 2020. On entry 20-047, Excess Capital, | |
| | expect any meaningful sell-off of our invested assets. | | | you'll see a statement that: | |
| 12 | DR. BYRON WILLIAMS: And sir, just | | 12 | "The members were supportive of the | |
| | moving forward past the May 15th time frame, does MPI | | 13 | providing a credit to customers and | |
| | anticipate keeping more cash at hand than than | | 14 | excess capital to government." | |
| | normal as we try and feel our way out of the COVID-19 | | 15 | Do you see that statement, sir? | |
| | related emergency? | | 16 | MR. MARK GIESBRECHT: I do. | |
| 17 | MR. MARK GIESBRECHT: Yes, I would | | 17 | | |
| | expect that we would hover on the higher side of of | | 18 | (BRIEF PAUSE) | |
| | our expected range, given some of the uncertainties, | | 19 | | |
| | but, you know, we do expect to see some cash | | 20 | DR. BYRON WILLIAMS: Mr. Giesbrecht, | |
| | generation based on reduction in claims. | | | factually, has there been any transfer of excess | |
| 22 | DR. BYRON WILLIAMS: Okay. And the | | | capital to government? | |
| | higher end, sir, just what what what does the | | 23 | MR. MARK GIESBRECHT: No. | |
| | "higher end" mean? | | 24 | | |
| 25 | MR. MARK GIESBRECHT: So our | | 25 | (BRIEF PAUSE) | |

| | 58 | | 6 | 0 |
|--|---|--|--|---|
| 1 | THE PANEL CHAIRPERSON: Certainly, | 1 | MS. CHARLOTTE MEEK (by phone): Okay. | |
| | thank you. | 2 | And MPI's application provides an explanation of the | |
| 3 | , | | Capital Management Plan, or the CMP, and this is on | |
| 4 | EXHIBIT NO. CMMG-1: Photos of Road Conditions | 4 | | |
| 5 | of Manitoba | 5 | And MPI indicates that where there is a | |
| 6 | | 6 | balance of the RSR, or the Rate Stabilization Reserve | |
| 7 | EXHIBIT NO. CMMG-2: Winnipeg Manitoba April | | exceeds the 100 percent MCT, that a capital release is | |
| 8 | Weather Conditions | 8 | triggered under the Capital Management Plan. | |
| 9 | | 9 | Is that correct? | |
| 10 | CROSS-EXAMINATION BY CMMG: | 10 | MR. LUKE JOHNSTON: That's that's | |
| 11 | MS. CHARLOTTE MEEK (by phone): Thank | 11 | correct in the traditional way the the Capital | |
| 12 | you. So CMMG acknowledges the intention of the rebate | 12 | Management Plan is is used. That's right. | |
| | as proposed by MPI and the importance of providing the | 13 | MS. CHARLOTTE MEEK (by phone): Right. | |
| | economic belief to Manitobans here in this difficult | 14 | And that usually comes as a relief of the excess | |
| 15 | time. While CMMG was pleased to see that | 15 | capital incrementally over a number of years in the | |
| | motorcyclists were included in the release from | 16 | form of reduced premium rates for insured. | |
| | Extension, and CMMG is concerned that MPI has excluded | 17 | Is that correct? | |
| 18 | motorcyclists from the rebate from Basic. | 18 | MR. LUKE JOHNSTON: That's right. | |
| 19 | I believe most of my questions could be | 19 | MS. CHARLOTTE MEEK (by phone): And | |
| 20 | directed toward Mr. Johnston, but if Mr. Giesbrecht is | 20 | you'd agree with me that the rate reduction through | |
| 21 | in a better position to answer any, feel free. | 21 | the Capital Management Plan would be applied to all | |
| 22 | So Mr. Johnston, MPI is proposing a | | the major classes proportionally, correct? | |
| 23 | rebate based on the capital released from both the | 23 | MR. LUKE JOHNSTON: That's correct, | |
| 24 | Extension and the Basic. | | but just to just to be clear, the the main | |
| 25 | Is that correct? | 25 | assumption of the Capital Management Plan is that | |
| | | | | _ |
| | 59 | | 6 | 1 |
| 1 | | 1 | | 1 |
| 1 | MR. LUKE JOHNSTON: I'm doing my best | 1 | | 1 |
| 1 2 3 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said | | everyone's contributing equally to that benefit. So there is in for Basic | 1 |
| 2 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? | 2 | everyone's contributing equally to that benefit. So there is in in for Basic insurance, everyone is priced to break even, and the | 1 |
| 2 3 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said | 2 3 4 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or | 1 |
| 2 3 4 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. | 2 3 4 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or | 1 |
| 2 3 4 5 6 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. | 2 3 4 5 6 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. | 1 |
| 2 3 4 5 6 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. | 2 3 4 5 6 7 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those | 1 |
| 2 3 4 5 6 7 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not | 2 3 4 5 6 7 8 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be | 1 |
| 2 3 4 5 6 7 8 9 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not | 2 3 4 5 6 7 8 9 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which | 1 |
| 2 3 4 5 6 7 8 9 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but | 2 3 4 5 6 7 8 9 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which would is not the case when we, for example, earn | 1 |
| 2 3 4 5 6 7 8 9 10 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but I'll do my best. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I will try and speak up. | 2 3 4 5 6 7 8 9 10 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which would is not the case when we, for example, earn earn more income than we expect on the our equity | 1 |
| 2 3 4 5 6 7 8 9 10 11 12 13 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but I'll do my best. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I will try and speak up. MR. LUKE JOHNSTON: If I can't, I'll | 2 3 4 5 6 7 8 9 10 11 12 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which would is not the case when we, for example, earn earn more income than we expect on the our equity portfolio, or or something like that. So that's the reason for the unique treatment in this case. | 1 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but I'll do my best. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I will try and speak up. MR. LUKE JOHNSTON: If I can't, I'll just ask for a repeat, then. | 2 3 4 5 6 7 8 9 10 11 12 13 14 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which would is not the case when we, for example, earn earn more income than we expect on the our equity portfolio, or or something like that. So that's the reason for the unique treatment in this case. MS. CHARLOTTE MEEK (by phone): Right. | 1 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but I'll do my best. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I will try and speak up. MR. LUKE JOHNSTON: If I can't, I'll just ask for a repeat, then. MS. CHARLOTTE MEEK (by phone): Okay. | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which would is not the case when we, for example, earn earn more income than we expect on the our equity portfolio, or or something like that. So that's the reason for the unique treatment in this case. MS. CHARLOTTE MEEK (by phone): Right. So MPI is is focussing on the additional excess | 1 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but I'll do my best. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I will try and speak up. MR. LUKE JOHNSTON: If I can't, I'll just ask for a repeat, then. MS. CHARLOTTE MEEK (by phone): Okay. Maybe if I do it this way. Is this a little bit | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which would is not the case when we, for example, earn earn more income than we expect on the our equity portfolio, or or something like that. So that's the reason for the unique treatment in this case. MS. CHARLOTTE MEEK (by phone): Right. So MPI is is focussing on the additional excess income from the March 15th to the May 15th period? | 1 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but I'll do my best. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I will try and speak up. MR. LUKE JOHNSTON: If I can't, I'll just ask for a repeat, then. MS. CHARLOTTE MEEK (by phone): Okay. Maybe if I do it this way. Is this a little bit better? | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which would is not the case when we, for example, earn earn more income than we expect on the our equity portfolio, or or something like that. So that's the reason for the unique treatment in this case. MS. CHARLOTTE MEEK (by phone): Right. So MPI is is focussing on the additional excess income from the March 15th to the May 15th period? MR. LUKE JOHNSTON: Yeah. So to put | 1 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but I'll do my best. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I will try and speak up. MR. LUKE JOHNSTON: If I can't, I'll just ask for a repeat, then. MS. CHARLOTTE MEEK (by phone): Okay. Maybe if I do it this way. Is this a little bit better? MR. LUKE JOHNSTON: It sounds that | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which would is not the case when we, for example, earn earn more income than we expect on the our equity portfolio, or or something like that. So that's the reason for the unique treatment in this case. MS. CHARLOTTE MEEK (by phone): Right. So MPI is is focussing on the additional excess income from the March 15th to the May 15th period? MR. LUKE JOHNSTON: Yeah. So to put it simply, if since this rebate is is purely | 1 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but I'll do my best. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I will try and speak up. MR. LUKE JOHNSTON: If I can't, I'll just ask for a repeat, then. MS. CHARLOTTE MEEK (by phone): Okay. Maybe if I do it this way. Is this a little bit better? MR. LUKE JOHNSTON: It sounds that sounds fine. Thanks. | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | everyone's contributing equally to that benefit. So there is in for Basic insurance, everyone is priced to break even, and the Capital Management Plan assumes that any surcharges or rebates should be collected equally. This special rebate does not meet those assumptions. The amount saved by MPI right now can be identified to a specific group and time period, which would is not the case when we, for example, earn earn more income than we expect on the our equity portfolio, or or something like that. So that's the reason for the unique treatment in this case. MS. CHARLOTTE MEEK (by phone): Right. So MPI is is focussing on the additional excess income from the March 15th to the May 15th period? MR. LUKE JOHNSTON: Yeah. So to put it simply, if since this rebate is is purely based on claims reductions from the pandemic, or | 1 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | MR. LUKE JOHNSTON: I'm doing my best to to hear you, but I think you said MPI is rebating both Extension and capital on Basic? MS. CHARLOTTE MEEK (by phone): Yes. MR. LUKE JOHNSTON: That's correct. MS. CHARLOTTE MEEK (by phone): Sure. Can you hear me okay, or is it MR. LUKE JOHNSTON: It's it's not bad. I'm I'm a little hard of hearing, so but I'll do my best. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I will try and speak up. MR. LUKE JOHNSTON: If I can't, I'll just ask for a repeat, then. MS. CHARLOTTE MEEK (by phone): Okay. Maybe if I do it this way. Is this a little bit better? MR. LUKE JOHNSTON: It sounds that sounds fine. Thanks. MS. | | (| 62 | | | 64 |
|--|---|--|---|--|----|
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 | beginning of April, we knew the situation we were in. We could say, you know, we're really confident that the the rates for the month of April can be 40 percent lower, for example, and and do that. And that would obviously provide a a very direct and obvious benefit to the people at that time. That's very complicated with with policy years overlapping, and and rate approval processes. That was seen as a something that would take a long time and be very complex. MS. CHARLOTTE MEEK (by phone): Right. | 1 1 1 1 1 1 1 1 1 1 1 2 2 2 2 2 2 | 2345678901234567890123 iii 001234567890123 | this had flown through the RSR, that and followed the Capital Management Plan, then then it definitely would have followed that process. What we're saying here is this this is very special circumstances, and and utilizing that process at this time, we're asking to pause that and provide immediate rebate to the customers impacted right now. MS. CHARLOTTE MEEK (by phone): Okay. And and the intention is, here, I understand from MPI, is is in order to get money into the hands of Manitobans who are struggling due to the economic impacts of COVID-19 more quickly, correct? MR. LUKE JOHNSTON: That is the intention, but to do it in an equitable way, so MS. CHARLOTTE MEEK (by phone): Correct. MR. LUKE JOHNSTON: you know, if the we are not providing a relief to snowmobiles, or any other seasonal vehicle that isn't operating at this time. So the the release of capital with a rebate isn't just a cheque. It is tied to to risk and and the reductions from the classes that we believe have have reduced risk. And our | |
| 24 25 | MR. LUKE JOHNSTON: So the the decision was made to attempt to quantify the rebate | | | believe have have reduced risk. And our expectation, of course, coming to the PUB, is that | |
| | (| 63 | | | 65 |
| 2 3 4 | been provided across all motorcyc or all vehicle | 1 1 1 1 1 1 1 1 1 1 1 2 2 2 2 2 2 2 | 2347 56789012345678901234 1234 | that we have to provide evidence that we're rebating as equitably as possible, and that's that's what we're we're doing, here. MS. CHARLOTTE MEEK (by phone): Okay. And so you've kind of alluded to this already, but in providing this rebate, MPI has required that it be based on Basic premium that are in force and earning premium as of March 15, 2020, correct? MR. LUKE JOHNSTON: Correct. MS. CHARLOTTE MEEK (by phone): All right. And MPI has provided kind of two (2) reasons as to why the motorcycle class has been disqualified for the Basic rebate. If we can go to page 23 of the application, the top of the page. (BRIEF PAUSE) MS. CHARLOTTE MEEK (by phone): Sorry, mine's being a bit slow, here. I'm just going to wait a minute to see where we are. MR. LUKE JOHNSTON: I I didn't hear that, sorry. MS. CHARLOTTE MEEK (by phone): Sorry. I'm just saying my my presentation screen is is being a bit slow. I'm not sure if everybody can see | |

| | 66 | | | 68 |
|---|--|---|--|----|
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | <pre>the page right now. MR. LUKE JOHNSTON: I can see page 23, if that's MS. CHARLOTTE MEEK (by phone): Okay. Good. Okay. That just might be my computer being a little bit slow. Okay. So there are two (2) reasons that MPI has provided. The first reason, I'm going to just give a summary here, is that there are only few motorcyclists on the road during the two (2) month period that has been identified from March 15th to May 15th, coupled with the fact that MPI defines the riding season for motorcyclists as May 1st to September 30th. Is that fair? MR. LUKE JOHNSTON: That is fair, and and that is is not paying premiums during March and April. MS. CHARLOTTE MEEK (by phone): Okay. And the second reason is that MPI is indicating that motorcycle premiums are only earned by MPI during the riding season, which falls between May 1st and September 30th. Is that fair? MR. LUKE JOHNSTON: That's right.</pre> | 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | MS. CHARLOTTE MEEK: Sure. In terms of of the risk factor that MPI is covering, motorcyclists were on the road from the period of April 17th onwards. MR. LUKE JOHNSTON: There's definitely been motorcycles on on the road at this time. There's no question about that. We do talk in the rate application, like outside of what I mentioned already on premiums, the vast majority of motorcycles are insured as pleasure use as well. So that's another reason why we couldn't anticipate significant or at least not the same reductions in frequency from motorcycles relative to to vehicles that are used to go to work every day. But that is not the basis for the exclusion per for one and two. It does rely on the fact that motorcycles aren't paying premium at that time. MS. CHARLOTTE MEEK: Right. But part of the reason that MPI is is excluding motorcyclists is because one (1) of the reasons is that there are fewer motorcyclists on the road during that time and they're suggesting that the riding season is defined as May 1st onwards. | |
| 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | 67 MS. CHARLOTTE MEEK (by phone): Okay. So if we just look at that first reason first, would you agree that based on weather and road conditions of this year and in 2020, motorcyclists were likely on the road for at least half of the identified period? So from about April 15th to May 15th? MR. LUKE JOHNSTON: Would some motorcycles have been on the road this there's l've definitely been passing them in the last few days. So the yes, there would be motorcycles on the road. But again, MPI is saying we can't refund premium that wasn't paid. There's nothing paid in those months. And so there's there's no evidence of a financial loss in terms of a premium, even if there were relatively minor changes to claims frequency. MS. CHARLOTTE MEEK: Okay, but in terms of risk, you would acknowledge that motorcyclists were riding, potentially from as early as April 17th onwards. MR. LUKE JOHNSTON: I'm sorry, I couldn't make out that question. If you could repeat it, please? | 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | But you'd agree with me that the riding season, being defined as May 1st to September 30th does not actually indicate when motorcyclists would be on the road, and weather permitting, the riding season could be much earlier than that. MR. LUKE JOHNSTON: I don't I have no issue with motorcycles being on the road. Again, if if there was any premium being paid in these months and there was some logic to giving a discount on the premium paid for motorcycles, and we were able to do that, we we would. But there's no premium being paid, so it's hard for me to give a a discounted premium to something that's not being paid at all. MS. CHARLOTTE MEEK: And there's a distinction there between premiums paid and premiums earned, right? You're talking about motorcyclists not actually paying any premium at all? MR. LUKE JOHNSTON: Sorry, I'm really struggling to hear. I'm doing my best, but I MS. CHARLOTTE MEEK: Oh, I apologize, I'll try and speak up. You're you're using the terminology "premium paid," and there's an a distinction between premiums paid by the insured and premiums | 69 |

| | 70 | | | 72 | |
|----|---|----|--|----|---|
| | 1 earned by MPI. Am I correct in saying that? | 1 | to pay a premium. | | |
| | 2 MR. LUKE JOHNSTON: In general earning | 2 | If seasonal rating wasn't here, if a | | |
| | 3 premiums mean that you owe MPI money and you have to | | motorcyclist wanted to ride in early April, they would | | |
| | 4 pay it at some point. | | come in and pay for April. And on that basis if | | |
| | 5 So paid and earned are are very | | sure, if we saw reductions from claims due to the | | |
| | 5 similar. The you would someone might pay their | | pandemic and monies being paid, earned, then there may | | |
| | 7 insurance policy for the entire year, last year, and | | be some logic to a rebate. | | |
| | | 8 | But that that isn't the case. | | |
| | 3 then earn the premium 300 for 365 days. 9 So that's the distinction. So we don't | 9 | | | |
| | | ľ | MS. CHARLOTTE MEEK: Right. And | | |
| |) that's why we don't look at the day you paid. We | | and part of the reason that the earned premium as | | |
| 1 | , , , | 11 | defined by MPI as May 1st to September 30th, is it | | |
| | 2 if the vehicle is in force and earning premiums on | | partly because MPI is wanting to match the recognition | | |
| | 3 that day, that means you are you are paying money | | of revenue with the timing of the incurred loss? | | |
| | for using the vehicle on that day. | 14 | MR. LUKE JOHNSTON: In a in a | | |
| 1 | 5 | | general sense, yes. The dates are selected as to | | |
| | 6 earned premium is kind of an accounting methodology | | reflect when a a typical full-season rider would | | |
| | 7 that is used by insurance companies that, as you say, | | have you know, would always have their bike | | |
| 1 | 3 it's not based on when the premium is collected, it's | | insured. | | |
| 1 | | 19 | I recognize that not every motorcyclist | | |
| 2 | | | does that. But it again, it takes away the guess | | |
| | 1 the risk period, then it would be deemed, in an | | work outside of the kind of shoulder months where it | | |
| 2 | 2 accounting perspective, as an earned premium once that | 22 | may be warm or it may not be, and just allows a | | |
| 2 | 3 risk period has expired. Would that be fair to say? | 23 | motorcyclist to just renew once and and and earn | | |
| 24 | 4 MR. STEVEN SCARFONE: Ms. Meek, I | 24 | the premiums in that period. | | |
| 2 | 5 heard your question but Mr. Johnston is is | 25 | And then they can drive as much as they | | |
| ┢ | | | | | |
| | 71 | | | 73 | |
| | 1 struggling to hear you. | 1 | want outside the period at no cost. | | |
| | 2 MS. CHARLOTTE MEEK: Okay. | 2 | MS. CHARLOTTE MEEK: Right. So as | | |
| | 3 MR. STEVEN SCARFONE: I understand | 3 | well as it being a convenience for motorcyclists | | |
| | 4 you're asking for the clarification between an earned | 4 | themselves, and that we don't have to come in and earn | | |
| | 5 premium and a paid premium, is that | 5 | or renew our premiums, you know, in the shoulder | | |
| | 6 MS. CHARLOTTE MEEK: Yeah. | 6 | seasons when we're not sure of what the weather is | | |
| | 7 MR. LUKE JOHNSTON: So perhaps another | 7 | going to be, this is also an internal accounting | | |
| | 3 way to look at this the only reason motorcycles | 8 | decision made by MPI to match the the revenue with | | |
| | 9 have seasonal earnings is because of a program that we | | the timing of incurred losses as to when motorcyclists | | |
| | created, I believe with the help of CMMG, to have | | are most likely to be on the road. | | |
| 1 | | 11 | MR. LUKE JOHNSTON: It is an attempt | | |
| 1: | 0 | | to charge premiums when the exposure occurs. | | |
| 1: | C C | 13 | MS. CHARLOTTE MEEK: Thank you. | | |
| | if a motorcyclist wanted to ride their motorcycle in | 14 | MR. LUKE JOHNSTON: That is true. | | |
| 1 | | 15 | MS. CHARLOTTE MEEK: So so part of | | |
| | 6 March premium, the same as any other month, and have | | MPI's reasoning, as you've explained, is that MPI has | | 1 |
| 1 | | 1 | | | 1 |

16 MPI's reasoning, as you've explained, is that MPI has 17 not yet earned the premiums because the premiums are 18 only earned in May to September, and therefore 19 motorcyclists should not qualify for the rebate. Is 20 that correct?

