LICENCE: [REDACTED]

DATE: 27 AUG 2018

As a result of your involvement in the driving incident(s) listed below, we are alerting you to future interventions you may face under the Driver Improvement and Control Program.

10 SEP 17	CONVICTION	WPG	11:39 HRS
29 JUN 18	CONVICTION DRIVING W/O LIC	WPG	13:30 HRS

The Driver Improvement and Control Program aims to stop bad driving habits before they start. Early interventions are a key part of the program.

While you will not face these interventions for the incident(s) listed above, if you are involved in any further driving incidents you may be:

- required to complete driver examinations or attend a driver safety course at your own expense; or
- subject to licence suspension.

Driving with extra caution will help you avoid these interventions. It will also help you avoid other consequences, such as fines and extra insurance premiums.

Your safety and the safety of all Manitobans remains our first priority.