21 MR. LUKE JOHNSTON: That's true. The 22 logic for the rebate is the estimated \$58 million in 23 claims reductions from vehicles at that time. And we 24 -- again, vehicles earning and paying premium at that 25 time, and we don't believe there is logic to include

17 to guess when the season was going to start, for

20 seasonal earnings to avoid motorcyclists having to 21 have that hassle of guessing when the season is going

22 to start and we picked May to September to earn the

So in theory you can essentially ride 25 for free in those outside months, and without having

But they would have to pay. We do the

18 example.

23 premiums.

19

74 1 vehicles that are not -- that are, you know, off-1 such resulted in premiums being paid out of the actual 2 season vehicles, such as motorcycles, snowmobiles, or 2 riding season. 3 other ORVs, things like that. 3 MS. CHARLOTTE MEEK: Sorry, when you 4 MS. CHARLOTTE MEEK: Right. So it's -4 say "premiums paid" out of the actual riding season, 5 - it's to make up for the reduction of claims costs 5 do you mean paid by the individual insured, or do you 6 between March and May, and so because MPI has not 6 mean earned by MPI? 7 earned premiums on motorcycles at that time, they're 7 MR. LUKE JOHNSTON: My apologies. being excluded at this time? 8 Paid can definitely occur outside of 8 9 MR. LUKE JOHNSTON: Correct. We're 9 the riding season, which is also the earning --10 not earning premiums and there's not a -- an 10 earning period. If -- if that helps. MS. CHARLOTTE MEEK: I'm -- I'm sorry. expectation or evidence that motorcycles are 11 11 12 contributing at this magnitude during that period 12 Maybe I'm -- I'm not clear. 13 because they're not, in general, either paying premium 13 Insureds are still paying premiums 14 or exposed at this level. 14 throughout the entire year, but MPI is not deeming 15 I -- I agree with you, motorcyclists 15 those premiums earned until the -- the riding season. 16 are on the road today. But again, that is not 16 Is that accurate? something that they're paying for directly in this --17 MR. LUKE JOHNSTON: That's true. But 17 18 at this time. 18 just to give a really extreme example, I'm not saying 19 MS. CHARLOTTE MEEK: I'm -- you'd 19 this happens, but in -- in theory you could put a 20 agree with me, Mr. Johnston, that MPI has not 20 motorcycle in force on November 1st and cancel it on 21 technically earned premiums for any other vehicle 21 April 30th and pay nothing. 22 MS. CHARLOTTE MEEK: Right. As could 22 class, up to and including the May 15th, 2020 date, as 23 of yet? 23 any other vehicle class? 24 MR. LUKE JOHNSTON: As of yet, we have 24 MR. LUKE JOHNSTON: Yeah. So the 25 earning period is -- is there for a reason. But yes, 25 not. But obviously being a monopoly and having a --75 1 the entire vehicle population, it's a -- it's a pretty 1 you can -- you can pay your premiums outside of the 2 strong assumption to -- to assume that for the most 2 earning period. 3 part vehicles will continue to earn. 3 But if you don't drive in the earning Δ MS. CHARLOTTE MEEK: Okay. You'd 4 period, we will not charge you for the earning -- the premiums only come due to extend your in force during 5 agree with me, Mr. Johnston, that the riding season is 5 6 not in any way representative of the coverage offered 6 that earning period. 7 or the service provided by MPI in the sense -- if I 7 MS. CHARLOTTE MEEK: Right. And --8 can rephrase that. 8 and similar to the vehicle class, an individual could 9 MPI still covers motorcycles for the 9 pay their premium in full at the beginning of the 10 year, and MPI would not deem that premium earned until 10 entire year, not just the riding season? 11 MR. LUKE JOHNSTON: I believe you said 11 each month passes throughout the year. 12 motorcycles are covered for the entire year if they 12 Is that accurate? 13 keep their policy enforced, not just the riding MR. LUKE JOHNSTON: That's right, but 13 season, if that's true --14 again the bill is due based on the days that you earn. 14 15 15 Whether you pay it today or tomorrow or twelve months MS. CHARLOTTE MEEK: Yes. 16 MR. LUKE JOHNSTON: -- yes, that's 16 ago, if you're in force and earning, you -- you're 17 true. 17 owing MPI money for that day of use. 18 18 MS. CHARLOTTE MEEK: And motorcyclists MS. CHARLOTTE MEEK: Okay. So 19 are still paying premiums outside of the riding 19 motorcyclists, just to clarify, are fully covered 20 season, in the sense of premiums are still being 20 throughout the entire year and MPI is obligated to pay 21 collected by MPI, but they are not deemed earned until 21 out any losses incurred during any time of the year? 22 the riding season. Is that correct? 22 MR. LUKE JOHNSTON: If they continue 23 MR. LUKE JOHNSTON: I can't recall how 23 to have a -- a policy, yes.

- 24 MS. CHARLOTTE MEEK: Okay. And as I -
- 25 as I indicated, I did receive the responses to the

24 we do the -- the financing. But it -- it definitely

25 would not surprise me if -- if financing plans and

76

78 80 1 pre-asks and I'd like to just have some follow-up 1 apologize. 2 questions if -- if that's okay, if time is permitting? 2 MR. STEVEN SCARFONE: -- to Exhibit 2 THE PANEL CHAIRPERSON: Yes, please 3 and then -- and then the specific pre-ask number. 3 4 4 proceed. 5 MS. CHARLOTTE MEEK: Thank you. And I 5 CONTINUED BY MS. CHARLOTTE MEEK: -- we -- we can maybe start with MPI exhibit number 6, 6 6 MS. CHARLOTTE MEEK (by phone): 1 7 so this is CMMG Pre-Ask 1. So we can just focus on 7 understand. Thank you for clarifying that. the chart at the bottom of the page. 8 8 So just to clarify the record here, we 9 So the request was that MPI provide the 9 are on Exhibit Number 2, Pre-Ask 1. If we can go to 10 motorcycle numbers for this figure. And I'm just 10 page 2 of that, I think that's where we were. noting that the last column of this figure hasn't been 11 11 So the first point that MPI has made is 12 provided. 12 that the motorcycle class has no in-force policies. 13 Is there -- is there any reason as to 13 So that's not quite accurate. There are policies that 14 why that number was not able to be provided, or was it 14 are in force; they are just not earning premium as of 15 just a -- an issue of time? 15 March 15th, 2020, as we've previously discussed. 16 MR. LUKE JOHNSTON: So you -- you 16 MR. LUKE JOHNSTON: Yeah, I think to -17 believe there should be a column 7 there, is that what 17 - to -- to get this accurate, you have to read their you're asking? 18 18 -- the rest of the sentence. So "no in-force policies 19 MS. CHARLOTTE MEEK: Yes. If we go to 19 earning premium" -- that is the -- that's the 20 page 22 of page 27 of the application, on figure 13 at 20 statement, yeah. 21 21 the bottom of the page there's a seventh column there MS. CHARLOTTE MEEK (by phone): Right. 22 22 that gives you the average dollar rebate for policies MR. LUKE JOHNSTON: Yeah. enforced on March 15th, 2020, which seems to be 23 23 MS. CHARLOTTE MEEK (by phone): So if 24 excluded from the figure that was provided. 24 we took out "earning premium," it would be accurate to And I'm just wondering if there's any 25 25 say that there are in-force policies. 79 81 reason as to why that was excluded. 1 MR. LUKE JOHNSTON: Yes. Yeah, 1 2 MR. LUKE JOHNSTON: My apologies, I 2 there's -- there's -- there's in-force policies. 3 don't know why that would have been excluded. 3 That's true. 4 MS. CHARLOTTE MEEK: Okay, but we have 4 MS. CHARLOTTE MEEK (by phone): Thank 5 you. And again, I think we've talked about this, and most of the other numbers. 5 6 MR. LUKE JOHNSTON: We'll make sure we 6 I don't know if the Board requires further 7 update the record if -- if necessary. 7 clarification, but maybe I'll just my exhibits that MS. CHARLOTTE MEEK (by phone): Thank 8 I've prepared anyway. 8 you. And -- and if I -- if we could go back to 9 The second point on this page indicates 9 Exhibit 6, please, Kristen. If we go to page 2. 10 that motorcycle major classes do not contribute 10 11 MR. STEVEN SCARFONE: Ms. Meek, if I 11 significanty -- significantly to the lower claims 12 could just interject, just so the record is clear --12 frequency between March 15th and May 15th. And if we 13 MS. CHARLOTTE MEEK (by phone): Sure. 13 could just go to CMMG Exhibit 1, please. 14 MR. STEVEN SCARFONE: -- I know that 14 15 your -- the responses to your client's pre-asks are 15 (BRIEF PAUSE) 16 marked as such on the screen, but just for ease of 16 reference, MPIC this morning marked the responses to 17 17 MS. CHARLOTTE MEEK (by phone): And 18 your client's pre-asks all together as Exhibit Number just for reference here, this is a Twitter update of, 18 19 2. 19 like, a Winnipeg traffic Twitter account, and if you 20 MS. CHARLOTTE MEEK (by phone): Oh, I 20 scroll gradually down for me, Kristen. 21 understand. Okay, so all of the -- the pre-ask 21 It goes -- starts from April 29th, and questions from CMMG are Exhibit 2? 22 22 it goes back. It doesn't have every single day, but 23 MR. STEVEN SCARFONE: Yes, and then --23 it provides some idea of the road conditions 24 so you can just refer --24 throughout the two (2) weeks prior to today, and 25 MS. CHARLOTTE MEEK (by phone): Oh, I 25 demonstrating that the roads are clear, so would be

| | 82 | | | 84 |
|--|--|--|---|----|
| | | | | 04 |
| 1 | reasonable for motorcyclists to be out on the road. | | (BRIEF PAUSE) | |
| 23 | There's no ice or snow on the road. Is that correct? MR. LUKE JOHNSTON: I've seen | 2 | MS. CHARLOTTE MEEK (by phone): So if | |
| 4 | motorcyclists out, so yeah, that's a decision for them | 4 | I could just go back again sorry, Kristen to | |
| 5 | to make, but if they think it's safe, sure. | 5 | Exhibit 2. We're just at the second page. Perfect. | |
| 6 | MS. CHARLOTTE MEEK (by phone): Sure. | 6 | Thank you. | |
| 7 | MR. LUKE JOHNSTON: Yeah. | 7 | So the third point here is that MPI is | |
| 8 | MS. CHARLOTTE MEEK (by phone): Thank | 8 | saying that they cannot confirm that the same volume | |
| 9 | you, Kristen. And if we could go to CMMG Exhibit 2. | 9 | of policies in the motorcycle class will be in force | |
| 10 | And this is just to give us an idea of | 10 | between May 1st and May 15th, given the current | |
| 11 | what the temperature ranges are from about the 17th | 11 | environment. And so that's implying that it's | |
| 12 | onwards, so that's exactly where we need to be. | 12 | possible that people might cancel their policies. | |
| 13 | And there are only three (3) days that | 13 | Is that correct? | |
| 14 | 5 | 14 | MR. LUKE JOHNSTON: That's true. | |
| 15 | 5 | | Motor motorcyclists, as I'm sure you're aware, have | |
| | to be on the road. Would you agree? | | have different needs and affordability of of | |
| 17 | MR. LUKE JOHNSTON: Again, that's | | of insurance and such, so most of these vehicles are | |
| 18 | | | registered as pleasure. If there was financial | |
| 19 | | 19 | 1, | |
| 20 21 | MS. CHARLOTTE MEEK (by phone): Thank you. | 20 | not insure their motorcycle for a certain amount of time just to save on premiums. | |
| 22 | MR. LUKE JOHNSTON: Yeah. | 22 | MS. CHARLOTTE MEEK (by phone): Right, | |
| 23 | MS. CHARLOTTE MEEK (by phone): | | | |
| | Kristen, if we could just go back to Exhibit 2, then, | | similar to the vehicle class. You cannot confirm that | |
| | please. | | the same volume of policies will be in force in the | |
| | | | · | |
| | | | | |
| | 83 | | | 85 |
| 1 | | 1 | future | 85 |
| 1 | MR. STEVEN SCARFONE: So Ms. Meek, | 1 | future. MR. LUKE JOHNSTON: Yeah. for any veh | 85 |
| | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to | 2 | MR. LUKE JOHNSTON: Yeah, for any veh | 85 |
| 2 | MR. STEVEN SCARFONE: So Ms. Meek, | 2 3 | | 85 |
| 2 3 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. | 2 3 4 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I | 85 |
| 2 3 4 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. | 2 3 4 5 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will | 85 |
| 2 3 4 5 6 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you | 2 3 4 5 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will be in force on on May 15th. That's true, if that | 85 |
| 2 3 4 5 6 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you asked Mr. Johnston a question that was premised on a date that I believe you said was April 17. MS. CHARLOTTE MEEK (by phone): Yeah. | 2 3 4 5 6 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will be in force on on May 15th. That's true, if that was the question. | 85 |
| 2 3 4 5 6 7 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you asked Mr. Johnston a question that was premised on a date that I believe you said was April 17. MS. CHARLOTTE MEEK (by phone): Yeah. MR. STEVEN SCARFONE: So is that | 2 3 4 5 6 7 8 9 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will be in force on on May 15th. That's true, if that was the question. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I'm just reviewing some of these other pre- asks. I think I've covered a number of these points. | 85 |
| 2 3 4 5 6 7 8 9 10 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you asked Mr. Johnston a question that was premised on a date that I believe you said was April 17. MS. CHARLOTTE MEEK (by phone): Yeah. MR. STEVEN SCARFONE: So is that are these exhibits that you're making reference to | 2 3 4 5 6 7 8 9 10 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will be in force on on May 15th. That's true, if that was the question. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I'm just reviewing some of these other pre- asks. I think I've covered a number of these points. If we could go to Exhibit 2, Pre-Ask | 85 |
| 2 3 4 5 6 7 8 9 10 11 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you asked Mr. Johnston a question that was premised on a date that I believe you said was April 17. MS. CHARLOTTE MEEK (by phone): Yeah. MR. STEVEN SCARFONE: So is that are these exhibits that you're making reference to are those from the basis of that date that you've put | 2 3 4 5 6 7 8 9 10 11 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will be in force on on May 15th. That's true, if that was the question. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I'm just reviewing some of these other pre- asks. I think I've covered a number of these points. | 85 |
| 2 3 4 5 6 7 8 9 10 11 12 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you asked Mr. Johnston a question that was premised on a date that I believe you said was April 17. MS. CHARLOTTE MEEK (by phone): Yeah. MR. STEVEN SCARFONE: So is that are these exhibits that you're making reference to are those from the basis of that date that you've put to Mr. Johnston? | 2 3 4 5 6 7 8 9 10 11 12 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will be in force on on May 15th. That's true, if that was the question. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I'm just reviewing some of these other pre- asks. I think I've covered a number of these points. If we could go to Exhibit 2, Pre-Ask Number 3, please, Kristen. | 85 |
| 2 3 4 5 6 7 8 9 10 11 12 13 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you asked Mr. Johnston a question that was premised on a date that I believe you said was April 17. MS. CHARLOTTE MEEK (by phone): Yeah. MR. STEVEN SCARFONE: So is that are these exhibits that you're making reference to are those from the basis of that date that you've put to Mr. Johnston? MS. CHARLOTTE MEEK (by phone): Yes. | 2 3 4 5 6 7 8 9 10 11 12 13 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will be in force on on May 15th. That's true, if that was the question. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I'm just reviewing some of these other pre- asks. I think I've covered a number of these points. If we could go to Exhibit 2, Pre-Ask | 85 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you asked Mr. Johnston a question that was premised on a date that I believe you said was April 17. MS. CHARLOTTE MEEK (by phone): Yeah. MR. STEVEN SCARFONE: So is that are these exhibits that you're making reference to are those from the basis of that date that you've put to Mr. Johnston? MS. CHARLOTTE MEEK (by phone): Yes. So from the 17th of April to the end of the month, | 2 3 4 5 6 7 8 9 10 11 12 13 14 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will be in force on on May 15th. That's true, if that was the question. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I'm just reviewing some of these other pre- asks. I think I've covered a number of these points. If we could go to Exhibit 2, Pre-Ask Number 3, please, Kristen. (BRIEF PAUSE) | 85 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you asked Mr. Johnston a question that was premised on a date that I believe you said was April 17. MS. CHARLOTTE MEEK (by phone): Yeah. MR. STEVEN SCARFONE: So is that are these exhibits that you're making reference to are those from the basis of that date that you've put to Mr. Johnston? MS. CHARLOTTE MEEK (by phone): Yes. So from the 17th of April to the end of the month, there are only three (3) days where the temperature high was not above 11 degrees. And then the other photograph provides evidence from the 17th of April onwards demonstrating, obviously, not every day, but for a majority of the days, clear road conditions that don't have any snow or ice on the road, which I would submit make it reasonable that motorcyclists could be riding. And I | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | MR. LUKE JOHNSTON: Yeah, for any veh I think I heard the question. For any vehicle, I can't absolutely confirm that that the policy will be in force on on May 15th. That's true, if that was the question. MS. CHARLOTTE MEEK (by phone): Okay. Okay. I'm just reviewing some of these other pre- asks. I think I've covered a number of these points. If we could go to Exhibit 2, Pre-Ask Number 3, please, Kristen. (BRIEF PAUSE) MS. CHARLOTTE MEEK (by phone): Maybe you could just tell me when you're there. My computer's being a little bit slow. Is it up on the screen now? MR. LUKE JOHNSTON: Sorry, I I can see the question, yes. MS. CHARLOTTE MEEK (by phone): Okay, | 85 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | MR. STEVEN SCARFONE: So Ms. Meek, just to sorry, it's Steve Scarfone again. Sorry to interject. MS. CHARLOTTE MEEK (by phone): Okay. MR. STEVEN SCARFONE: Earlier, you asked Mr. Johnston a question that was premised on a date that I believe you said was April 17. MS. CHARLOTTE MEEK (by phone): Yeah. MR. STEVEN SCARFONE: So is that are these exhibits that you're making reference to are those from the basis of that date that you've put to Mr. Johnston? MS. CHARLOTTE MEEK (by phone): Yes. So from the 17th of April to the end of the month, there are only three (3) days where the temperature high was not above 11 degrees. We've done a calculation of those savings and tried to rebate that those funds to the customers that we think most equitably deserve those amounts because they've overpaid on premiums at that time. MS. CHARLOTTE MEEK (by phone): Okay. Thank you very much, Mr. Johnston. Those are my questions. MR. LUKE JOHNSTON: Thank you. THE BOARD CHAIR: Sorry, Mr. Johnston, just as a follow-up. My understanding is that MPI's | 87 | $\begin{array}{c} 2\\ 3\\ 4\\ 5\\ 6\\ 7\\ 8\\ 9\\ 10\\ 11\\ 12\\ 13\\ 14\\ 15\\ 16\\ 17\\ 18\\ 19\\ 20\\ 21\\ 22\\ 23\end{array}$ | THE PANEL CHAIRPERSON: Thank you, everyone. I wondered if we could, before we get going again, just do a a roll call for who is back on. So the two (2) panel members Robert Vanderwater and Carol Hainsworth, are you both on? MR. ROBERT VANDERWATER (by phone): Yeah, Rob Vanderwater. I'm here. MS. CAROL HAINSWORTH (by phone): I'm I'm THE PANEL CHAIRPERSON: Okay. Thank you. MS. CAROL HAINSWORTH (by phone): Carol Hainsworth. I'm here. THE PANEL CHAIRPERSON: Thank you. Ms. Meek? (BRIEF PAUSE) THE PANEL CHAIRPERSON: Mr. Unfried? | 89 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | And you'd agree with me, Mr. Johnston, that the motorcycle class, similarly to any other vehicle class, would have suffered the economic impacts of the COVID-19 pandemic? MR. LUKE JOHNSTON: Again, we're not trying to pay a rebate here as an attempt to quantify any kind of personal suffering. What MPI does is it collects premiums and pays claims. We have evidence that these the premiums we've collected are quite a bit more than necessary for the claims that were reported in this period. We've done a calculation of those savings and tried to rebate that those funds to the customers that we think most equitably deserve those amounts because they've overpaid on premiums at that time. MS. CHARLOTTE MEEK (by phone): Okay. Thank you very much, Mr. Johnston. Those are my questions. MR. LUKE JOHNSTON: Thank you. THE BOARD CHAIR: Sorry, Mr. Johnston, | 87 | $\begin{array}{c} 2\\ 3\\ 4\\ 5\\ 6\\ 7\\ 8\\ 9\\ 10\\ 11\\ 12\\ 13\\ 14\\ 15\\ 16\\ 17\\ 18\\ 20\\ 21\\ 22\end{array}$ | THE PANEL CHAIRPERSON: Thank you, everyone. I wondered if we could, before we get going again, just do a a roll call for who is back on. So the two (2) panel members Robert Vanderwater and Carol Hainsworth, are you both on? MR. ROBERT VANDERWATER (by phone): Yeah, Rob Vanderwater. I'm here. MS. CAROL HAINSWORTH (by phone): I'm I'm THE PANEL CHAIRPERSON: Okay. Thank you. MS. CAROL HAINSWORTH (by phone): Carol Hainsworth. I'm here. THE PANEL CHAIRPERSON: Thank you. Ms. Meek? (BRIEF PAUSE) THE PANEL CHAIRPERSON: Mr. | 89 |

| | 90 | | 9 | 92 |
|---|--|--|--|----|
| 8 9 10 11 12 13 14 15 16 17 18 | THE PANEL CHAIRPERSON: Okay, we will proceed. Ms. McCandless? CROSS-EXAMINATION BY BOARD COUNSEL: MS. KATHLEEN MCCANDLESS: Thank you, Madam Chair. And this morning, MPI filed a number of responses to pre-asks that were sent on behalf of the Board yesterday, so thank you for that. The majority of our questions that have been answered and already put on the record, so I I just have some follow-up in terms of what ground was covered by Mr. Williams and Ms. Meek this morning. Before I do that, though, just a couple matters of housekeeping. So first, I'll address these questions to you, Mr. Johnston. Would you accept that the Corporation bears the onus of proof to substantiate the rebate application? | 6 7 8 9 10 11 12 13 14 15 16 17 18 | 1, 2020, and May 15, 2020, represents approximately 10 percent of the riding season, yes? MR. LUKE JOHNSTON: That's right. MS. KATHLEEN MCCANDLESS: And then MPI at b) says it's unable to recognize this within the rebate application, because it cannot predict how how many I think that should read "many" motorcycle policies will be in force and earning premium on May 1, 2020, and to whom those policies will be issued, yes? MR. LUKE JOHNSTON: That's right, and we we admitted that that's true for any vehicle. Motorcycles, again, I want to emphasize about 90 percent of these are pleasure use, and much of what we're talking about now is the inability to go to work, school, daycare, et cetera. This is a a different population where almost all the vehicles are pleasure, so it | 12 |
| 19 20 21 | MR. LUKE JOHNSTON: We do. MS. KATHLEEN MCCANDLESS: Thank you. And the Corporation bears the onus of establishing | 19 20 21 | 5 5 | |
| 22 23 | that the proposed rebate is just and reasonable? MR. LUKE JOHNSTON: Yes. | 22 23 | they it's quite possible they can cancel premium. MS. KATHLEEN MCCANDLESS: In terms of the earning period in this application, what | |
| 24 25 | MS. KATHLEEN MCCANDLESS: Thank you. | | proportion of the earning period applies for all | |
| | | | | |
| | 91 | | 9 | 93 |
| 1 | 91 (BRIEF PAUSE) | 1 | | 93 |
| 1 2 3 4 | | 1 2 3 4 | | 93 |
| 2 3 4 5 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI | 2 3 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to | 93 |
| 2 3 4 5 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the | 2 3 4 5 6 7 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in | 93 |
| 2 3 4 5 6 7 8 9 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit | 2 3 4 5 6 7 8 9 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type | 93 |
| 2 3 4 5 6 7 8 9 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. | 2 3 4 5 6 7 8 9 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The I'm trying to think offhand if | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit | 2 3 4 5 6 7 8 9 10 11 12 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The I'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would | 93 |
| 2 3 4 5 6 7 8 9 10 11 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. | 2 3 4 5 6 7 8 9 10 11 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The I'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: So the questions here that were asked of MPI were: | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The I'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or RVs being some of the obvious exceptions. MS. KATHLEEN MCCANDLESS: Right. So | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: So the questions here that were asked of MPI were: "a) What portion of the motorcycle | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The I'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or RVs being some of the obvious exceptions. MS. KATHLEEN MCCANDLESS: Right. So in terms of the earning period for all vehicles other | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: So the questions here that were asked of MPI were: "a) What portion of the motorcycle riding season falls within the March 15th to May 15th period, and b) | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The I'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or RVs being some of the obvious exceptions. MS. KATHLEEN MCCANDLESS: Right. So in terms of the earning period for all vehicles other than motorcycle, my math would say that that the earning period is 16.7 percent. | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: So the questions here that were asked of MPI were: "a) What portion of the motorcycle riding season falls within the March 15th to May 15th period, and b) Please indicate how MPI could | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The I'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or RVs being some of the obvious exceptions. MS. KATHLEEN MCCANDLESS: Right. So in terms of the earning period for all vehicles other than motorcycle, my math would say that that the earning period is 16.7 percent. Subject to check, would you agree with | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: So the questions here that were asked of MPI were: "a) What portion of the motorcycle riding season falls within the March 15th to May 15th period, and b) Please indicate how MPI could recognize this within the RSR rebate | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: 1'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The 1'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or RVs being some of the obvious exceptions. MS. KATHLEEN MCCANDLESS: Right. So in terms of the earning period for all vehicles other than motorcycle, my math would say that that the earning period is 16.7 percent. Subject to check, would you agree with that? | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: So the questions here that were asked of MPI were: "a) What portion of the motorcycle riding season falls within the March 15th to May 15th period, and b) Please indicate how MPI could recognize this within the RSR rebate proposal." | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: 1'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The 1'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or RVs being some of the obvious exceptions. MS. KATHLEEN MCCANDLESS: Right. So in terms of the earning period for all vehicles other than motorcycle, my math would say that that the earning period is 16.7 percent. Subject to check, would you agree with that? MR. LUKE JOHNSTON: 1 see. If if | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: So the questions here that were asked of MPI were: "a) What portion of the motorcycle riding season falls within the March 15th to May 15th period, and b) Please indicate how MPI could recognize this within the RSR rebate proposal." And then we see that the response at a) | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: 1'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The 1'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or RVs being some of the obvious exceptions. MS. KATHLEEN MCCANDLESS: Right. So in terms of the earning period for all vehicles other than motorcycle, my math would say that that the earning period is 16.7 percent. Subject to check, would you agree with that? MR. LUKE JOHNSTON: 1 see. If if you're taking approximately sixty (60) days, and | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 3 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: So the questions here that were asked of MPI were: "a) What portion of the motorcycle riding season falls within the March 15th to May 15th period, and b) Please indicate how MPI could recognize this within the RSR rebate proposal." And then we see that the response at a) below, there are one hundred and fifty-three (153) | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The I'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or RVs being some of the obvious exceptions. MS. KATHLEEN MCCANDLESS: Right. So in terms of the earning period for all vehicles other than motorcycle, my math would say that that the earning period is 16.7 percent. Subject to check, would you agree with that? MR. LUKE JOHNSTON: I see. If if you're taking approximately sixty (60) days, and dividing by three sixty-five (365), then I'll | 93 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: Now MPI Exhibit number 4 is the response to PUB-MPI pre-ask number 3. And we'll just have it up on the screen for your reference. Ms. Meek did have a number of questions for you, Mr. Johnston, with respect to the motorcycle treatment in the rebate application. So if we could go to that Exhibit number 4, please, Kristen. (BRIEF PAUSE) MS. KATHLEEN MCCANDLESS: So the questions here that were asked of MPI were: "a) What portion of the motorcycle riding season falls within the March 15th to May 15th period, and b) Please indicate how MPI could recognize this within the RSR rebate proposal." And then we see that the response at a) below, there are one hundred and fifty-three (153) days in the riding season between May 1, 2020, and | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 | vehicles other than motorcycle? (BRIEF PAUSE) MR. LUKE JOHNSTON: I'm just trying to understand the question. So in a general sense, by saying in force and and earning premium on March 15th, we're excluding all vehicles with seasonal type type earnings. The I'm trying to think offhand if there's what types could be different than motorcycles, but the vast majority of vehicles would earn uniformly over that period, again, motorcycles or RVs being some of the obvious exceptions. MS. KATHLEEN MCCANDLESS: Right. So in terms of the earning period for all vehicles other than motorcycle, my math would say that that the earning period is 16.7 percent. Subject to check, would you agree with that? MR. LUKE JOHNSTON: I see. If if you're taking approximately sixty (60) days, and dividing by three sixty-five (365), then I'll | 93 |

| | 94 | | | 96 |
|----|--|----|--|----|
| 1 | And the proportion that would apply to motorcycles | 1 | calculation, et cetera. | |
| 2 | | 2 | But yeah, we've no issue giving updates | |
| 3 | MR. LUKE JOHNSTON: The math in in | 3 | on how the pandemic has impacted different vehicle | |
| 4 | part A is the that that stretch of time reflects | | types as part of the GRA, IRs, for example. Again, we | |
| 5 | that that exposure period. | | | |
| 6 | Again, just not to overemphasize | 6 | MS. KATHLEEN MCCANDLESS: Thank you. | |
| 7 | this, but we are looking at observed claims reductions | 7 | And I I will have some more questions for you in a | |
| 8 | or observed reduced exposure for impacted vehicles | 8 | moment. I just wanted to ask Mr. Giesbrecht one (1) | |
| 9 | over stretch of time. At at this point in time, I | 9 | question in follow-up to the questions from Mr. | |
| 10 | have no evidence to support that motorcycles will see | 10 | Williams about the Extension results. | |
| 11 | a 60 percent frequency reduction. | 11 | I I gather that there may be an | |
| 12 | So when we say "earned," we we we | 12 | adjustment to 2019/'20 results after the books are | |
| 13 | mean exposure. It's not clear, and I have no way of | 13 | closed until the financial statements. | |
| 14 | providing evidence to support that motorcycles would | 14 | Would that be accurate? | |
| 15 | see 10 percent of their riding season have a 60 | 15 | MR. MARK GIESBRECHT: That's true. | |
| 16 | percent reduction in frequency. | 16 | MS. KATHLEEN MCCANDLESS: So there may | l. |
| 17 | MS. KATHLEEN MCCANDLESS: Okay. And | 17 | be an adjustment in 2019'20 to transfer Extension | |
| 18 | so that 60 percent, I think you're just for the | 18 | access that is not reflected yet in this application. | |
| 19 | purposes of clarification, that's the ratio of 10 | 19 | Would that be fair? | |
| 20 | percent to 16.7 percent, correct? So the earning | 20 | MR. MARK GIESBRECHT: There may be | |
| 21 | period for motorcycles versus all other vehicles? | 21 | additional excess capital that we flow back in | |
| 22 | MR. LUKE JOHNSTON: Purely on | 22 | 2020/'21, but not in the year 2019/2020. | |
| 23 | earnings? Yes. Yeah. | 23 | MS. KATHLEEN MCCANDLESS: And now this | |
| 24 | MS. KATHLEEN MCCANDLESS: And so maybe | 24 | question is either for Mr. Johnston or Mr. Giesbrecht. | |
| 25 | just to clarify again, so then my understanding is | 25 | What what would MPI say is the key | |
| | | | | |

95

| 1 | that motorcycles, bearing in mind that ratio, has 60 | 1 | or central evidence that the Board should be looking |
|----|--|----|--|
| | percent of the exposure that all other vehicles do? | | to to ensure that granting the rebate sought would not |
| 3 | | | result in future rate increases to policyholders? |
| 4 | So if in in the case of the rebate, we're | 4 | MR. LUKE JOHNSTON: So a a very |
| | saying, it's not normal times. If normal exposure is | 5 | good question. So we've collected a a month of |
| | a hundred, we're seeing forty (40) in terms of costs. | 6 | of data. The results are compelling. As you you |
| | That's why we're doing the rebate. | 7 | know, if you been here for years, collision frequency, |
| 8 | , , | 8 | particularly outside of winter, is extremely stable. |
| 9 | is correct. Counting actual exposure to normal claims | 9 | To see weekly results come in at 40, 50, 60 percent |
| 10 | costs on a break-even basis, not not it's not | 10 | under budget is is obviously unheard of. |
| 11 | equal. Yeah. | 11 | We have that money in hand, |
| 12 | MS. KATHLEEN MCCANDLESS: MPI is | 12 | essentially. The claims didn't didn't come in. We |
| 13 | planning to give rebates to pleasure use private | 13 | have evidence, at least initially, that there wasn't |
| 14 | passenger vehicles? | 14 | drastic changes in and, you know, everyone |
| 15 | MR. LUKE JOHNSTON: That's true. | 15 | cancelling their insurance. |
| 16 | MS. KATHLEEN MCCANDLESS: And if MPI | 16 | We don't believe it's a a stretch to |
| 17 | does eventually see a a reduction in motorcycle | 17 | suggest that we'll see reduced frequency for at least |
| 18 | claims, is MPI looking at doing anything in the future | 18 | a month. Recognize that we didn't go, you know, push |
| 19 | with respect to that? | 19 | it out four (4) or five (5) months. We didn't think |
| 20 | MR. LUKE JOHNSTON: That's a good | 20 | that was appropriate. We obviously don't know when |
| 21 | question. So as we spoke this morning with Mr. | 21 | this is going to going to end. But we thought an |
| 22 | Williams, we'll definitely be continuing to track | 22 | extra month was definitely a reasonable assumption. |
| 23 | this. The motorcyclists will if there is, say, for | 23 | And then as you've seen now that you |
| 24 | example, slightly better experience, that would | 24 | have some of the actual results from '19/'20, MPI is |
| 25 | obviously feed into their normal ratemaking | 25 | in a very strong financial position. If we were an |
| | | | |

| | 98 | | | 100 |
|--|---|--|--|-----|
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | 98 insurer that, for example, had a lot invested in the stock market, and we really took a major hit, and the MCT was in trouble, and and all and all of that, this question would be the the whole rebate idea would be a bit more difficult. How how do we rebate when we're in - - in dire straits, right? We're not in dire straits at all. We're we have more excess funds in Basic and Extension. So even if our projections are a little bit off on premium or claims, it's not going to put us in a in a detrimental position. THE BOARD CHAIRPERSON: Sorry, can I just ask a quest point of clarification. Mr. Johnson, when you said you pushed it out a month, is this the April 15 to May 15 period you're talking about, or are you talking about a a month from May 15th? MR. LUKE JOHNSTON: So we have | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | year, it grew to 87 percent after the first quarter, and then it's hovered between eighty (80) and ninety (90), kind of there thereon, and now in around to the hundred percent range. So and we're not forecasting that to that to drop going forward, because the substance of the rebate is based on claims savings assumed to happen between that that period. And so we will remain in a strong financial position post rebate. MR. STEVEN SCARFONE: Ms. McCandless, I think that was a good question, because you've got all of our attention. Just to assist the Board, I think the evidence that in the application itself, if if the Board was to look at page 16, lines 1 through 9, that may also assist the Board in in getting that confidence that the Board counsel has alluded to. MR. LUKE JOHNSTON: One (1) one (1) | 100 |
| | evidence for that first month of March to April 15th | | other piece I would add to that maybe I'll let you | |
| 20 | THE BOARD CHAIRPERSON: Yeah. | | read it first, but we we are about to come for | |
| 21 | MR. LUKE JOHNSTON: and then we | 21 | another application for the '21 rates, so you'll get a | |
| 22 | thought it was reasonable to do one (1) more. THE BOARD CHAIRPERSON: Second month - | | an update on our position very soon. And as you can tell by some of the projections right now that are | |
| | - this | | having MCT push into the 130 percent plus range, we're | |
| 25 | MR. LUKE JOHNSTON: Yeah. | | not going to be asking for a rebuilding fee if we | |
| | | | | |
| | 99 | | | 101 |
| 1 | THE BOARD CHAIRPERSON: it's the | | filed today or anything even close to that. So that's | 101 |
| 2 | THE BOARD CHAIRPERSON: it's the assumed month? | 2 | another source, I guess, of confidence that we can af | 101 |
| 2 3 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. | 2 | another source, I guess, of confidence that we can af we can afford this. | 101 |
| 2 3 4 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank | 2 3 4 | another source, I guess, of confidence that we can af | 101 |
| 2 3 4 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. | 2 3 4 5 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. | 101 |
| 2 3 4 5 6 7 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact | 2 3 4 5 6 7 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent | 101 |
| 2 3 4 5 6 7 8 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if | 2 3 4 5 6 7 8 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? | 101 |
| 2 3 4 5 6 7 8 9 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, | 2 3 4 5 6 7 8 9 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat | 101 |
| 2 3 4 5 6 7 8 9 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if | 2 3 4 5 6 7 8 9 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? | 101 |
| 2 3 4 5 6 7 8 9 10 11 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and | 2 3 4 5 6 7 8 9 10 11 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think | 2 3 4 5 6 7 8 9 10 11 12 13 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of | 2 3 4 5 6 7 8 9 10 11 12 13 14 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories combined. | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of course, we'll report to the Board what's what's | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories combined. MR. LUKE JOHNSTON: My apologies. | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories combined. | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of course, we'll report to the Board what's what's actually happened as it does. Yeah. | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories combined. MR. LUKE JOHNSTON: My apologies. Yes, so on a overall basis of vehicles on the road in | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of course, we'll report to the Board what's what's actually happened as it does. Yeah. MR. MARK GIESBRECHT: And I'll just add to that that response. One (1) way of looking at our ability to pay the rebate is again looking at | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories combined. MR. LUKE JOHNSTON: My apologies. Yes, so on a overall basis of vehicles on the road in that stretch of time, there is about a 60 percent frequency reduction in the March 15th to April 15th period. | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of course, we'll report to the Board what's what's actually happened as it does. Yeah. MR. MARK GIESBRECHT: And I'll just add to that that response. One (1) way of looking at our ability to pay the rebate is again looking at the tracking of our capital position and our MCT. | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories combined. MR. LUKE JOHNSTON: My apologies. Yes, so on a overall basis of vehicles on the road in that stretch of time, there is about a 60 percent frequency reduction in the March 15th to April 15th period. MS. KATHLEEN MCCANDLESS: How much | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of course, we'll report to the Board what's what's actually happened as it does. Yeah. MR. MARK GIESBRECHT: And I'll just add to that that response. One (1) way of looking at our ability to pay the rebate is again looking at the tracking of our capital position and our MCT. And if I just look back at the last | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories combined. MR. LUKE JOHNSTON: My apologies. Yes, so on a overall basis of vehicles on the road in that stretch of time, there is about a 60 percent frequency reduction in the March 15th to April 15th period. MS. KATHLEEN MCCANDLESS: How much variation in that reduction would you estimate might | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of course, we'll report to the Board what's what's actually happened as it does. Yeah. MR. MARK GIESBRECHT: And I'll just add to that that response. One (1) way of looking at our ability to pay the rebate is again looking at the tracking of our capital position and our MCT. And if I just look back at the last number of quarters and go back a couple years, at | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories combined. MR. LUKE JOHNSTON: My apologies. Yes, so on a overall basis of vehicles on the road in that stretch of time, there is about a 60 percent frequency reduction in the March 15th to April 15th period. MS. KATHLEEN MCCANDLESS: How much variation in that reduction would you estimate might exist for certain territories or classes? | 101 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of course, we'll report to the Board what's what's actually happened as it does. Yeah. MR. | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | THE BOARD CHAIRPERSON: it's the assumed month? MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: Okay. Thank you. MR. LUKE JOHNSTON: And to be clear, we we know it's just not going to stay at the exact same reduction for the next month. The reality is if if say it's, you know, 50 percent reduction now, it's going to start recovering a little bit, and probably extend a little beyond May 15th. Like, that's realistic. But in in general, what we think we're comfortable with the two (2) months, and of course, we'll report to the Board what's what's actually happened as it does. Yeah. MR. MARK GIESBRECHT: And I'll just add to that that response. One (1) way of looking at our ability to pay the rebate is again looking at the tracking of our capital position and our MCT. And if I just look back at the last number of quarters and go back a couple years, at | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | another source, I guess, of confidence that we can af we can afford this. MS. KATHLEEN MCCANDLESS: Mr. Johnston, just one (1) follow-up to your response on the the 60 percent issue with motorcycles. So MPI has estimated a re reduction of about 60 percent for all classes and territories combined, yes? MR. LUKE JOHNSTON: Can you repeat that? MS. KATHLEEN MCCANDLESS: So in your forecasting, you've estimated a reduction of about 60 percent in claims for all classes and territories combined. MR. LUKE JOHNSTON: My apologies. Yes, so on a overall basis of vehicles on the road in that stretch of time, there is about a 60 percent frequency reduction in the March 15th to April 15th period. MS. KATHLEEN MCCANDLESS: How much variation in that reduction would you estimate might exist for certain territories or classes? | 101 |

| | | 102 | | | 104 |
|--|--|-----|--|--|-----|
| 1 | we if we were to try to parse in the hundreds of | | 1 | So just Mr. Giesbrecht can chime in | |
| | different rating classification, that'd be a a very | | 2 | if my numbers are off, but at a high level, 100 | |
| | messy exercise. | | | million would probably generate about a 50 million | |
| 4 | So our approach was, especially for | | | offsetting impact on on fixed income related to the | |
| 5 | rebates, to use the broadest interpretation as | | | assets backing the pension. So it's not one to one, | |
| | possible, and that given that as as an entire | | | but a partial offset. | |
| | fleet, our results were about 60 percent under budget | | 7 | MR. MARK GIESBRECHT: Yes, I believe | |
| | on frequency, that group we thought would be | | 8 | | |
| | appropriate to rebate to. And the only groups that we | | 9 | MR. LUKE JOHNSTON: Thanks. | |
| | excluded were ones that we we thought it was pretty | | 10 | MS. KATHLEEN MCCANDLESS: Thank you. | |
| | obvious that they were not part of that experience in | | 11 | Now, Mr. Johnston or Mr. Giesbrecht, either of you or | |
| | any way. | | | both of you may respond to this one. If this trend of | |
| 13 | And again, it's nothing I don't have | | | reduced claims continues, does MPI anticipate making | |
| 14 | any bad feelings for the motorcyclists or anything. | | | further adjustments later this year? | |
| | It's just they clearly weren't driving in March, and | | 15 | MR. LUKE JOHNSTON: So as mentioned, | |
| | they didn't contribute to that or pay any premiums, so | | 16 | we're we're finishing year end. We'll continue to | |
| 17 | anyone that meets those kind of criteria, like | | | | |
| | snowmobiles or other ORVs, aren't in the rebate as | | | and and board and including up into and | |
| 19 | proposed. | | 19 | including the what's probably the last possible | |
| 20 | MS. KATHLEEN MCCANDLESS: So I think, | | 20 | update would be about the September or so update for | |
| 21 | then, there's a recognition that not all territories | | 21 | the Public Utilities Board. So yeah, we'll continue | |
| 22 | and classes may experience a similar reduction. There | | 22 | to stay on top of those. | |
| 23 | there could be some variation, yes? | | 23 | The difficulty, depending on how long | |
| 24 | MR. LUKE JOHNSTON: Definitely. Like, | | 24 | this pandemic continues, will be, of course, how long | |
| 25 | there's there's no way that this is perfectly the | | 25 | the claims savings continue or whatever other impacts | |
| | | | | | |
| | | 103 | | | 105 |
| 1 | same for every vehicle or territory. But on the | 103 | 1 | are are happening. To date, we've assumed that | 105 |
| | same for every vehicle or territory. But on the whole, of active vehicles, we know that it is 60 | 103 | | are are happening. To date, we've assumed that next year is kind of back to normal, so hopefully | 105 |
| 2 | | 103 | | next year is kind of back to normal, so hopefully | 105 |
| 2 | whole, of active vehicles, we know that it is 60 | 103 | 2 | next year is kind of back to normal, so hopefully | 105 |
| 2 3 4 | whole, of active vehicles, we know that it is 60 percent. | 103 | 2 3 4 | next year is kind of back to normal, so hopefully that's true. | 105 |
| 2 3 4 5 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then | 103 | 2 3 4 5 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and | 105 |
| 2 3 4 5 6 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to | 103 | 2 3 4 5 6 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're | 105 |
| 2 3 4 5 6 7 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? | 103 | 2 3 4 5 6 7 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to | 105 |
| 2 3 4 5 6 7 8 9 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a | 103 | 2 3 4 5 6 7 8 9 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. | 105 |
| 2 3 4 5 6 7 8 9 10 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, | 103 | 2 3 4 5 6 7 8 9 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, | 105 |
| 2 3 4 5 6 7 8 9 10 11 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It | 103 | 2 3 4 5 6 7 8 9 10 11 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It so it is quite dramatic, and we have seen movement | 103 | 2 3 4 5 7 8 9 10 11 12 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board the Public Utilities Board as well on an ongoing | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 13 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It so it is quite dramatic, and we have seen movement in in interest rates since the end of March, and | 103 | 2 3 4 5 6 7 8 9 10 11 12 13 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board the Public Utilities Board as well on an ongoing basis? | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It so it is quite dramatic, and we have seen movement in in interest rates since the end of March, and and that'll continue to to move. | 103 | 2 3 4 5 6 7 8 9 10 11 12 13 14 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board the Public Utilities Board as well on an ongoing basis? MR. LUKE JOHNSTON: Yeah. Our | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It so it is quite dramatic, and we have seen movement in in interest rates since the end of March, and and that'll continue to to move. It is a it's a long-term, you know, | 103 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board the Public Utilities Board as well on an ongoing basis? MR. LUKE JOHNSTON: Yeah. Our expectation was, at least through the IR process, it | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It so it is quite dramatic, and we have seen movement in in interest rates since the end of March, and and that'll continue to to move. It is a it's a long-term, you know, valuation, and it is it's a unrealized paper | 103 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board the Public Utilities Board as well on an ongoing basis? MR. LUKE JOHNSTON: Yeah. Our expectation was, at least through the IR process, it would be reasonable you know, What's your latest | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It so it is quite dramatic, and we have seen movement in in interest rates since the end of March, and and that'll continue to to move. It is a it's a long-term, you know, valuation, and it is it's a unrealized paper movement; however, it will impact the calculation of | 103 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board the Public Utilities Board as well on an ongoing basis? MR. LUKE JOHNSTON: Yeah. Our expectation was, at least through the IR process, it would be reasonable you know, What's your latest update on the rate indication? Especially given the | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It so it is quite dramatic, and we have seen movement in in interest rates since the end of March, and and that'll continue to to move. It is a it's a long-term, you know, valuation, and it is it's a unrealized paper movement; however, it will impact the calculation of the MCT if it goes up or down. | 103 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board the Public Utilities Board as well on an ongoing basis? MR. LUKE JOHNSTON: Yeah. Our expectation was, at least through the IR process, it would be reasonable you know, What's your latest update on the rate indication? Especially given the pandemic, we figured that would be a popular request, | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It so it is quite dramatic, and we have seen movement in in interest rates since the end of March, and and that'll continue to to move. It is a it's a long-term, you know, valuation, and it is it's a unrealized paper movement; however, it will impact the calculation of the MCT if it goes up or down. MR. LUKE JOHNSTON: If I if I can | 103 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board the Public Utilities Board as well on an ongoing basis? MR. LUKE JOHNSTON: Yeah. Our expectation was, at least through the IR process, it would be reasonable you know, What's your latest update on the rate indication? Especially given the pandemic, we figured that would be a popular request, so we've no issue providing those updates. It it's | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | whole, of active vehicles, we know that it is 60 percent. MS. KATHLEEN MCCANDLESS: And then with respect to the Basic MCT, what would happen to the MCT if the discount rate applicable to the pension valuation dropped back down by 1 percent to the level that it was previously at? MR. MARK GIESBRECHT: I can give a ballpark estimate. One (1) percent, subject to check, I would say somewhere to the tune of \$100 million. It so it is quite dramatic, and we have seen movement in in interest rates since the end of March, and and that'll continue to to move. It is a it's a long-term, you know, valuation, and it is it's a unrealized paper movement; however, it will impact the calculation of the MCT if it goes up or down. MR. LUKE JOHNSTON: If I if I can just add to that, we have to be cautious not to look | 103 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | next year is kind of back to normal, so hopefully that's true. But when we're doing rate making and other calculations in the in the future, we're probably going to have to look back at this period and say, That's probably an outlier. Might need to exclude that. MS. KATHLEEN MCCANDLESS: Thank you. And in terms of that monthly reporting to the board, is that something that could be provided to the Board the Public Utilities Board as well on an ongoing basis? MR. LUKE JOHNSTON: Yeah. Our expectation was, at least through the IR process, it would be reasonable you know, What's your latest update on the rate indication? Especially given the pandemic, we figured that would be a popular request, so we've no issue providing those updates. It it's about a month lag from the end of the month, just | 105 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | whole, of active vehicles, we know that it is 60 percent. MS. |---|--|---|---|-----|
| 2 | does MPI have in mind what mechanism it might use to do so? | 1 | People buy insurance for the full year but are away for the first three (3) months of the | |
| 3 | (BRIEF PAUSE) | 3 4 5 | year, so they're not driving their vehicle here. Are they eligible for the rebate? MR. LUKE JOHNSTON: So right now, if | |
| 66 7 8 9 100 111 122 133 144 155 166 177 188 19 200 211 222 | MR. MARK GIESBRECHT: We'll have to monitor how things evolve and and assess what is the best cor course of action at that at that point in time. We're hopeful that the pandemic is starting to move in the right direction and things are moving towards a new normal and a and a rebate like this wouldn't be necessary. But if things continue and there are dramatic reductions in claims that continue for a lengthy period of time, then it would we'd have to consider an option like this again, potentially. MR. LUKE JOHNSTON: The the magnitude of the impact, obviously, is pretty critical. You know, issuing a rebate for \$10 million would wouldn't make a lot of sense. So we just happen to be in a position right now where 100 million or so is a sizeable amount that it makes sense to | 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | in your example, they put their policy in for, say, March 20th, and so they weren't here THE BOARD CHAIRPERSON: No, what I'm saying is they're paying they're they're they pay their premiums every year for the full year. It's just that they're not driving their vehicle. MR. LUKE JOHNSTON: I see. So yeah, that kind of goes back to our inability to, you know, fine tune every every rebate amount. If they were paying and they participated in the 60 percent claims reduction, we're saying, Yeah, you should get the rebate. THE BOARD CHAIR: Okay. If if you could clarify something in relation to your application, on page 19, there's a forecast 68.6 million capital transfer anticipated from Extension to Basic. That didn't happen, correct? | |
| 24 | issue seven hundred thousand (700,000) cheques. But if we were to come here and say, Okay, we'll only you know, we think maybe we're | | MR. MARK GIESBRECHT: So as of 2019/'20, there has been no transfer at year end at this point in time. That's correct. | |
| | 107 | $\left \right $ | | 109 |
| 1 | 107 going to make an extra \$10 to \$15 million, that | 1 | THE BOARD CHAIR: Right. But at at | 109 |
| 3 4 5 | it'd be tough to justify warranting a a rebate cheque for such an amount. So it'd have to be pretty substantial. That would that would be | 3 4 5 | the time, there was there was going there was anticipated to be one. There was an excess of 68.6 million above the 200 percent target, and under the Capital Management Plan, anything above the 200 percent target would be transferred. MR. MARK GIESBRECHT: So | |
| 8 | that March 31? | 8 | THE BOARD CHAIR: Is that correct? MR. MARK GIESBRECHT: the the 68 | |
| 10 11 12 13 | MS. KATHLEEN MCCANDLESS: Thank you. Those are all my questions. THE PANEL CHAIRPERSON: Thank you, Ms. McCandless. | 10 11 12 13 | is the forecasted amount to remain at the end of 2020/'21, which would flow through the normal course of the CMP. THE BOARD CHAIR: Okay. And instead, | |
| | THE BOARD CHAIRPERSON: I don't know who I'm directing this to, but it'll either be Mr. | 15 16 | there was a a decision made by the Corporation supported by government that there would be a \$52 million rebate from Extension directly to customers. Is that correct? | |
| | | 18 19 | Is that correct? MR. MARK GIESBRECHT: Correct. That - - and that was based on a forecast that was made at at a prior point in time. THE BOARD CHAIR: Okay. I I'm | |
| 22 23 24 | I'll I'll define it as people who are not in Manitoba during the period January 1st to March 31st and are are down either in the United States or some other place to avoid winter. | 22 23 | using very simple logic. Is there \$16 million in ex - - in the Extension reserve that would not be there if the transfer had occurred as of March 30th? MR. LUKE JOHNSTON: So the we were | |

| 110 | 112 |
|---|--|
| 1 going to do a re-direct on this question, so maybe | 1 No, I'm fine. Thanks very much. |
| 2 I'll answer it any now. So Mr. Williams was kind | 2 THE PANEL CHAIRPERSON: Thank you. I |
| 3 of implying that we had a whole bunch of Extension | 3 have one (1) point, just as a matter of clarification |
| 4 money sitting there, in the tens of millions of | 4 so that I can confirm my understanding of this. |
| 5 dollars. If you go not not to necessarily over- | 5 Page 16, to which you referred, Mr. |
| 6 complicate this, but EPF-3, which is page 15 of our | 6 Scarfone, talked about the proposed rebate being |
| 7 application sorry, of the exhibits, pardon me. | 7 tantamount to a capital release under the CMP. That |
| 8 THE BOARD CHAIR: Okay. Sorry, 'E' | 8 capital release would be applicable to all vehicle |
| 9 EPF-3 | 9 classes. Is that correct? |
| 10 MR. LUKE JOHNSTON: So if you look in | 10 MR. LUKE JOHNSTON: Capital releases |
| 11 the '19/'20 column, you'll see at the bottom of that | 11 would be applied equally on the assumption that, |
| 12 '19/'20 column, it says a 371 percent MCT ratio. If | 12 again, we charge everyone breakeven rates. If we have |
| 13 we had followed the Capital Management Plan rules, | 13 a good year, we assume that everybody contributed, so |
| 14 that would be 200 percent. So just really quick math, | 14 that's why we do it that way, yeah. |
| 15 if you look a line about one (1) line up, it says: | 15 THE PANEL CHAIRPERSON: Thank you. |
| 16 "Minimum capital required, 100 | 16 Anything further? Mr. Scarfone? |
| 17 percent MCT." | 17 |
| 18 Our minimum capital for Extension is | 18 RE-DIRECT EXAMINATION BY MR. STEVEN SCARFONE: |
| 19 200 percent MCT, so that would mean we need about 75 | 19 MR. STEVEN SCARFONE: Thank you, Madam |
| 20 million to maintain our 200 percent MCT ratio. If you | 20 Chair, just a few questions on redirect to both Mr. |
| 21 look above that, it says: | 21 Johnston and Mr. Giesbrecht. |
| 22 "Capital available, 139.7 million." | 22 Perhaps the the best place to start |
| 23 The difference between 139 and about 75 | 23 is just to follow up on a question that was just put |
| 24 million is I think about 64 million, subject to check. | 24 to you, Mr. Johnston, from Mr. Gabor, on the excess |
| 25 We're rebating 52 million of that, and then about an | 25 capital in the Extension reserve. |
| | |
| 111 | 113 |
| | |
| 1 extra 12 million will flow into the next year and re - | 1 So if I'm understanding what you've |
| | 1 So if I'm understanding what you've 2 just went through on on page 15 of 15, is is |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? | 1 So if I'm understanding what you've |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? THE BOARD CHAIRPERSON: Right. So I - | 1 So if I'm understanding what you've 2 just went through on on page 15 of 15, is is 3 another way of putting that that after the proposed 4 rebate is paid out, it would there would be |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? | 1 So if I'm understanding what you've 2 just went through on on page 15 of 15, is is 3 another way of putting that that after the proposed 4 rebate is paid out, it would there would be |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? THE BOARD CHAIRPERSON: Right. So I - I guess my point is that the difference is flowing | 1 So if I'm understanding what you've 2 just went through on on page 15 of 15, is is 3 another way of putting that that after the proposed 4 rebate is paid out, it would there would be 5 approximately \$11 million left over in Extension? |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? THE BOARD CHAIRPERSON: Right. So I - I guess my point is that the difference is flowing into the next year. | So if I'm understanding what you've just went through on on page 15 of 15, is is another way of putting that that after the proposed rebate is paid out, it would there would be approximately \$11 million left over in Extension? MR. LUKE JOHNSTON: Approximate terms |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? THE BOARD CHAIRPERSON: Right. So I - I guess my point is that the difference is flowing into the next year. MR. LUKE JOHNSTON: Absolutely, yeah. | So if I'm understanding what you've just went through on on page 15 of 15, is is another way of putting that that after the proposed rebate is paid out, it would there would be approximately \$11 million left over in Extension? MR. LUKE JOHNSTON: Approximate terms recognizing that as Mr. Giesbrecht noted, we have |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? THE BOARD CHAIRPERSON: Right. So I - I guess my point is that the difference is flowing into the next year. MR. LUKE JOHNSTON: Absolutely, yeah. And no impact at all on the GRA because the all | So if I'm understanding what you've just went through on on page 15 of 15, is is another way of putting that that after the proposed rebate is paid out, it would there would be approximately \$11 million left over in Extension? MR. LUKE JOHNSTON: Approximate terms recognizing that as Mr. Giesbrecht noted, we have to close the books. So this is a is a forecast |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? THE BOARD CHAIRPERSON: Right. So I - I guess my point is that the difference is flowing into the next year. MR. LUKE JOHNSTON: Absolutely, yeah. And no impact at all on the GRA because the all monies would be transferred before the start of the | So if I'm understanding what you've just went through on on page 15 of 15, is is another way of putting that that after the proposed rebate is paid out, it would there would be approximately \$11 million left over in Extension? MR. LUKE JOHNSTON: Approximate terms recognizing that as Mr. Giesbrecht noted, we have to close the books. So this is a is a forecast incorporating everything that we know to the best of |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? THE BOARD CHAIRPERSON: Right. So I - I guess my point is that the difference is flowing into the next year. MR. LUKE JOHNSTON: Absolutely, yeah. And no impact at all on the GRA because the all monies would be transferred before the start of the '20/'21 rating year. THE BOARD CHAIRPERSON: Right. As I take it, it may simply be a timing issue? | So if I'm understanding what you've just went through on on page 15 of 15, is is another way of putting that that after the proposed rebate is paid out, it would there would be approximately \$11 million left over in Extension? MR. LUKE JOHNSTON: Approximate terms recognizing that as Mr. Giesbrecht noted, we have to close the books. So this is a is a forecast incorporating everything that we know to the best of our knowledge, those those the results will be finalizing on the you know, crystalize that number, but that's our current estimate. |
| extra 12 million will flow into the next year and re - be rebated as a part of the following year's full transfer to Basic. Is that does that make sense? THE BOARD CHAIRPERSON: Right. So I - I guess my point is that the difference is flowing into the next year. MR. LUKE JOHNSTON: Absolutely, yeah. | 1 Giesbrecht jump in if he wishes. | | 1 | those numbers. This is if we did not rebate, you | |
| 2 PF3, just in in simple terms on the | | | could add that money to this forecast, to this already | |
| 3 lines 18 and 19, you can see the you know, without | | | very good forecast, so we're very strong position. | |
| 4 applying for any rate changes MCT is projected to rise | | 4 | MR. STEVEN SCARFONE: A question for | |
| 5 up to 172 percent. Obviously that'll never happen | | 5 | | |
| 6 because we'll make applications to bring it back to | | | | |
| 7 100. | | 7 | You recall, Mr. Johnston, that Mr. | |
| 8 But one (1) thing when we had kind of | | 8 | | |
| 9 the initial call, MPI noted that the Board for the | | | | |
| 10 first time would see just how good of a year MPI had | | 10 | MR. LUKE JOHNSTON: It it could. I | |
| 11 in 19/20, just as an example. I believe reported | | 11 | do think there's a a when MPI reports, you know, | |
| 12 claims were about \$114 million under budget in the | | 12 | we're 60 percent under budget on claims frequency, I | |
| 13 year, which is a remarkable result. | | 13 | think there's I think expectation that MPI does | |
| 14 So we were going to be coming to this | | 14 | does something about that. | |
| 15 CRA with a very very good results anyways. And the | | 15 | So good news story or the right thing | |
| 16 pandemic situation, unfortunately for customers, but | | 16 | to do, however you want to interpret it, agreed. | |
| 17 not so much for us, has actually resulted in even | | 17 | MR. STEVEN SCARFONE: And and that, | |
| 18 better results, so we really felt the need to to | | 18 | of course, would be the result of the return of some | |
| 19 act, given the amount of monies we had or we're | | 19 | premiums paid by customers during the rebate period. | |
| 20 making from this situation. | | 20 | 5 | |
| 21 MR. STEVEN SCARFONE: And Mr. | | 21 | MR. LUKE JOHNSTON: That's right. | |
| 22 Giesbrecht, did you have anything to add to my | | 22 | MR. STEVEN SCARFONE: And so following | |
| 23 question to Mr. Johnston? | | | | |
| 24 MR. MARK GIESBRECHT: No, I think the | | | better phrased, the pros and cons of the rebate, the | |
| 25 numbers are quite clear that, you know, based on the | | 25 | \$58 million rebate, if approved, won't obviously be | |
| | | | | |
| | 115 | | | 117 |
| 1 current run rates at the capital position as it stands | 115 | 1 | available to reduce the rates in future GRAs, correct? | 117 |
| current run rates at the capital position as it stands today, it's forecasted to to grow, had we not make | 115 | 1 | available to reduce the rates in future GRAs, correct? MR. LUKE JOHNSTON: If we said you | 117 |
| | 115 | 2 | | 117 |
| 2 today, it's forecasted to to grow, had we not make | 115 | 2 3 | MR. LUKE JOHNSTON: If we said you | 117 |

|--|---|--|---|----------|
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | commissions, for example, lower premium taxes, things like that that are tied directly to premium. So by not paying this out through a premium reduction, brokers for example, save from having to have lower commission in the following year. MR. STEVEN SCARFONE: So, do I take that to mean that a rate reduction would, like we saw last year, would normally result in a reduction to some of MPI's expenses? MR. LUKE JOHNSTON: That's that's right, to the extent that MPI pays any expenses that are related to premium paid, premium tax and commission would be the most obvious ones. There may be some other on the financing side, but the two (2) big ones would be brokers are about 3.2 percent, and premium taxes are about 3 percent. So by if we had done re capital release provisions, we would not have had to pay those those amounts. (BRIEF PAUSE) MR. STEVEN SCARFONE: If I could have Exhibit 2, CMMG Pre-Ask number 3 back up on the screen, please. Thank you, Kristen. | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 | evidence of participation in the the claim savings would be the second one. MR. STEVEN SCARFONE: Mr. Giesbrecht, | |

| cancellations from what we had previously reported. On the layup side, there are a little bit of a a larger year-over-year change; however, I'm only talking a few thousand policies, and therefore, it doesn't change in any meaningful way our revenue forecasts. MR. LUKE JOHNSTON: Just an additional point on that. As you know, Basic the at least the intent is to break even. As customers switch to layup and buy Extension policies, those policies are profitable. At least, they're sold with a profit target in mind. So there is a little bit of interplay between the two (2). If if the two (2) lines of business if more vehicles go on layup, MPI will likely make more profit on Extension, and premiums will go down a bit on Basic and up on Extension. That would simply mean transferring more funds from Extension to Basic at the end of the year. It's not by no mean a perfect match, but if premiums are down a little bit on Basic, there is a bit of a hedge on Extension. MR. STEVEN SCARFONE: And Mr. Johnston, again, dealing with the questions put to you by Ms. Meek, the riding period, as I understand it, commences May 1, correct? | 1 MR. LUKE JOHNSTON: In terms of hard 2 evidence such as claims numbers, I don't obviously, 3 I don't have those 'cause it hasn't happened yet. The 4 again, I'll reiterate about I don't know if I 5 quoted this, but about 90 percent of motorcycles are 6 on pleasure use. It's not obvious to me what that 7 behaviour will look like. 8 You know, in in some ways, if you 9 are at home, it may give yourself more opportunity to 10 ride a motorcycle. The some of the you know, 11 the CMMG was showing pictures of roads and all of that 12 that you can drive. Well, that isn't really making 13 the case for reduced frequency. That if we're 14 making if the case is being made that lots of 15 motorcycles are out driving right now, that's kind of 16 a case against the fact that they're going to be 60 17 percent in frequency reduction. 18 I don't know that, but again, re 19 recognizing that this vehicle group is about a 90 20 percent pleasure use, it's it's different, for 21 sure, and and yea |

| | | 126 | | | 128 |
|---|---|-----|--|--|-----|
| 1 | THE BOARD CHAIRPERSON: Thank you. | | 1 | testing that has to make sure it's all correct before | |
| 2 | Can you go there, Kristen? Right, thank you. Thanks | | | proceeding to that next step. That's that appears | |
| | very much. | | 3 | to be close to a week. | |
| 4 | Mr. Johnston, has MPI already | | 4 | If it's a completely redesigned type of | |
| 5 | calculated what the what the figures are for the | | | rebate, then they were estimating that you're probably | |
| 6 | rebates to the individual policyholders? MR. LUKE JOHNSTON: So yeah, the two | | | going to lose about a week just figuring that out and then another week to do all the things I just said | |
| 8 | (2) queries have been built and are going through all | | | about the running it and testing and all that stuff, | |
| 9 | the checks. We're obviously trying to you know, if | | | SO. | |
| 10 | | | 10 | THE BOARD CHAIRPERSON: But the | |
| 11 | And if it's not, then we'll we'll we'll have to | | 11 | running and testing, that sorry. | |
| 12 | go back and and fix it, but we're pretty close. | I | 12 | MR. LUKE JOHNSTON: Yeah. | |
| 13 | Not that's purely from a a | | 13 | THE BOARD CHAIRPERSON: The running | |
| | numbers perspective. Actually printing cheques and | | | and testing week you have to do no matter what. | |
| 15 16 | all that is a different story, but THE BOARD CHAIRPERSON: Yeah, that's a | | 15 16 | MR. LUKE JOHNSTON: Yeah. THE BOARD CHAIRPERSON: So you're | |
| | different matter. But in terms of determining the | I | | you're saying that you could, if if there's a | |
| | actual amounts per per policyholder. | | | change in the numbers, it could cause up to a week of | |
| 19 | MR. LUKE JOHNSTON: That's right, | | | delay, it sounds like. | |
| 20 | yeah. | | 20 | MR. LUKE JOHNSTON: Yeah, recognizing | |
| 21 | THE BOARD CHAIRPERSON: Okay. It says | | | that we're doing it right now to hopefully save time, | |
| | here: | | | yeah. | |
| 23 | "Would likely mean delaying the | | 23 | THE BOARD CHAIRPERSON: Right, okay. | |
| 24 | issuance by an unknown amount of time." | I | 24 25 | , | |
| 25 | ume. | | 25 | MR. MARK GIESBRECHT: Just to add to | |

|--|---|-----|
| 1 | (BRIEF PAUSE) | |
| 2 | | |
| 3 | THE PANEL CHAIRPERSON: Mr. | |
| 4 | Scarfone? | |
| 5 | MR. STEVEN SCARFONE: Ms. Meek, yes, | |
| | I'm told by Mr. Giesbrecht that we can provide that | |
| | response to you and | |
| 8 | MS. CHARLOTTE MEEK (by phone): Okay, | |
| | and and then it can be included in the exhibit as well so that I can use it? | |
| 11 | MR. STEVEN SCARFONE: Yes. | |
| 12 | MR. STEVEN SCARFONE. Tes. MS. CHARLOTTE MEEK (by phone): Thank | |
| | you very much. | |
| 14 | MR. STEVEN SCARFONE: Yes. So I might | |
| | only add, Madam Chair, just following up on the | |
| | comments of Mr. Gabor and Mr. Johnston's evidence | |
| 17 | that, you know, things are happening in the works, as | |
| 18 | it as it were. | |
| 19 | And it may be a little presumptuous. | |
| | There's a lot for the panel to digest, but the | |
| | Corporation would like the the panel to give some | |
| | consideration to perhaps, if they are satisfied, of | |
| | issuing an Order off the bench, with reasons to | |
| | follow. So that's just something that the Board might | |
| 25 | take away for consideration. | |
| | | |
| | | |
| | | 131 |
| 1 | THE PANEL CHAIRPERSON: We will | 131 |

It's nine o'clock, and we'll call the hearing back to order. Before we actually start, I'd like to just check and see who's on livestream. So the other panel members are Carol Hainsworth. Are you on, Carol? MS. CAROL HAINSWORTH (by phone): Yes, I am. THE PANEL CHAIRPERSON: Good morning. Bob Vanderwater? (BRIEF PAUSE) THE PANEL CHAIRPERSON: Ms. Schubert, is he on, do you know? Okay. (BRIEF PAUSE) THE PANEL CHAIRPERSON: Ms. Schubert, is he on, do you know? Okay. (BRIEF PAUSE) THE PANEL CHAIRPERSON: Bob, can you hear us? Okay. We'll just have to take a pause, because we have to have all of the panel members on. | |

| | 137 | | | 139 |
|---|--|--|--|-----|
| 2 3 4 5 6 7 8 9 | If you could try and connect with him again? MR. ROBERT VANDERWATER: Bob Vanderwater. I'm here. THE PANEL CHAIRPERSON: Excellent. Good morning. MR. ROBERT VANDERWATER: Good morning. THE PANEL CHAIRPERSON: Charlotte Meek? MS. CHARLOTTE MEEK (by phone): Good morning. I'm here. THE PANEL CHAIRPERSON: Good morning. | 3 4 5 6 7 | MR. STEVEN SCARFONE: You're welcome. And MPI Exhibit Number 6 is the revised figure 2 at the application, and that was the figure that spoke to a number of cancellations and layups, and Mr. Giesbrecht read in to the record those new figures. So that exhibit reflects that evidence from yesterday. EXHIBIT NO. MPI-6: MPI's revised figure 2 of the application MR. STEVEN SCARFONE: MPI Exhibit | |
| 13 14 15 | Curtis Unfried? MR. CURTIS UNFRIED: All right. Good morning. THE PANEL CHAIRPERSON: Good morning. And is Katrine Dilay on as well? | 13 14 15 | Number 7 is a revised version of the pre-ask number 1 for the CMMG. EXHIBIT NO. MPI-7: Revised pre-ask 1 for CMMG | |
| 17 18 19 20 | DR. BYRON WILLIAMS: I believe Ms. Dilay is listening in. THE PANEL CHAIRPERSON: Okay. All right, that's everyone. Thank you. | 19 20 | MR. STEVEN SCARFONE: And lastly, MPI Exhibit Number 8 is the closing submission of MPIC. EXHIBIT NO. MPI-8: MPIC closing submission | |
| 21 22 23 24 25 | Ms. McCandless? MS. KATHLEEN MCCANDLESS: Good morning, Madam Chair. Thank you. (BRIEF PAUSE) | 24 | MR. STEVEN SCARFONE: And so before MPIC begins going through its closing remarks, we have here in attendance with us Mr. Graham, the president and CEO of Manitoba Public Insurance, and he would | |
| | 138 | | | 140 |
| 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | MS. KATHLEEN MCCANDLESS: So this morning, we are proceeding with oral submissions from MPI and Interveners on the application. We will finish by noon. Before we proceed, I just wanted to say thank you to everyone for their cooperation. We had an application filed on Monday, and we'll be wrapping up a public hearing by Friday that couldn't have been done without everyone's efforts in getting here, so thank you very much. THE PANEL CHAIRPERSON: Mr. Scarfone? MR. STEVEN SCARFONE: Thank you, Madam Chair. Just before MPI begins, there were a couple further exhibits that were circulated after we ended yesterday, so I'll read those into the record. MPI Exhibit Number 5 is the pre-ask 5 that was inadvertently not included with the pre-asks, and I'd just have Ms. Meek confirm that she now has that response. EXHIBIT NO. MPI-5: MPI Pre-ask 5 MS. CHARLOTTE MEEK (by phone): Yes, I received that. Thank you very much. | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | here, if needed, to take any sort of final questions or queries. As I as I'm sure you're aware, we've really been trying to raise that level of transparency, and it sort of stops at the top, so if | |

| 141 | | 143 |
|--|--|-----|
| our staff, handing over COVID testing sites, using our service centres for COVID testing requirements. The fifth one was handed over yesterday. We've been heavily involved in discussions with the union about work sharing arrangements, et cetera. We've handed over forty- eight (48) staff to assist shared services when it comes to their warehousing operations for PPE. We're looking at alternative and groundbreaking strategies to start driver examinations again. We'll be doing that in cooperation with Saskatchewan. And the last, but not least, and the relief proposals that we put forward to government to try and assist customers through this difficult time. I also want to make note that the MPI Board, as well as the executive team, remain deeply committed to being fiscally prudent. Capital Management Plan and the appropriate MCT targets remain a very clear focus for us at MPI. Prudence regarding this rebate is easily reflected through the two (2) months that we are proposing, and we will not jeopardize the future financial health of MPI by over-predicting claims | 1 Utilities Board, has allowed MPI to be in the strong 2 financial position we are currently in to apply for 3 this rebate. 4 As I mentioned yester as was 5 mentioned yesterday, I apologize, I understand the 6 need for the panel to assess this application 7 appropriately. We are working on this rebate and the 8 underlying work as we speak, and we will continue to 9 do so over the weekend. 10 As mentioned by Mr. Scarfone, if a 11 verbal order could be issued at the end of this 12 hearing, i.e., today, we would greatly appreciate 13 that, with a written order to follow. I would like to 14 mention that it is not something that is expected, but 15 if possible, that would be greatly appreciated. 16 Thanks again for your time, and before 17 I hand over to Steve, again, I would accept any 18 questions now or throughout the morning, if 19 appropriate. 20 21 (BRIEF PAUSE) 23 THE PANEL CHAIRPERSON: Mr. 24 Scarfone? | |
| 142 | | 144 |
| results flowing through June, July, and beyond. Unfortunately, I don't own a crystal ball. We've used this approach before, and I think the best example of that could be the use of naive interest rates through our GRA application. At this point, I believe that future savings beyond this current rebate would flow through the traditional GRA or CMP approach, depending on the claims results moving forward. We do appreciate back to Kathleen's | FINAL SUBMISSION BY MPIC: MR. STEVEN SCARFONE: Thank you, Madar Chair. Just before I begin, I'd like to thank my colleague, Mr. Guerra, for helping me put together our closing presentation. Kristen, if you could advance to Slide 2. Thank you. So we're here today, Madam Chair, obviously in the midst of a pandemic, historically a first and hopefully the last of its kind. At page 4 of the application, the | n |

11 point -- we do appreciate the flexibility shown by11 Corporation aske12 this Board, as well as the Interveners in attending12 circumstances be

14

- 13 this hearing. These savings could have flowed through
- 14 the next GRA with significant rate reductions being
- 15 requested, but we have heard through the government
- and through our customers that the long -- that thewider community needs this money in their hands now.
- 18 Despite this, they might not receive as
- 19 much as they would have if we had gone through the
- 20 traditional GRA process, talking mostly here around
- 21 the premium taxes that we need to pay on this premium,22 as well as the commissions that have already been sent
- 23 to the broker community.
- 24 The work that we have been doing,
- 25 supported by many stakeholders, including the Public

- 11 Corporation asked that these extraordinary
- 12 circumstances be considered when assessing the nature
- 13 and the content of this application.
 - MPI submits that this Board should not
- 15 be tempted to analyse the application like it would a
- 16 General Rate Application. MPIC is proposing this
- 17 rebate only because there is an ongoing economic
- 18 crisis, and the nuances that normally go -- go into
- 19 rate setting were not the priority when this
- 20 application was put together over the weekend.
- A 1:100 year event perhaps for DCAT
- 22 purposes, but auto insurance we say is, obviously, a
- 23 very small part of how this has impacted everyone in
- 24 the province, in the nation, of all ages, of all25 demographics.
- DIGI-TRAN INC. 403-276-7611 Serving Clients Across Canada

| | 145 | | | 147 |
|---|---|--|---|-----|
| 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | the motorcyclists, would perhaps benefit more from rate decreases over the next three (3) years, in part because it would reduce expenses, lowering commissions paid to brokers, lowering premium taxes. These | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | the first time would see just how good a year MPI had in '19/'20, as an example. He described it as a remarkable result, that reported claims were about a hundred and fourteen million dollars under budget. So, as I've indicated, Mr. Johnston said that the Corporation was going to be in a very good position coming into this year's General Rate Application, very good results. And while the pandemic situation was unfortunate, and is unfortunate for our customers, not so much for the Corporation, and has actually resulted in even better results. So Mr. Johnston said we really felt the need to act, given the amount of monies that we had, or that we're making from this situation. We'll see there that the evidence from yesterday and in the application said that after the rebate, Basic total earned revenues are projected to be \$1.116 billion, which is essentially equal to the compliance forecast that we saw last October. And beyond '20/'21, revenue forecast reflects the revised volume and upgrade projections which we will detail in the upcoming GRA. It is important to remember that revised capital amounts, as Mr. Giesbrecht indicated, are best estimates and subject to change with the | |
| | 146 | | | 148 |
| 3 4 5 6 | that we heard yesterday confirms that statement. Mr. Giesbrecht said yesterday that the capital position of the Corporation has considerably improved over the last couple of years. You'll see there that back in February of 2018, the Basic MCT was at just 44 percent, and then in February 2019 a slight improvement, until last year it grew up towards 90 percent, and now we hover around 100 percent. And you'll see his last indication there, that the drop going forward, because the substance of the rebate is based on claim savings assumed to happen between that period, that is the rebate period, he anticipates that the Corporation will remain in a strong financial position after the rebate, and that's important. Mr. Johnston reiterated Mr. Giesbrecht's evidence about the financial position of the Corporation. He indicated one (1) thing when we | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | audit, but the Extension monies are still going directly to Basic ratepayers with the proposed rebate. The Corporation is simply accelerating it via a cheque instead of a future rate increase. And that, I might add, Madam Chairperson, is notwithstanding that there was no transfer of capital at fiscal year end, the \$75.1 million that was cited in the compliance forecast. We heard yesterday that the Corporation's capital, when combined Basic and Extension, will exceed \$600 million after the rebate is paid out. And you may recall, I had to ask my witnesses twice to get that information out of them, and I think my friend Mr. Williams tried to do the same thing and I felt his pain because I guess it's the nature of their of their profession. They're a little reticent to provide that information. Mnd we heard Mr. Giesbrecht talk about, well, you know, we haven't really closed the books and there's still the audit and and Mr. Johnston, the same thing, but when I when I pressed them and I said, you gentlemen can read these pro formas better than I can, they did confirm that the Corporation's capital position is forecast to be north of \$600 million after the after the proposed rebate, and I | |

| 1 | Sorry, back down. Right there, problem number 1. | 1 | of private passenger vehicles. | |
| 2 | This is where it begins and and the | 2 | So in short, Madam Chair, the timing of | |
| 3 | Corporation, as I said, is trying to anticipate some | 3 | this rebate did not work out for the motorcyclists. | |
| 4 | of the problems that that customers might bring to | 4 | And there's no evidence that | |
| 5 | our attention when the rebate is is provided. The | 5 | motorcycles or other seasonal vehicles have | |
| 6 | first one being the customer reports not receiving the | 6 | contributed to the COVID-related reductions. That is | |
| 7 | rebate cheque. | 7 | the 29 million that we know we save in claims costs | |
| 8 | Number 2, scrolling down, Kristen, | 8 | beginning April 15th. | |
| 9 | thank you. The customer disputes non-entitlement or | 9 | And there's no way, as Mr. Johnston | |
| 10 | the amount of the entitlement. And that's an | 10 | 5 57 5 1 5 | |
| 11 | 5 | | will be in force on May 1, which is today. No | |
| 12 | Customer disputing non-entitlement, | | justification to find that motorcycles will contribute | |
| 13 | | | to future COVID reductions in this rebate period. And | |
| 14 | | 14 | that's the assumed reduction in claims, beginning | |
| 15 | , , , , , , , , , , , , , , , , , , , | 15 | , <u>,</u> | |
| 16 | 1 5 | | rebate period. | |
| 17 | The second one might be the amount of | 17 | Another important point, and I I | |
| | the entitlement. We expect there'll be complaints | 18 | | |
| 19 | 0 | 19 | , 5 1 | |
| 20 | Now, I don't fault the media for doing | 20 | 51 | |
| 21 22 | this, because these are the questions they ask, but the media has reported that the rebate will be about | 21 | | |
| 22 | | 22 | | |
| 23 | If the motorcyclists are included, that | 23 | | |
| | amount will go down. And you can bet that there will | | their policy this summer because they need the money. | |
| | | | | |
| | | | | |
| | 154 | | | 156 |
| 1 | be a number of complaints about the amount of the | 1 | As stated yesterday by Mr. Johnston, | 156 |
| | be a number of complaints about the amount of the entitlement from the 700,000 customers that we're | 1 | they may actually have more accidents, with more time | 156 |
| 2 3 | be a number of complaints about the amount of the entitlement from the 700,000 customers that we're expecting between 140 and 160. | 1 2 3 | they may actually have more accidents, with more time to ride during this pandemic. | 156 |
| 2 | be a number of complaints about the amount of the entitlement from the 700,000 customers that we're expecting between 140 and 160. You'll see there that there's no perfect method of determining who gets the rebate. And as it pertains to motorcycles on the next slide please, Kristen, Mr. Johnston's evidence yesterday was that no premiums have been contributed by the motorcyclists. And so it wouldn't be fair, in his view, to rebate the motorcycle group when they haven't contributed to the monies that were received by the Corporation during the rebate period. So really, the essence of this application is that claims costs are considerably down | 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | they may actually have more accidents, with more time to ride during this pandemic. Next slide please, Kristen. Thank you. So, just in closing, the Corporation is asking that this Board give careful consideration to the application but grant leave to accept the application outside the prescribed timeframes, and of course, Madam Chair, I'm talking about the the Board's ability to make a variation to those orders beyond the 30 day time period under the under the prescribed time frames. And and the relief that we're seeking, as I indicated in my opening, is to vary those directives in the past two Orders to the extent that they do not require the issuance of rebates. And and just just so that you're clear, because I wasn't, about why the release mentions both Orders, I'm told that some of the policies that were that the Corporation collected premiums on beginning March, those rates fall back to the Order from two (2) GRAs ago. And so we need both | 156 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | be a number of complaints about the amount of the entitlement from the 700,000 customers that we're expecting between 140 and 160. And so these are considerations that we ask the Board to to thought to think about when deciding on MPIC's rebate rules and whether they're fair and equitable. Because as I as I've indicated, the Corporation took what we believe is the best option from a list of non-perfect options. And if we can go back to the slide presentation, Kristen, please. You'll see there that there's no perfect method of determining who gets the rebate. And as it pertains to motorcycles on the next slide please, Kristen, Mr. Johnston's evidence yesterday was that no premiums have been contributed by the motorcyclists. And so it wouldn't be fair, in his view, to rebate the motorcycle group when they haven't contributed to the monies that were received by the Corporation during the rebate period. So really, the essence of this application is that claims costs are considerably down due to the pandemic, and the Corporation has collected | 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 | they may actually have more accidents, with more time to ride during this pandemic. Next slide please, Kristen. Thank you. So, just in closing, the Corporation is asking that this Board give careful consideration to the application but grant leave to accept the application outside the prescribed timeframes, and of course, Madam Chair, I'm talking about the the Board's ability to make a variation to those orders beyond the 30 day time period under the under the prescribed time frames. And and the relief that we're seeking, as I indicated in my opening, is to vary those directives in the past two Orders to the extent that they do not require the issuance of rebates. And and just just so that you're clear, because I wasn't, about why the release mentions both Orders, I'm told that some of the policies that were that the Corporation collected premiums on beginning March, those rates fall back to the Order from two (2) GRAs ago. And so we need both | 156 |

| 157 | 159 |
|---|---|
| direct MPIC to issue the special rebate as indicated there as a percentage of their annualized premiums for insurance policies in force and earning premium beginning on March 15th, 2020. That was the date that the Corporation picked for the reasons set out in the applications. The rebate is equal to \$58 million, that amount is fixed, as we heard yesterday. And we've put a date in there by May 31, 2020 or as soon as can be practically done. The Corporation says it's just and reasonable to issue the proposed rebate, and the methodology that we proposed, including the rebate rules, are just and reasonable, the best of the options the corporation considered. And subject to any questions that the Panel may have, that's the closing submission for MPIC. THE PANEL CHAIRPERSON: Thank you, Mr. Scarfone and thank you, Mr. Graham. Questions? THE BOARD CHAIRPERSON: Mr. Scarfone, you raised this issue of the hundred and forty (140) to a hundred and sixty dollars (\$160). That depends | insurance during the summer? MR. STEVEN SCARFONE: Yes. THE BOARD CHAIRPERSON: People driving cars may cancel their insurance during the summer as well. MR. STEVEN SCARFONE: The distinction there, though, being Mr. Johnston's evidence was 90 percent of these bikes are for pleasure use THE BOARD CHAIRPERSON: Right. MR. STEVEN SCARFONE: which would suggest that they're a secondary vehicle. So they're carrying that particular motorcycle on a policy while having a vehicle, a private passenger vehicle, to drive. THE BOARD CHAIRPERSON: But that's merely an assumption you're making. People may decide they've got two (2) vehicles; they can't afford two (2) vehicles; they're going to only have one (1) for the year because they've been laid off or whatever, correct? MR. STEVEN SCARFONE: That's correct, and and that's why I was careful to say that Mr. Johnston's evidence yesterday was it's reasonable to assume that given the economic crisis, that |
| 25 on a lot of things. | 25 motorcyclists, some of them, may decide to cancel |
| 158 | 160 |
| 1 MR. STEVEN SCARFONE: It does. 2 THE BOARD CHAIRPERSON: Right? 3 MR. STEVEN SCARFONE: Yes. 4 THE BOARD CHAIRPERSON: Depends on the 5 kind of vehicle you're driving. 6 MR. STEVEN SCARFONE: Yes. 7 THE BOARD CHAIRPERSON: Depends on the 8 cost of the vehicle. Depends on the age of the 9 vehicle. So whether or not motorcycles are involved 10 in this, people may complain. Because I drive an 11 eleven (11) year old vehicle, I may get a lower amount 12 than somebody who who gets a who drives a newer 13 vehicle, correct? 14 MR. STEVEN SCARFONE: That's correct. 15 THE BOARD CHAIRPERSON: And a more 16 expensive vehicle. 17 MR. STEVEN SCARFONE: That's correct. 18 THE BOARD CHAIRPERSON: So you could 19 be getting you could be getting complaints for 20 whatever reason, expectations raised by the media or 21 otherwise. 22 MR. STEVEN SCARFONE: I agree with 23 that, Mr. Gabor. 24 <td> 1 their policies 2 THE BOARD CHAIRPERSON: Right. 3 MR. STEVEN SCARFONE: in this 4 economic crisis. 5 MR. BENJAMIN GRAHAM: If I can just 6 sorry. 7 THE BOARD CHAIRPERSON: Sorry, yeah. 8 MR. BENJAMIN GRAHAM: Mr. Gabor, if I 9 can just touch on that. I mean, I I own both a 10 a private passenger vehicle and a motorcycle. If I 11 was to cancel one (1) of those policies, it would 12 obviously be the motorcycle. 13 I I think it is a very broad 14 assumption to say that there's going to be more 15 cancellations. I think there might be more 16 cancellations across the board. It's just that 17 classification as a pleasure usage that means that 18 they would probably be more inclined to cancel that as 19 compared to their private passenger vehicle that could 20 be used for transporting children to events, going to 21 buy groceries, those types of things. I've tried to 22 buy groceries on my motorbike before, and I can only 23 take home a can of baked beans, so I would obviously 24 have to cancel the motorcycle. </td> | 1 their policies 2 THE BOARD CHAIRPERSON: Right. 3 MR. STEVEN SCARFONE: in this 4 economic crisis. 5 MR. BENJAMIN GRAHAM: If I can just 6 sorry. 7 THE BOARD CHAIRPERSON: Sorry, yeah. 8 MR. BENJAMIN GRAHAM: Mr. Gabor, if I 9 can just touch on that. I mean, I I own both a 10 a private passenger vehicle and a motorcycle. If I 11 was to cancel one (1) of those policies, it would 12 obviously be the motorcycle. 13 I I think it is a very broad 14 assumption to say that there's going to be more 15 cancellations. I think there might be more 16 cancellations across the board. It's just that 17 classification as a pleasure usage that means that 18 they would probably be more inclined to cancel that as 19 compared to their private passenger vehicle that could 20 be used for transporting children to events, going to 21 buy groceries, those types of things. | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | you're a a household that has two (2) vehicles, because of the financial situation people find themselves in MR. BENJAMIN GRAHAM: They'd be cancelling a vehicle. THE BOARD CHAIRPERSON: may be cancelling a vehicle. MR. BENJAMIN GRAHAM: Absolutely, yeah. THE BOARD CHAIRPERSON: Yesterday, Mr. Scarfone, I raised this issue and you used the word again in yours, which was "timing." And I I put the question I believe Mr. Giesbrecht answered which was, You've you seem to have \$12 million extra in Extension that normally would have been transferred to Basic. Because of the year end and and numbers still coming in, the money will be will remain in Extension and move towards the current year MR. STEVEN SCARFONE: Correct. THE BOARD CHAIRPERSON: so it's an issue of timing. Today's May 1st. If the pandemic | 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 | vehicles, here's what it would kind of look like. I think the number turned out being one hundred and fifty-six dollars (\$156), so it was it could be, | 53 |
| 23 | started today, motorcycles would be covered, correct, | | | |
| | because they're within your period? | 24 | And obviously, now, unfortunately, that | |
| 25 | MR. STEVEN SCARFONE: That's correct. | 25 | might have set some expectations in the market, but | |
| | | | | |
| 1 | 162 | 1 | we'll have to manage that through an appropriate | 164 |
| 3 4 5 6 7 8 9 10 11 12 13 14 15 | 162 THE BOARD CHAIRPERSON: The fact of when they pay the premiums, the fact that their liability may have been covered MR. STEVEN SCARFONE: Would meet both the criteria. THE BOARD CHAIRPERSON: They meet both the criteria. Okay, I just wanted to make sure of that. Those are my questions. Thank you. THE PANEL CHAIRPERSON: Thank you. Ms. Hainsworth, do you have any questions? MS. CAROL HAINSWORTH (by phone): No, I have no questions. Thank you. THE PANEL CHAIRPERSON: Mr. Vanderwater? | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | FINAL SUBMISSIONS BY CAC: DR. BYRON WILLIAMS: Yes, thank you, and Ms. Schubert, I wonder Madam Chair, we did share a two (2) page document titled "CAC Manitoba | - |

| | | 173 | | | 175 |
|--|---|-----|--|--|-----|
| 1 | And in terms of forecast uncertainty, | | 1 | developments in terms of claims incurred. | |
| 2 | our clients want to speak to claims incurred to start | | 2 | Mr. Johnston also candidly confirmed | |
| 3 | with. In our clients' respectful view, MPI has done a | | 3 | yesterday the robust capability of Manitoba Public | |
| 4 | particularly impressive job in terms of the grand | | 4 | Insurance to undertake a monthly monitoring of claims | |
| 5 | granularity of its physical damage collision | | 5 | incurred. They've been doing it for some time now, | |
| 6 | collision data and analysis for the one (1) month | | 6 | with a one-month lag. | |
| 7 | period from mid-March to April 15th. Very impressive | | 7 | That is an ordinary course of business | |
| 8 | job on the physical damage side. | | 8 | now, at least as we understand Mr. Johnston, and an | |
| 9 | There have been some simplifying | | 9 | expected course of business, and that again gives our | |
| 10 | assumptions. The assumption of perfect correlation in | | 10 | clients confidence that an Order beyond May 15th | |
| 11 | terms of the relationship between trends in physical | | 11 | asking for monitoring updates in terms of collisions | |
| 12 | damage, comprehensive, and the Personal Injury | | 12 | is both highly feasible and not unduly burdensome to | |
| 13 | Protection Plan is oversimplified, but totally | | 13 | Manitoba Public Insurance. And frankly, Manitoba | |
| 14 | understandable and reasonable given the emergent | | 14 | ratepayers deserve that kind of information given the | |
| 15 | circumstances. | | 15 | dramatic change in claims incurred in in the mid- | |
| 16 | So there's great data in terms of | | | | |
| 17 | physical damage. There's more uncertainty around the | | 17 | In terms of the estimates underlying | |
| 18 | | | 18 | this application, our clients do wish to outline one | |
| 19 | reasonable and strongly justifiable estimate as it | | 19 | (1) other element of conservatism, not in a critical | |
| 20 | applies to the mid mid March to mid April period, | | 20 | way, recognizing the the emergency, but just to | |
| 21 | and certainly very reasonable to infer that same type | | 21 | note that this is also worthy of monitoring as we move | |
| 22 | | | | , , | |
| 23 | The key area of uncertainty with regard | | 23 | And as Mr. Johnston noted yesterday, | |
| | to claims incurred, and Mr. Johnston candidly conceded | | | there is a historically a positive correlation, a | |
| 25 | this in oral questioning yesterday, it's the period | | 25 | positive relationship between claims incurred and | |
| | | | | | |
| | | 174 | | | 176 |
| 1 | | 174 | 1 | claims expenses. Again, this is understandable in | 176 |
| | after May 15th, which because in MPI's estimates | 174 | | claims expenses. Again, this is understandable in light of the emergency application, that claims | 176 |
| | | 174 | 2 | | 176 |
| 2 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the | 174 | 2 3 | light of the emergency application, that claims | 176 |
| 2 3 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's | 174 | 2 3 4 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be | 176 |
| 2 3 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa | 174 | 2 3 4 5 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that | 176 |
| 2 3 4 5 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after | 174 | 2 3 4 5 6 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's | 176 |
| 2 3 4 5 6 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. | 174 | 2 3 4 5 6 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims | 176 |
| 2 3 4 5 6 7 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be | 174 | 2 3 4 5 6 7 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's | 176 |
| 2 3 4 5 6 7 8 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is | 174 | 2 4 5 7 8 9 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's | 176 |
| 2 3 4 5 6 7 8 9 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 | 174 | 2 3 4 5 6 7 8 9 10 11 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but | 176 |
| 2 3 4 5 6 7 8 9 10 11 12 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. | 174 | 2 3 4 5 6 7 8 9 10 11 12 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months | 176 |
| 2 3 4 5 6 7 8 9 10 11 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. And as the Premier made clear this | 174 | 2 3 4 5 6 7 8 9 10 11 12 13 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months that follow May 15th. | 176 |
| 2 3 4 5 6 7 8 9 10 11 12 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. And as the Premier made clear this week, the return to normal will be staged and there | 174 | 2 3 4 5 6 7 8 9 10 11 12 13 14 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months that follow May 15th. So those are the two (2) elements of | 176 |
| 2 3 4 5 6 7 8 9 10 11 12 13 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. And as the Premier made clear this week, the return to normal will be staged and there will be the possibility of future setbacks, and as the | 174 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months that follow May 15th. So those are the two (2) elements of forecasting from our clients' perspective that are | 176 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. And as the Premier made clear this week, the return to normal will be staged and there will be the possibility of future setbacks, and as the PUB Chair discussed with Mr. Johnston yesterday, it is | 174 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months that follow May 15th. So those are the two (2) elements of forecasting from our clients' perspective that are tend to be somewhat conservative, not a bad thing in | 176 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. And as the Premier made clear this week, the return to normal will be staged and there will be the possibility of future setbacks, and as the PUB Chair discussed with Mr. Johnston yesterday, it is not clear when we will return to normal or to what | 174 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months that follow May 15th. So those are the two (2) elements of forecasting from our clients' perspective that are tend to be somewhat conservative, not a bad thing in an emergency circumstance, but we want to flag those | 176 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. And as the Premier made clear this week, the return to normal will be staged and there will be the possibility of future setbacks, and as the PUB Chair discussed with Mr. Johnston yesterday, it is not clear when we will return to normal or to what degree there will be a new normal. | 174 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months that follow May 15th. So those are the two (2) elements of forecasting from our clients' perspective that are tend to be somewhat conservative, not a bad thing in an emergency circumstance, but we want to flag those because they raise the possibility for future positive | 176 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 9 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. And as the Premier made clear this week, the return to normal will be staged and there will be the possibility of future setbacks, and as the PUB Chair discussed with Mr. Johnston yesterday, it is not clear when we will return to normal or to what degree there will be a new normal. Manitobans are still being encouraged | 174 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months that follow May 15th. So those are the two (2) elements of forecasting from our clients' perspective that are tend to be somewhat conservative, not a bad thing in an emergency circumstance, but we want to flag those because they raise the possibility for future positive developments. | 176 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. And as the Premier made clear this week, the return to normal will be staged and there will be the possibility of future setbacks, and as the PUB Chair discussed with Mr. Johnston yesterday, it is not clear when we will return to normal or to what degree there will be a new normal. Manitobans are still being encouraged to work at home and to practice social distancing, and | 174 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months that follow May 15th. So those are the two (2) elements of forecasting from our clients' perspective that are tend to be somewhat conservative, not a bad thing in an emergency circumstance, but we want to flag those because they raise the possibility for future positive developments. On the other side of the ledger, in | 176 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | after May 15th, which because in MPI's estimates and again it's an emergency. We take no issue for the purposes of this application. We just note it's uncertain afterwards because their estimates assa assume no COVID-19 effect on claims incurred after that date. So the assumption that it will be business as usual on Manitoba roads is reasonable in the context of the rate rate rebate but is certainly worthy of monitoring to see if Manitobans are likely to continue to overpay in the '20/'21 results as a consequence of COVID-19. And as the Premier made clear this week, the return to normal will be staged and there will be the possibility of future setbacks, and as the PUB Chair discussed with Mr. Johnston yesterday, it is not clear when we will return to normal or to what degree there will be a new normal. Manitobans are still being encouraged to work at home and to practice social distancing, and to the extent that COVID-19 impacts such as working at | 174 | $\begin{array}{c} 2\\ 3\\ 4\\ 5\\ 6\\ 7\\ 8\\ 9\\ 10\\ 11\\ 12\\ 13\\ 14\\ 15\\ 16\\ 17\\ 18\\ 19\\ 20\\ 21\\ \end{array}$ | light of the emergency application, that claims expenses for 2020/'21 are currently projected to be flat, leaving aside accounting judgments, and that would be inconsistent with Mr. Johnston's understanding of a positive correlation between claims incurred and claims expenses. So again, there's potential for positive development. From our clients' perspective, this should not affect the quantum of the rebate. There's no certainty with that, and there will be a lag, but it is certainly worthy of monitoring in the months that follow May 15th. So those are the two (2) elements of forecasting from our clients' perspective that are tend to be somewhat conservative, not a bad thing in an emergency circumstance, but we want to flag those because they raise the possibility for future positive developments. On the other side of the ledger, in terms of where forecasting may be over-optimistic, is | 176 |

|---|-----|--|
| Mr. Graham and Chairperson Gabor were talking about earlier today of people not insuring as many vehicles in in response to financial circumstances. So there is a risk that Manitobans may change their vehicle purchasing patterns or insurance coverages in response to the economic distress and uncertainty, and that would tend to pu push revenues lower. However, there is no evidence of that before the Board today in the context of this application, and no evidence to show a decline in driver insurance patterns to support a reduction in revenue estimates, and MPI confirms this at page 6 of 27 of its application. Customers to date have cancelled or reduced coverage on less policies less policies than they did during the weeks of mid March to mid April 2019. (BRIEF PAUSE) DR. BYRON WILLIAMS: Our clients appreciate learned counsel for MPI's comments about investment risk, and our clients do see investment risk as as a risk to Manitoba Public | | forecasting risk now, and they've already shared why they think that it is reasonable and prudent to provide rate relief in these emergency circumstances, but under the headline of reasonableness and prudency, our clients want to discuss why the RSR rebate is reasonable as opposed to the methodology set out in the approved Capital Management Plan. As Mr. Johnson confirmed yesterday, and just to be clear, this is a one-time 50 million \$58 million rebate from Basic. It is a capital release of excess monies now being held in the RSR. So the question of its reasonableness needs to be asked in light of the fact that RSR rebates are not contemplated under the Capital Management Plan and given the two-year trial approval for that plan by the PUB. And our client is anxious not to be distracted by sophistry on this issue. In our clients' respectful view, the rate rebate plan being presented is definitely not the Capital Management Plan. It is distinct from the Capital Management Plan. It is fundamentally different in three (3) ways. First, this is the one (1) time it |
| 25 Insurance. It's always a risk at times of economic | | 25 is a one (1) time rate rebate as opposed to rate |
| | 178 | 3 180 |
| 1 uncertainty and volatility. But in the short term 2 context of this application, the Basic portfolio of 3 over \$2 billion is comprised entirely of Government 4 and corporate bonds and unlikely in the short term to 5 be at material risk, for a couple reasons. 6 First of all, duration mass matching 7 of assets and liabilities materially reduces interest 8 rate risk. And secondly, bonds are significantly less 9 volatile, both in terms of as compared to equities, 10 both in terms of downside risk as well as in terms of 11 upside opportunity. 12 Our clients would note that there is 13 more forecasting risk and uncertainty in the much 14 smaller RSR and Extension investment portfolios, but 15 they are roughly a quarter well, the they're 16 significantly smaller than the Basic portfolio, and 17 you can see that volatility even in the results, 18 comparing February to March for those portfolios. 19 The Extension portfolios actually 20 shown a bit of improvement to March 31st as compared 21 to February, whereas the the RSR has shown a 22 deterioration, but that evidence is before you as 23 well. So there is an investment risk but not 24 primarily related to the Basic portfolio. | | 1decreases over a three (3) year period.2Second, all eligible ratepayers are3being paid by cheque at the same time, rather than4having a reduction built into their rates and having5the release of that reduction staggered throughout the6renewal year, as their insurance becomes due.7Third, there was no transfer of excess8reserves from Extension to Basic after the end of9March 20th, and that is a central element of the10Capital Management Plan.11So this is not a tweak to the Capital12Management Plan, this is something that's13fundamentally different. It walks and it talks and it14look a lot like the Rate Stabilization Rebate15mechanism that has been used by the Board successfully16on a periodic basis to return excess returns at year-17end to ratepayers since the early 2000s.18But it does have one (1) important19distinction, even from that traditional mechanism, and20that is that the calculation of excess reserves21includes a recognition that there is an estimated22over-collection of revenues in the current year. A23real-time estimate, almost, of some 58 million.24So it's definitely not the capital25management plan, it's very analogous to the historic |

| 181 | 183 |
|---|--|
| rate rebate mechanism which after fiscal year ends rebated monies to customers with that one (1) important and creative tweak. And that is why it's for the purposes of the Board's Order in in our client's view, the Capital Management Plan has to be suspended for the specific purpose of issuing the \$58 million rebate. It's not a tweak. This is something fundamentally different. That doesn't mean that it is imprudent of Manitoba Public Insurance to do so. While its application is a clear implus implicit rejection of | Our client (sic) does concur with MPI that the funding mechanism for the rebate is prudent. And it notes that MPI currently does not anticipate having to liquidate invested funds to support the rebate, because the rebate is being funded primarily by cash on hand, as well as by revenues for the mid- March to mid-May period in which there is a high degree of confidence due to dramatically lower collision rates that there will be an excess of revenues. So our client (sic) supports and commends Manitoba Public Insurance for its prudent |
| 13 the Capital Management Plan, for the specific purposes 14 of the COVID-19 emergency, it is not imprudent, it is 15 not unreasonable. 16 Rejecting the Capital Management Plan, 17 suspending it for the purposes of the rebate, is a 18 good choice and well-justified. 19 It gets money to consumers within two 20 (2) months as compared to staggered over three (3) 21 years. It gets money to consumers all at the same 22 time when they need it most, rather than staggered 23 over the insurance year. 24 And it is an important good news signal 25 in a time of seemingly unremitting stressful news. | 13 approach in terms of anticipating this need and in 14 responding to it in a way that doesn't force the 15 liquidation of investment assets at a highly uncertain 16 time. 17 Kristen, if we can just go back to 18 figure 10 for a second, please. 19 Our clients did talk about the overall 20 health of the Corporation at at the outset of the 21 comments. And again, these are forecasts that our 22 clients do want to again point to line 3, the current 23 forecast of Basic total equity for 20/21, being over 24 530 million estimated forecast, excuse me. And for 25 2020/'21/'22 being over 600 million. |
| 182 | 184 |
| And it is also a creative and innovative use of the historic rebate tool, providing the near real-time response to a dramatic drop in claims costs. It should be applauded, but not characterized as aligned with the Capital Management Plan. It just ain't, or isn't, to use better grammar. I should note that while our clients applaud the innovative use of the rate rebate tool and the suspension of the rate re release process envisioned under the Capital Management Plans, our clients do not endorse the MPI choice outside of the regulatory pro process to reject the Capital Management Plan for 2019/'20, by declining to transfer excess reserves in Extension to Basic. They do not support the rejection of the CMP for 19/20. And by leaving funds in expen Extension above the 200 percent MCP, an amount which is currently estimated to be in the range of \$12 million. So that, our clients do not endorse, but they say that that is, again, clear evidence that we're outside the Capital Management Plan were open. And that was a unilateral decision, to our clients' knowledge, and certainly not made in a transparent | 1And if we could just go down to the MCT2ratios, there you'll see anticipated in those two3years MCT ratios of 130 percent for 2020/21, and of4132 percent for 2020/21/22.5These are extremely healthy level of6reserves and the Board is aware that the level of7reserves in Extension are actually above 200 percent8MCT as well.9And our clients note, as well, that10Extension is forecast to have another good year in112021 with net income in the range of of in12excess of 50, 5-0 million dollars.13And looking at the overall health of14the Corporation, our clients would also ask the Board15to keep in mind that it is likely that the target for16unregulated Extension is inflated, given the risks it17faced, due in part both to the absence of competition,18as well as the nature of the insurance risk, including19related to deductibles.20And our clients note the comment by the21PUB in last year's GRA, that the magnitude of22Extension reserves is of concern to the Board.23So from the big picture again, in terms24of the \$58 million rebate, our clients believe that25there is con there can be significant confidence |

| | 185 | | | 187 |
|--|-----|---|--|-----|
| that future ratepayers will not be unduly prejudiced. In our clients' view there is a powerful message in retained earnings, that MPI's | | 2 | CMMG, our clients are not opposed to MPI's current determination proposal to determine eligibility at March 15th, 2020, for policies in force and earning | |
| 4 legal monopoly in Basic and defacto monopoly in | | 4 | premiums. | |
| 5 Extension is in extremely good shape, with a plausible | | 5 | CAC Manitoba, still on this point, also | |

| 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to | 2 3 4 5 6 7 8 9 10 11 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. | 192 |
| 1 1 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. | 2 3 4 5 6 7 8 9 10 11 12 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: | 192 |
| 1 1 1 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. MPI is not a government department. It | 2 3 4 5 6 7 8 9 10 11 12 13 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: Number 1, how do we know they can pay for it? For | 192 |
| 1 1 1 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. MPI is not a government department. It is a Crown corporation. It is created by statute with | 2 3 4 5 6 7 8 9 10 11 12 13 14 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: Number 1, how do we know they can pay for it? For for this one, the evidence was they had \$80 million | 192 |
| 1 1 1 1 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. MPI is not a government department. It is a Crown corporation. It is created by statute with a board, whose fiduciary duty lies to the Corporation | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: Number 1, how do we know they can pay for it? For for this one, the evidence was they had \$80 million cash and they had other liquid assets. | 192 |
| 1 1 1 1 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. MPI is not a government department. It is a Crown corporation. It is created by statute with a board, whose fiduciary duty lies to the Corporation and its ratepayers. So in the respectful view of CAC | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: Number 1, how do we know they can pay for it? For for this one, the evidence was they had \$80 million cash and they had other liquid assets. And Number 2, what's the impact on the | 192 |
| 1 1 1 1 1 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. MPI is not a government department. It is a Crown corporation. It is created by statute with a board, whose fiduciary duty lies to the Corporation and its ratepayers. So in the respectful view of CAC Manitoba, it may be helpful for the PUB in its | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: Number 1, how do we know they can pay for it? For for this one, the evidence was they had \$80 million cash and they had other liquid assets. And Number 2, what's the impact on the GRA because it would seem to me that all of a sudden | 192 |
| 1 1 1 1 1 1 1 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. MPI is not a government department. It is a Crown corporation. It is created by statute with a board, whose fiduciary duty lies to the Corporation and its ratepayers. So in the respectful view of CAC Manitoba, it may be helpful for the PUB in its written reasons, if any to clarify, as confirmed by | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: Number 1, how do we know they can pay for it? For for this one, the evidence was they had \$80 million cash and they had other liquid assets. And Number 2, what's the impact on the GRA because it would seem to me that all of a sudden your numbers are just changing completely or | 192 |
| 1 1 1 1 1 1 1 1 1 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. MPI is not a government department. It is a Crown corporation. It is created by statute with a board, whose fiduciary duty lies to the Corporation and its ratepayers. So in the respectful view of CAC Manitoba, it may be helpful for the PUB in its written reasons, if any to clarify, as confirmed by Mr. Giesbrecht yesterday, that the special rate | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: Number 1, how do we know they can pay for it? For for this one, the evidence was they had \$80 million cash and they had other liquid assets. And Number 2, what's the impact on the GRA because it would seem to me that all of a sudden your numbers are just changing completely or significantly? And do we have further rounds of IRs | 192 |
| 1 1 1 1 1 1 1 1 1 1 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. MPI is not a government department. It is a Crown corporation. It is created by statute with a board, whose fiduciary duty lies to the Corporation and its ratepayers. So in the respectful view of CAC Manitoba, it may be helpful for the PUB in its written reasons, if any to clarify, as confirmed by Mr. Giesbrecht yesterday, that the special rate application results from a direction of the MPI board | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: Number 1, how do we know they can pay for it? For for this one, the evidence was they had \$80 million cash and they had other liquid assets. And Number 2, what's the impact on the GRA because it would seem to me that all of a sudden your numbers are just changing completely or | 192 |
| 1 1 1 1 1 1 1 1 1 1 2 2 | intentions, and and in haste. But these statements run the risk of creating confusion about the mechanics of the rebate and about the responsibility for initiating rate applications under the statutory framework. As the evidence confirmed yesterday, there was no transfer of excess capital to government. This cheque is coming from MPI from their rebates. And as reading of the statute makes clear, the responsibility for determining whether to seek a rate a rate rebate and bring forward an application to the PUB is that of the MPI board. MPI is not a government department. It is a Crown corporation. It is created by statute with a board, whose fiduciary duty lies to the Corporation and its ratepayers. So in the respectful view of CAC Manitoba, it may be helpful for the PUB in its written reasons, if any to clarify, as confirmed by Mr. Giesbrecht yesterday, that the special rate | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | such as a rebate and credit to customer account. So I'm trying to work this through. We asked for monthly filings, and hypothetically, let's say we get to August 15th, which is a month delay, thirty (30) day lag. MPI's filed an application, a GRA, in, as I understand it still, May. We've gone through an IR process or we're in the middle of an IR process. We get the filings. It appears that there may be an argument for a rebate a further rebate. I guess my two (2) question to you are: Number 1, how do we know they can pay for it? For for this one, the evidence was they had \$80 million cash and they had other liquid assets. And Number 2, what's the impact on the GRA because it would seem to me that all of a sudden your numbers are just changing completely or significantly? And do we have further rounds of IRs | 192 |

| 1 your question, Mr. Gabor, on the timing of it, the | 1 I believe the evidence of Mr. |
| 2 Corporation has made Board counsel and the Interveners | 2 Giesbrecht yesterday in terms of cash was that they |
| 3 aware that the May filing date is now not happening | 3 have a range of between sixty (60) and and a |
| 4 and that the the General Rate Application will be | 4 hundred and that they would be leaning towards the |
| 5 filed sometime in June, probably towards the end. | 5 upper side. |
| 6 THE BOARD CHAIRPERSON: Okay. Thank | 6 Mr. Chair, that's a very live question |
| 7 you. I didn't I didn't the last word I had was | 7 that we one can't answer until one sees a |
| 8 that we were probably looking at the end of May or | 8 circumstance, but that's kind of how our client (sic) |
| 9 June. Okay, so we're looking at a later period of | 9 has been envisioning this working. |
| 10 time. | 10 And from our clients' perspective, we |
| 11 But can you just provide comments on | 11 all hope that things get back to normal May 16th, but |
| 12 that because what we we need to provide a level of | 12 there's something very dramatic that's happened in |
| 13 comfort to the public that there's a process, | 13 rates and there is something in the short term that's |
| 14 everybody understands the process is a transparent | 14 transformed what's going on in Manitoba. |
| 15 process? | 15 Hopefully so given that and given |
| 16 So your comments, please. | 16 the evidence the Board has before it, it's important |
| 17 DR. BYRON WILLIAMS: So the | 17 to be alive and to at least be monitoring what's going |
| 18 hypothetical I I think I've heard, Mr. Chair, is | 18 on, and especially hearing Mr. Johnston speak |
| 19 that if the evidence in August of 2020 suggests that | 19 yesterday, that this is now MPI has the capability |
| 20 there is a ongoing dramatic impact on claims in | 20 to do this as the ordinary course of business. |
| 21 incurred, I I think that's what I I've heard. | 21 Mr. Chair, from our clients' |
| 22 And I think the question you're asking | 22 perspective, we don't see the reporting requirements |
| 23 is one is, how do they pay for it, but secondly, | 23 having to be unduly onerous. The analysis will be |
| 24 how does it relate to the GRA process. | 24 done by MPI with the one (1) month lag. |
| 25 In our in our clients' thinking, | 25 Mr. Johnston and the MPI executive are |
| | |
| 194 | 196 |
| | |
| 1 there is a question of, first of all, materiality, as | 1 honourable people. If they detect that there's still |
| 2 MPI stated yesterday and we would agree with them. If | 2 substantial material changes in claims incurred |

- 3 it's in the 10 to \$20 million range, that's not
- 4 something that our clients would be -- that would just
- 5 be new -- new information that -- that would inform
- 6 the GRA and -- and not necessitate a -- any emergency 7 response.
 - If it's material, if it's another 50 to

- whatever million dollars, then that may be a different 9 10 question.
- 11 What our clients would suggest is,
- 12 there's a couple of options at that point in time. If
- 13 it's really large and the emergency is ongoing, if
- 14 there is a second wave, then it would be open for the
- 15 Board to do something more emergent, or another option
- 16 would be to roll that into the GRA -- the GRA process
- 17 and -- and give notice to the parties that among the 18 options the Board is con -- considering is urgent
- 19 relief flowing from the GRA or a resumption of the
- 20 capital management process which the Board -- that's
- 21 kind of how our clients see that.
- 22 One (1) of the considerations would be,
- 23 is an emergency rebate actually practical in the sense
- 24 of -- or would it be cost prohibitive to MPI in that
- 25 they'd have to liquidate assets.

- 3 experience, we can rely upon them to communicate that 4 to the Board in a -- a very summary statement. 5 Our client (sic) isn't looking to add
- 6 burdens. It's the same kind of reporting we would 7 expect they would provide to their own management.
- 8 MR. STEVEN SCARFONE: The Corporation 9 would consent to that reporting, Mr. Gabor, that
- 10 monthly reporting. We have no difficulty providing
- 11 that claims experience, monthly net income, during
- 12 this time.
- 13 THE BOARD CHAIRPERSON: Yeah. That 14 was my understanding from the testimony yesterday. 15
 - MR. STEVEN SCARFONE: Yeah.
- 16 THE BOARD CHAIRPERSON: Thank you.
- 17 Thank you, Mr. Williams. Thank you, Mr. Scarfone.
- 18 DR. BYRON WILLIAMS: And we appreciate 19 that from Manitoba Public Insurance.
- 20 THE PANEL CHAIRPERSON: Thank you.
- 21 Ms. Hainsworth, do you have any questions?
- 22 MS. CAROL HAINSWORTH (by phone): No.
- 23 I have no questions. Thank you.
- 24 THE PANEL CHAIRPERSON: Thank you.
- 25 Mr. Vanderwater...?

| | 197 | | | 199 |
|--|--|--|--|-----|
| 1 1 1 1 1 1 1 1 1 2 2 2 2 2 | 1 MR. ROBERT VANDERWATER (by phone): 2 No. I'm fine, thank you. 3 THE PANEL CHAIRPERSON: Okay. Thank 4 you very much. 5 We'd like to take a break for fifteen 6 (15) minutes, so if we could come back, please, at 20 7 to 11:00. 8 Upon recessing at 10:25 a.m. 9 Upon resuming at 10:40 a.m. 1 THE PANEL CHAIRPERSON: Thank you very 3 much. Ms. Meek? 4 FINAL SUBMISSIONS BY CMMG: 6 MS. CHARLOTTE MEEK (by phone): Thank 7 you, Madam Chair. Good morning to the Board, MPI 8 executives, and other Interveners. 9 Similarly to Our Friends at CAC 0 (Manitoba), CMMG would like to start off by thanking 1 the Board and MPI for the efficiency with which this 2 process has been conducted in order to provide 3 financial relief to Manitobans during the current 4 climate. 5 Manitoba Public Insurance has brought | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 | MPI is attempting to assert that as the riding season, as defined by MPI, only commences on May 1st, that MPI has no exposure to risk prior to that. This is simply inaccurate, as Mr. Johnston acknowledged that MPI provides insurance to the motorcycle class with active Basic policies year round. MPI, therefore, provides a service and covers claims outside of the riding season. This year, given weather conditions and road conditions, the opportunity for motorcyclists to begin riding arose well before May 1st. MPI's | |
| | 198 | | | 200 |
| | an application before this Board requesting an Order to allow a capital release of funds. These funds have built up through a significant reduction in collision frequency and, therefore, claims costs as a result of the COVID-19 pandemic. Through the requested wording of the Order by MPI, the recipients of the rebate have been limited to those ratepayers with insurance policies in | 3 | The second argument cited by MPI in support of their exclusion of the motorcycle class is that motorcycle premiums are fully earned during their defined riding season. As explored through the question-and-answer period, an earned premium is distinct from the date that the premium is collected by the Corporation from the insured. Mr. Johnston acknowledged that MPI's | |

- 9 force and earning premium on March 15th, 2020. The
- 10 use of this requirement has the effect of excluding
- 11 the motorcycle class from eligibility for this portion 12 of the rebate.
- 13 In the application, MPI cited two (2)
- 14 main arguments supporting their position that the
- 15 motorcycle class should not be eligible for the
- 16 proposed rebate from Basic. The first point MPI made
- 17 was that motorcyclists are assumed to not
- 18 significantly contribute to the lower claims frequency
- 19 during the period from March 15th to May 15th. MPI
- 20 supported this idea by pointing out that the riding
- 21 season, as defined by MPI, is May 1st to September 22 30th.
- 23 Through the question-and-answer period,
- 24 Mr. Johnston acknowledged that temperatures and road
- 25 conditions since April 17th, 2020 were sufficient to

- 9 identification of the riding season and premiums being 10 earned by MPI during that season is an accounting 11 decision to match the recognition of revenue with the 12 timing of the incurred loss, or in other words, to 13 charge premiums when the exposure occurred. Mr. Johnston acknowledged that the 15 riding season, as defined by MPI, upon which MPI earns
- 16 premium, is not representative of the term of coverage 17 for motorcycles within enforced policy. Mr. Johnston acknowledged that
- 18 19 motorcyclists pay premiums outside of the earning
- 20 period. The period upon which motorcycles earned
- 21 premium is simply an accounting methodology used by
- 22 MPI. It is not an accurate representation of the
- 23 riding season for the motorcycles or for the period
 - 24 for which motorcycle premiums are actually paid by 25 insured.

| | | 201 | | | 203 |
|--|--|-----|--|---|-----|
| 13 14 15 16 17 18 19 20 21 22 | Further, it is clear that premiums not yet being earned for the period in question by the motorcycle class is not sufficient to exclude a class from eligibility for the rebate, as Mr. Johnston confirmed that premiums for the private passenger class have not yet been earned up to and including May 15th, 2020. Mr. Johnston, throughout his examination, repeatedly raised the point that a significant portion of motorcycle premiums are insured as pleasure vehicles as a reason why the vehicle class should be excluded. This point was additionally brought up by Mr. Scarfone in his submissions this morning. During the question-and-answer period, Ms. McCandless questioned Mr. Johnston, though, and con he confirmed that the proposed rebate by MPI would be covering private passenger vehicles insured under pleasure coverage. This clearly, then, does not represent a reasonable reason to exclude the motorcycle class. This year, motorcyclists are able to be driving much earlier than May 1st, and those with | | 3 4 5 6 7 8 9 10 11 12 13 14 | Mr. Johnston was able to confirm during the question-and-answer period that had the normal process been followed to allow a relief from the CMP through a reduction in premiums, that the reduction would have applied across all major classes. The motorcycle class would, therefore, have benefitted from the reduction in premiums. While I appreciate Ms this morning, Mr. Williams suggested that the proposed rebate is not comparable to a CMP release, he equated the current rebate with a previous rebate mechanism for past GRAs. While I'm not familiar with the mechanisms of previous rebates, I would submit that where a previous rebate will be calculated from savings accrued over a year and equally dispersed to ratepayers, the same argument would apply. CMMG, through a number of pre-asks, requested MPI's confirmation that there would be no additional cost to provide the rebate to the motorcycle class as requested for the private passenger class. Mr. Johnston indicated that there would not be a massive cost, but noted that there may be delays of up to one (1) week where different | |
| 24 | Basic policies were paying premiums that were in force | | 24 | queries were required. | |
| 25 | as of March 15th. MPI provides full coverage to those | | 25 | Upon further questioning by the Board, | |
| | | 202 | | | 204 |
| 2 3 4 5 6 7 8 9 10 11 12 13 14 15 | motorcyclists with Basic policies held as of March 15th, 2020, and those policyholder holders will have contributed to the reductions in claims, and therefore contributed to the excess capital now held by MPI. MPI's internal accounting methodology, which determines when premiums are deemed as profit, is not a sufficient reason to prohibit a major class from eligibility to the proposed rebate. MPI has justified the proposed rebate by likening the rebate to a release of funds through the Capital Management Plan. As explored through the question-and-answer period, the Capital Management Plan allows for a capital relief where the RSR exceeds 100 percent MPT. The Capital Management Plan allows the excess capital to flow back to ratepayers, usually in the form of future rate decreases. Due to the negative economic impacts of the COVID-19 pandemic, MPI has suggested to the Board that it is just and reasonable that the relief to Manitobans be expedited by way of special rebate. MPI suggests that the Board, instead of distributing the rebate in the form of reduced premiums, that the MPI issue to ratepayers a lump sum payment calculated as a percentage of their annualized premiums. | | $\begin{array}{c} 3\\ 4\\ 5\\ 6\\ 7\\ 8\\ 9\\ 10\\ 11\\ 12\\ 13\\ 14\\ 15\\ 16\\ 17\\ 18\\ 20\\ 21\\ 22\\ 23\\ 24 \end{array}$ | Mr. Johnston and Mr. Giesbrecht provided differing estimates of possible delays. What was clear from Mr. Johnston is that any insured receiving a rebate under the Extension would also similarly receive a rebate under Basic, and therefore, no additional cheques or additional costs for mailing would be incurred. CMMG would recommend that where the delay would be up to one (1) week, that delay would be just and reasonable in the circumstances. Mr. Scarfone, on re-direct, pointed out that by including the motorcycle class the rebate due to the 700,000 insured already qualified the re for the rebate, would have their rebate reduced. While CMMG acknowledges that there would be a reduction in the rebate for other insureds, CMMG proposes that the rebate should be equally and fairly distributed to all vehicle classes, rather than the detriment of one class over another. Further, Mr. Scarfone this morning suggested that motorcyclists may cancel their insurance before the riding season. If we have a look at Exhibit 5, MPI Exhibit 5, I don't know if we're able to pull that up, Kristen? Thank you. If we just scroll down to the | |

| | 20 | 5 | | 207 |
|--|---|--|---|-----|
| 1 | chart. | 1 | MS. CAROL HAINSWORTH (by phone): No, | |
| 2 | This was information provided by MPI | 2 | | |
| 3 | recording the number of cancellation policies. And as | 3 | • • | |
| 4 | you can see, the numbers in 2020 are actually | 4 | Vanderwater? | |
| 5 | significantly less than those numbers in 2019. | 5 | MR. ROBERT VANDERWATER (by phone): | |
| 6 | It appears then that motorcyclists are | 6 | No, thank you. | |
| 7 | not cancelling their insurance and they are down from | 7 | THE PANEL CHAIRPERSON: Okay, thank | |

| | 213 | | | 215 |
|---|-----|----|---|-----|
| 1 (1) of his recommendations was that this Board suspend | | 1 | THE PANEL CHAIRPERSON: Thank you, Mr. | |
| 2 the application of the Capital Management Plan for the | | 2 | Scarfone. | |
| 3 fiscal year 2020/'21. I didn't hear, I don't believe, | | 3 | THE BOARD CHAIRPERSON: Sorry | |
| 4 a reason for doing that. I don't know that it matters | | 4 | THE PANEL CHAIRPERSON: Mr. Gabor? | |
| 5 much, but just be careful about that, I would suggest, | | 5 | THE BOARD CHAIRPERSON: Mr. | |
| 6 because next year in March 31, 2021, as we've set out | | | Scarfone, I I just want to get clear in my mind. | |
| 7 in the application, we fully expected that there would | | | You made the comment "they haven't paid the premiums." | " |
| 8 be a transfer of excess capital in Extension to the | | 8 | MR. STEVEN SCARFONE: Yes. | |
| 9 benefit of the Basic ratepayers. And next year, that | | 9 | THE BOARD CHAIRPERSON: Okay. My | |
| 10 transfer represents Year 2 of the trial period. | | | understanding is they paid premiums, but they're not | |
| 11 And so if we are we're in a pause of 12 the transfer this year because of COVID, and and we | | 11 | earned premiums MR. STEVEN SCARFONE: Correct. | |
| 13 have a suspension next year, essentially, we've done | | 13 | THE BOARD CHAIRPERSON: because the | |
| 14 away with the two (2) year trial period of the CMP. | | | way Manitoba MPI does its accounting. I mean, they | |
| 15 And we want to see how that works for our ratepayers. | | 15 | pay premiums throughout the year. If there's as I | |
| 16 So be careful when when considering that particular | | | understand it, if, for example, they are in an | |
| 17 recommendation. | | | accident, they have insurance coverage because they've | |
| 18 On the motorcycle front, I'm I I | | 18 | paid the premiums. But the issues is this definition | |
| 19 would only add that ultimately, Madam Chair, this | | 19 | of earned premiums. Is that correct? | |
| 20 Board need only concern itself with one (1) thing, and | | 20 | MR. STEVEN SCARFONE: My understanding | |
| 21 that is doing what's just and reasonable in all the | | 21 | from Mr. Johnston's evidence yesterday, anyways | |
| 22 circumstances, and in particular, the circumstance of | | 22 | was that during that riding period that we've | |
| 23 this application. And returning monies to a class of | | | identified is is the period of time depending on | |
| 24 vehicle owners that haven't paid premiums is not just | | | how the customer wants to align their payments, is the | |
| 25 by any measure; in fact, it represents a windfall for | | 25 | period of time that the motorcycle customers will | |
| | 214 | | | 216 |
| 1 that motorcycle class. | | 1 | actually pay their premiums. And so Mr. Johnston | |
| 2 And and so we are here today for one | | 2 | equated payment of premiums to earning premiums. He | |
| 3 (1) reason: simply put, there's been a reduction in | | 3 | said they're essentially the same thing, if you look | |
| 4 claims. And the motorcyclists have not made any claims | | 4 | back at his evidence. | |
| 5 in the rebate period. And so I know Ms. Meeks (sic) | | 5 | THE BOARD CHAIRPERSON: Well, but Mr. | |
| 6 points to that figure, but it's important, when | | | Graham, if you're riding your motorcycle on Aug | |
| 7 looking at that figure on cancellation of policies | | | April 20th, and you have an accident, do you have | |
| 8 and and Mr. Gabor asked me about that none of 0 these weeks fall within the riding period | | | coverage? | |
| 9 those weeks fall within the riding period. | | 9 | MR. BENJAMIN GRAHAM: Yes. THE BOARD CHAIRPERSON: Okay. | |
| 10 So right now, none of those motorcycle 11 owners are being asked to pay anything. The | | 10 | MR. BENJAMIN GRAHAM: But I'll I'll | |
| 12 cancellations may dramatically change once they have | | 12 | | |
| 13 to reach into their wallets and start paying premiums. | | 13 | THE BOARD CHAIRPERSON: Because you | |
| 14 But the but the evidence was clear from Mr. | | | paid premiums towards | |
| 15 Johnston yesterday that they made no contribution | | 15 | MR. BENJAMIN GRAHAM: I'll I'll | |
| 16 whatsoever, and so a return of monies to the | | 16 | THE BOARD CHAIRPERSON: coverage | |
| 17 motorcycle class wouldn't be just. | | 17 | that | |
| 18 As I've indicated, we agree on the | | 18 | MR. BENJAMIN GRAHAM: interpret the | |
| 19 recommendations of the CAC on the on the claims | | 19 | - | |
| 20 monitoring piece and believe, aside from this hiccup | | 20 | THE BOARD CHAIRPERSON: Okay. | |
| 21 that we're here on today, that the Capital Management | | 21 | MR. BENJAMIN GRAHAM: Basically, I'm - | |
| 22 Plan should carry on unfettered to allow the | | | - I'll use myself as an example. My renewal is due in | |
| 23 Corporation to transfer excess monies as it sees fit. | | | | |
| | | | the end of July. I pay my annual premiums for both my | |
| And those are all the the comments 25 I'm going to make in reply. | | 24 | the end of July. I pay my annual premiums for both my motor vehicle, my private passenger vehicle and my motorcycle. But MPI does not earn that premium or, | |

| | 217 | 219 |
|--|-----|---|
| 1 for a better term, the payment of that premium is not 2 recognized by us until May 1st. So the money can 3 sit there, but we're not earning it because the claims 4 don't start coming in. 5 And again, it's that that 6 recognition of premiums matching the claims exposure, 7 and at this point in time, we haven't had any claims 8 by motorcyclists. We we haven't had them to match 9 against that premium earning. That's all we're 10 saying. 11 THE BOARD CHAIRPERSON: Okay. 12 MR. STEVEN SCARFONE: Yeah, and you'll 13 recall, Mr. Gabor, that I thought it was helpful. 14 Mr. Johnston yesterday provided some historical 15 context about how this came about with the motorcycle 16 group in in in collaboration with the CMMG and - 17 - and that they changed the system because the 18 customers it it wasn't a system that was 19 palatable to the motorcyclists. So this is the 20 this is the way that they've now done it for these 21 seasonal riders. 22 THE BOARD CHAIRPERSON: Okay. Thank 23 you. 24 THE PANEL CHAIRPERSON: Thank you. 25 This now concludes the '20/'21 Manitoba | | to follow. This concludes our hearing. Thank you very much. Upon adjourning at 11:07 a.m. Certified Correct, Certified Correct, Donna Whitehouse, Ms. Donna Whitehouse, Ms. |
| Public Insurance Corporation Special Rebate Application Hearing. On behalf of the Board panel, I would like to thank everyone for their cooperation throughout this hearing. This includes the CEO of MPI, Mr. Graham; MPI witnesses Mr. Johnston and Mr. Giesbrecht and their counsel Mr. Scarfone, Mr. Triggs, and Mr. Guerra; the Interveners and their respective counsel for the Consumers' Association, Mr. Williams and Ms. Dilay; for CMMG, Ms. Meek; and for IBAM, Mr. Unfried; secretary of the Board, Dr. Darren Christle; and our document manager, Ms. Kristen Schubert; secre Ricardo Ratan (phonetic), who provided technical assistance for the virtual hearing; our court reporter, Digi-Tran, including Donna Whitehouse and Ms. Wen Wendy Woodworth; our advisers Mr. Cathcart, Mr. Pelly, and Mr. Man Manktelow; and our counsel Ms. McCandless and Mr. Watchman. The Board also appreciates the members of the public who took the time to follow the proceedings via our live streaming on the PUB website. The Panel will be meeting to deliberate following this hearing, and we'll make our final determinations on the matter before us. Our decision | 218 | |
